

Health Care Access & Ways to Improve Access

Our February question asked about ease of access to health care providers in your community. While roughly 50% of respondents said that it was “easy” or “very easy” to access their health care provider, there were 28% of respondents who found it “difficult” or “very difficult”. When asked how this access could be improved, the following statements were cited most often:

1. Make it easy to schedule an appointment (combination of calling, e-mail, online software)
2. Improve healthcare access through proximity (Health care providers closer to me)
3. Improve insurance coverage
4. Lower costs

SIX PILLARS OF FARM RISK MANAGEMENT

Are you interested in earning a Purdue certificate in farm risk management? A new online course is open for enrollment NOW, which encompasses a process to mitigate, transfer, and avoid risks in production, marketing, financial, legal, human resource, and social media. This 6-week online course incorporates all six pillars of contingency planning through online modules, recorded videos, and webinars with participants that can be delivered nationwide.

At the end of the course, farms and agribusinesses will have written contingency plans and policies for each of the 6 pillars. [Click here to enroll!](#) Contingency plans will help businesses efficiently recover from disruptions or disasters. Through this program, managers, owners and key employees will be better prepared for disruptions and disasters that their business and/or family will inevitably encounter. *This material is based upon work supported by USDA/NIFA under Award Number 2018-70027-28586.*
