

COVID-19's Continued Impact on Family Businesses

The June results are in – 67% of family businesses are back to normal operation. The other 33% of businesses are open less hours than normal or open with a different structure. We asked a similar question in April 2020 and only 35% of businesses had maintained normal operation at that point. As always, we will continue to post resources and webinars for farm, family, and small businesses to our [PIFB Homepage](#) and our [Upcoming Events page](#) as they become available.
