SEPTEMBER 5 & 7
INVASIVE PLANT CONTROL TRAINING FOR LANDOWNERS

Learn how to control out-of-control invasive vegetation on your forest property.

Practical, hands-on training by foresters and natural resource professionals. Includes one evening and one Saturday field session.

Topics:
- Assessing your invasive plant problem – species, size, amount
- Three pillars of invasive management – prevention, early detection, strategic management of existing infestations.
- What are your control options and deciding which methods are best for your situation.
- Herbicides? Which to use, how to read the label, calculating rates, how to mix, application methods and techniques, timing, safety, laws and regulations.
- Funding and technical assistance
- Hiring a contractor
- Set your goals and objectives. Put it all together in a plan.
- Beyond control – habitat restoration and enhancement.
