

Department of Biochemistry Safety Committee Meeting Minutes

Monday April 10, 2018

Members in attendance: Karyn Rodkey, Kim Muldoon, Sherry Honn, K. K. Ho, Sandy Rossie, Joe Lynch, Mayank Srivastara

The committee met to go over the safety audits and get clarification for any questions that arose when the committee members were editing them.

The committee also discussed issues that came up during the year about storage of safety documentation in the labs. All documentation has to be kept in a binder and up to date in the labs where they are accessible for everyone to see.
