

**Pumpkin Fungicide Schedule (March 2021)** - Start applications for bacterial spot control at softball stage unless lesions observed earlier. Initial applications for Phytophthora blight, if needed, will depend on weather and field history-Phytophthora blight can affect seedlings. Powdery mildew will be less of a problem on partially resistant varieties. Start powdery mildew applications at bush stage. Most products from list D also are effective against downy mildew-don't make extra applications for downy mildew unless disease threatens. See *Midwest Vegetable Production Guide* (ID-56). Be sure to alternate FRAC codes. Numbers after products: (REI/PHI-FRAC code).

Application-stage	Bacterial spot	Other foliar diseases	Phytophthora blight	Powdery mildew
Emergence-transplant	No sprays unless lesions observed	Use products from systemic lists A and B if Plectosporium blight and/or black rot threaten.	Spray if Phytophthora blight threatens	
Bush stage				Systemic from list E
Soft ball stage	mancozeb + copper		Systemic list D	
Fruit maturity				Systemic from list E
			Systemic list D	
Harvest	Sprays not needed after youngest fruit in field is more than 14 days post pollination.		Systemic list D	
			Systemic from list E	
		Systemic list D		

Systemic list A-black rot	Systemic list B-Plectosporium blight
Luna Experience (12/7-7, 3)	Cabrio (12/0-11)
Monsoon, Onset, Toledo, Vibe (12/7-3)	Inspire Super (12/7-3, 9)
Miravis Prime (12/1-7,12)	Merivon (12/0-7, 11)
	Quadris, Satori (4/1-11)

Systemic list D-Pythium, Phytophthora blight	Comments
Agri-Fos, Phostrol, Prophyte, Rampart (4/0-33)	These products should be applied first in most cases. Phosphite products drenched onto squash or pumpkin crowns at about bush stage may help to lessen disease severity.
Forum (12/0-40)	
Elumin (12/2) – 22	
Orondis Ridomil Gold SL (48/5-U15-4)	May be available as a co-pack. Do not follow soil application of Orondis with foliar application.
Orondis Ultra (4/0-40,49)	
Ranman (12/0-21)	
Revus (4/0-40)	
Presidio (12/2-43)	
Zampro (12/0-45,40)	

Systemic list E-powdery mildew	Comments
Aprovia Top (12/0-3, 7)	Also on list A, B.
Fontelis (12/1-7)	
Gatten (12/0-U13)	
Luna Experience (12/7-7, 3)	Also on list A
Procure (12/0-3)	
Quintec (12/3-13)	Contact product.
Rally (24/0-3)	
Tebuconazole (Monsoon, Toledo)(12/7-3)	
Torino (12/0-U6)	
Inspire Super (12/7-3,9)	Also on list A
Vivando (12/0-U8)
