

Student Farm Summer Research Internships

The Student Farm, in conjunction with the departments of Botany & Plant Pathology, Agronomy and Horticulture and Landscape Architecture will fund four summer internships this year, and is soliciting applications.

Program Description:

Eight week internship participating in the management of the student farm, including planning, infrastructure development (e.g. hoop house construction) and vegetable production as well as the continued development of a long term plan for the student farm.

Gain experience in designing, executing and reporting experiments in sustainable food systems.

Additional programs will be offered related to graduate training and career opportunities.

Benefits including assistance with housing costs and transportation (if necessary) and \$3,600 stipend.

Starts on June 1 and runs through July 31, 2012.

Eligibility:

Must be US citizen or permanent resident.

Must be in good academic standing.

Selection Criteria:

Demonstrated commitment to the development of the Purdue Student farm.

Development of an appropriate study project.

Academic and other qualifications.

Application Information:

Please fill out the attached form and provide a brief letter of intent and CV, as indicated.

Deadline: Feb 28

Announcements: March 14
