# Purdue Farmland Value Survey Process

- Survey conducted annually since 1970
  - Rural Appraisers, Ag Lenders, Farm Managers, Farmers
- Ask for land values in
  - December '15, June '16, and December '16
  - Responses for top, average, and poor quality land
- Ask for current cash rent
- Ask for long-term corn yield to garner productivity information

# Possible Pressures on Cash Rents and Land Values

- **Cash Rents**
  - Relatively low earnings for corn and soybeans
- **Land Values**
  - Decline in cash rent
  - Increase in long-term interest rates
  - Increase in inflation
  - Increase in risk premium for the farming sector
  - Relatively high P/rent ratio

# Income – Value Link

$$Farmland Value = \frac{Farmland Income}{Capitalization Rate (\%) - Income Growth Rate (\%)}$$

Income = net return to farmland ownership

Capitalization rate = interest rate & risk premium

Growth rate = growth rate in farmland value income

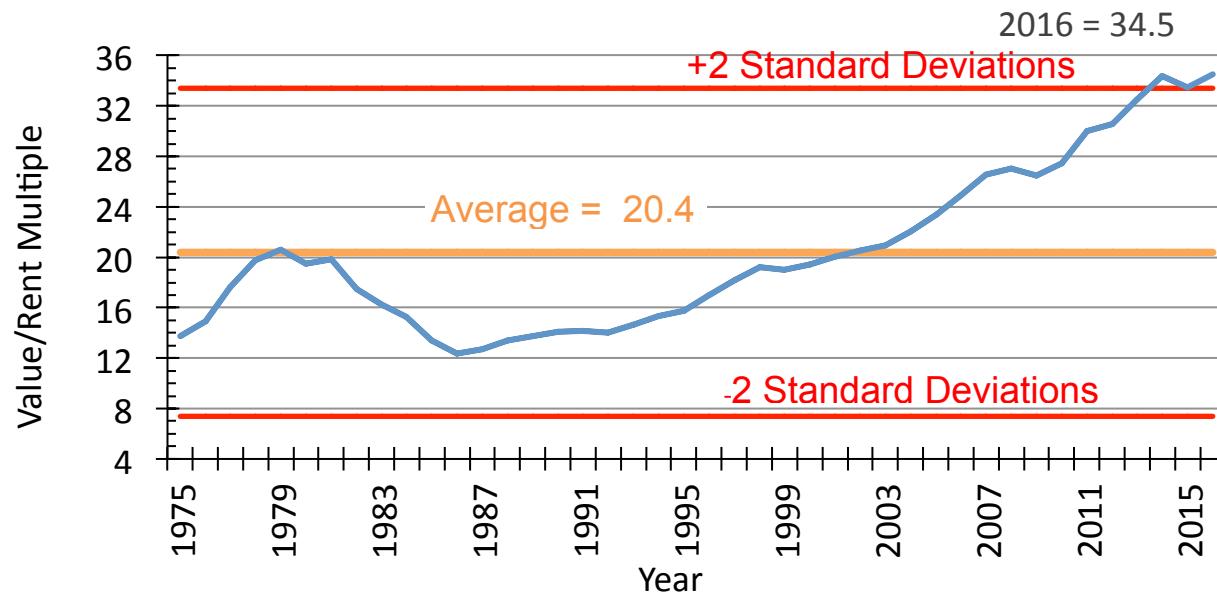

$$\frac{Farmland Value}{Farmland Income} = \frac{1}{Capitalization Rate (\%) - Income Growth Rate (\%)}$$
