

WILDCAT VALLEY FARMS

Stewarding Conservation and Sustainability

Wildcat Valley Farms, a 7th generation family farm located in Lafayette Indiana, has multiple full or part time job positions available at this time. We operate a contract embryo recipient cattle program, feed out cattle for freezer beef and raise row crops.

If you have been looking for an opportunity to put your education to work on a beef farm not far from campus we have a great opportunity!! We are seeking a person or persons who have experience with cattle and general farm related tasks. Job duties can be customized based on qualifications and interests of candidate but may include: monitoring herd health (cow herd and feedlot), calving, administering injections, ear tagging, sorting cattle, feeding, maintaining records, equipment operation, estrous synchronization and detection, managing vaccination program and tracking feed inventories. We would like someone who has dependable availability during calving (Dec-Apr) or possibly multiple people with alternating schedules who can work in shifts.

Compensation will be based upon availability and skill set. Our ideal candidate has: veterinary experience with cattle, the desire to learn, a fine attention to detail, a passion for cattle, and an observant eye. Contact Josh at 765-490-7689 or email resume to: jcfarms14@gmail.com
