

Job Title: Agronomy Lead

Location: Columbus, IN 47201 (Field Position)

Company: Core Ag Solutions LLC

Job Type: Full-Time

Job Description:

Core Ag Solutions is seeking a highly motivated agronomist to join our team. While serving as the agronomy lead, this position will play a crucial role in optimizing our customer's experience and crop production, ensuring sustainable and efficient agricultural practices.

Responsibilities:

- Conduct field scouting with customers across Indiana
- Complete soil testing and plant tissue sampling for growers.
- Prepare and fulfill the Core Ag Showcase and Data Plots, including data and logistics to achieve the trials in the plot plans.
- Analyze soil and crop management data to identify areas for improvement and optimize crop production.
- Develop and implement crop management plans, including fertilizations, yield limiting factors, and pest/disease control.
- Stay up to date on the latest advancements in agronomy and agricultural technology.
- Collaborate with other team members and external partners to achieve company goals.
- Prepare reports and presentations on crop performance and research findings.

Qualifications:

- Strong Knowledge of crop production, soil science, and plant physiology.
- Excellent analytical, problem- solving, and communication skills.
- Proficiency in using agricultural software and data analysis tools.
- Ability to work independently as part of a team.
- Valid driver's license
