News from the Center for Commercial Agriculture:

Ag Economy Barometer on Bloomberg Terminal
The Purdue/CME Group Ag Economy Barometer is now available on the Bloomberg Terminal. Starting in early October, the barometer and two of its components—the Index of Current Conditions and the Index of Future Expectations—are now being reported on the Bloomberg Terminal under the following ticker symbols: AGECBARO, AGECCURC and AGECFTEX.

Farm Financial Management Workshop
The Center for Commercial Agriculture conducted a farm financial management workshop for 24 Purdue Extension educators in agriculture and natural resources in Indianapolis. Michael Langemeier and Jim Mintert led the workshop, which focused on improving educators’ financial management skills to help prepare them for working with their farm management clientele this coming year.
faradoc Publications
Michael Langemeier and Michael Boehlje have penned October articles for University of Illinois' faradoc daily publication. Read them here:
- An Update on the Farm Safety Net by Langemeier and Boehlje
- Impact of Lower Corn Prices on Feeding Cost of Gain and Cattle Finishing Net Returns by Langemeier
- Explaining Fluctuations in DDG Prices by Langemeier

News from the Center for Food and Agricultural Business:

Managing Talent to Win
The Center for Food and Agricultural Business launched a new open-enrollment program, Managing Talent to Win, Oct. 18-20. The program filled to capacity with 30 management-level and HR professionals seeking to improve their talent management abilities and integrate talent management into organizational strategy.

MS-MBA in Food and Agribusiness Management
The 2016-2018 cohort of MS-MBA students kicked off their studies in August with their first in-person residency at Indiana University. The class joins the 2015-2017 cohort here on the Purdue campus, Oct. 30-Nov. 4. At this residency, first-year students study quantitative analysis and economics with Mike Gunderson and Mike Boehlje, while second-year students study advanced quantitative analysis and trade with Roman Keeney and Phil Abbott.

Large Commercial Producer Project
Work on the 2017 Large Commercial Producer Project has begun and the center is currently recruiting consortium partners. The LCP Project has historically been conducted every five years to explore the fundamental attitudes of commercial producers and how they impact buying decisions. Starting with the 2017 survey, the project will now be conducted every four years to meet industry demand for more frequent data. Findings will be unveiled at the 2017 National Conference for Food and Agribusiness.

News from the Center for Global Trade Analysis:

2016-2 GTAP 101 Course
“Introduction to Computable General Equilibrium Modeling”

The Center for Global Trade Analysis recently held the second 2016 offering of its GTAP 101 Course from September 12 – October 28, 2016. GTAP 101 is an online course aimed to engage participants in an active, team-based process of learning about the GTAP computable general equilibrium (CGE) model and its use in applied economic policy analysis. During the course, participants:

- reviewed core economic theories from macro, micro, trade and public finance and observe how they are operationalized in an applied general equilibrium model;
- learned to recognize, control and interpret the theoretically consistent behavior of consumers and producers in the model;
- observed the aggregated, macroeconomic impacts of microeconomic behaviors;
- defined model experiments that represent real-world issues and problems; and
- learned to interpret general equilibrium model results by calling on and integrating their knowledge of multiple fields of economic study.

In total, 18 individuals from 13 different countries representing government agencies, international institutions, the private sector, and academia participated in this course.

For further information on GTAP 101, please visit: https://www.gtap.agecon.purdue.edu/events/GTAP101/.
