

DYNAMICS OF CLIMATE WORKSHOP

April 3, 2020

8:00 a.m. - 4:00 p.m.

Lilly Nature Center

This workshop will utilize the Dynamics of Climate professional development toolkit, and focus on five critical topics about global warming and climate change that secondary students should learn and that every adult should understand. The workshop will actively engage participants in learning through a combination of large and small group activity and discussion. Climate change data specific to Indiana will also be shared.

WHO: The workshop is appropriate for formal and informal educators and for adults interested in learning about global warming and climate change. Participants will receive a variety of resources, including the Dynamics of Climate toolkit, for use in classrooms and in teacher professional development programs.

WHEN: Friday, April 3, 2020
8:00 a.m. to 4:00 p.m.

WHERE: Lilly Nature Center
1620 Lindberg Rd, West Lafayette, IN
