National Information Management & Support System

Welcome! The National Information Management and Support System (NIMSS) is a web-based application that will allow participants of Multistate Research Projects and Activities to submit proposals and reports online. Interested parties, stakeholders and cooperators can also query the System for relevant and timely information. NIMSS manages Multistate Research and Activities supported by the State Agricultural Experiment Station (SAES) from the Hatch Multistate Research Fund (MRF) provided by the National Institute for Food and Agriculture (NIFA).

Clicking view on a project will take you to the project outline. There is also a **Project Menu** on the left with sections to learn more about the project.

If you find a project you are interested in joining, please email Marshall Martin (marshallmartin@purdue.edu) and your department head and CC Julie Estrada (estrada@purdue.edu) to request to join.

Once your request is approved at Purdue, I will send you instructions to complete the Appendix E to officially join the project in NIMSS.

The screenshot shows the NIMSS project page for S1054. On the left, a **Project Menu** is highlighted with a red box, containing links for: Homepage, Outline, Appendix E: Participation, History, SAES-422 (report and minutes), Participants Directory, Publications, Photo Album, Links, and Attachments. The main content area displays project details: **S1054: Biobased Fibrous Materials and Cleaner Technologies for a Sustainable and Environmentally Responsible Textile Industry** (Multistate Research Project), Status: Active, Duration: 01/01/2013 to 09/30/2018, Administrative Advisor(s): Robert Shubstad, NIFA Reps: Daniel Cassidy, and a **Statement of Issues and Justification** section.
