

A GOOD DAY FOR MYCOLOGY!

According to ResearchGate, Dr. Cathie Aime was acknowledged as the researcher at Purdue University with the most reads of 1,542 for a single investigator's publications. Congratulations to Dr. Aime on this outstanding accomplishment.

The image is a screenshot of a ResearchGate profile for Mary Catherine Aime. At the top left is a circular profile picture of a woman with dark hair. To its right is the name "Mary Catherine Aime" in blue text, with a small downward arrow icon to the right. Below this is a large teal banner with white text that reads: "With 1,542 new reads, Mary Catherine Aime was the most read researcher from their institution last week". Underneath the banner is a white button with the word "Like" in blue. Below the banner is a white box containing the name "Mary Catherine Aime" in bold black text, followed by "41.68 · Purdue University · Department of Botany and Plant Pathol..." and a circular profile picture. At the bottom left of this box are the words "Follow" and "Message" in blue. At the bottom right is the text "336 Publications · 7764 Citations".
