

### Do You Have Health Insurance?

Health insurance can be a huge issue for individuals and families who are sole proprietors or own their own business. In recent years, more individuals have the opportunity to purchase health insurance thanks to the Affordable Care Act. PIFB asked its subscribers if they or their spouse has a job outside of the family firm solely for the reason of having access to health insurance.

Roughly a third of respondents indicated that they or their spouse do hold employment outside of the family business solely for health insurance. Respondents indicated the following proportions of health insurance or health coverage plans:

- 83% have insurance through a current or former employer or union,
- 8% have Medicaid or another government-assistance plan, and
- 8% do not have any health insurance.

### SIX PILLARS OF FARM RISK MANAGEMENT

Are you interested in earning a Purdue certificate in farm risk management? A new online course is open for enrollment NOW, which encompasses a process to mitigate, transfer, and avoid risks in production, marketing, financial, legal, human resource, and social media. This 6-week online course incorporates all six pillars of contingency planning through online modules, recorded videos, and webinars with participants that can be delivered nationwide.

At the end of the course, farms and agribusinesses will have written contingency plans and policies for each of the 6 pillars. [Click here to enroll!](#) Contingency plans will help businesses efficiently recover from disruptions or disasters. Through this program, managers, owners and key employees will be better prepared for disruptions and disasters that their business and/or family will inevitably encounter. *This material is based upon work supported by USDA/NIFA under Award Number 2018-70027-28586.*
