

**Student Handbook  
Undergraduate Programs  
Department of Animal Sciences**

**August 2020**

Purdue University  
Department of Animal Sciences  
Hobart & Russell Creighton Hall of Animal Sciences  
West Lafayette, IN 47907  
[www.ag.purdue.edu/ansc](http://www.ag.purdue.edu/ansc)

## Introduction

Welcome to Purdue University and the Department of Animal Sciences. This handbook has been prepared to help students understand the requirements for their major, give guidance for selecting various elective courses that would be useful for life-long learning and provide information for career opportunities. Developed by Professor Mark A. Diekman in 2000, this is the 20<sup>th</sup> printing of this handbook and includes the College of Agriculture core requirements for students matriculating for the fall 2020 semester.

The Department has the largest enrollment of undergraduate students in the College of Agriculture, with more than 672 students as of Fall 2019. The undergraduate program exemplifies one of the department's greatest strengths. Faculty and staff who are engaged in undergraduate teaching clearly have great dedication to this mission and discuss it with insight and thoughtfulness. Animal Sciences students at Purdue are beneficiaries of a strong culture of commitment to undergraduate education by the faculty. The attitude is well-articulated in the department's teaching and advising mission statement:

*Our primary teaching mission is to instill knowledge of the biology, production, products, and well-being of animals and their contribution to society. We must conscientiously help students develop their communication and mathematical, interpersonal, analytical and problem-solving skills. We are committed to the creation of an environment that promotes intellectual development, especially in providing undergraduate research opportunities, increasing international awareness and interest, and enhancing an intellectual environment for both students and faculty. We are devoted to making students well aware of the importance of continued professional growth and life-long learning as they prepare for an exciting animal science career.*

If any student has any concerns at any time during their stay at Purdue University, please do not hesitate to contact Dr. Elizabeth Karcher (ekarcher@purdue.edu), Undergraduate Programs Coordinator, in Creighton Hall, Room 3022, or Mrs. Ashley York (ashleyyork@purdue.edu), Coordinator of Academic Advising and Student Services, in Creighton Hall, Room 1058A.

Sincerely,

Elizabeth Karcher  
Undergraduate Programs Coordinator  
Email: ekarcher@purdue.edu

## **Animal Sciences Research and Education Center (ASREC)**

The mission of the Animal Sciences Research and Education Center (ASREC) is to provide animals, facilities, and labor to conduct research, provide instruction and assist in extension education activities. Research trials vary from basic to applied and involve many disciplines: nutrition, physiology, behavior, genetics, reproduction, animal health, and product quality. Faculty utilize ASREC to facilitate teaching several Animal Sciences courses and to help provide hands-on experience for students. Some extension education activities held at ASREC are Swine Day, Lambing School, Animal Sciences Workshop for Youth, 4-H and FFA judging, Purdue Royal, and Tots' Day. The Center hosts nearly 100 tours annually with an estimated 2,500 visitors.

The land base for ASREC consists of 1,515 contiguous acres of highly productive prairie soils. There are five separate tracts that were acquired between 1968 and 1987. The Research Center, north of Montmorenci, is adjacent to the northwest corner of the Agronomy Research Center. The relocation of animal units to the current location began in 1968. The first buildings (1969 and 1970) were for swine and poultry. The feed mill was built in the mid-70's and, in 1983, state funds were appropriated for construction of the other animal facilities. Relocation was completed in 1988 for beef, dairy, poultry, sheep, and swine. Twelve quarter-acre ponds were constructed for Aquaculture in 1997. In 1996, the USDA constructed a 10,000 square foot facility for scientists to identify how animals perceive and respond to their environment.

Each animal unit, feed mill, and farm operations has a manager and full-time employees. Additionally, there is a coordinator and an account clerk at the center making a total of 43 full-time employees. Student part-time employees average over 800 hours per week. They are an integral part of our work force, and their experience also provides them with valuable training. If a student is interested in working at a farm unit during the school year or summer, they should contact the unit manager directly.

### **Aquaculture Unit**

*Robert Rode, Mgr.; Phone 583-0351*

This facility is used for intensive research efforts in nutrition, reproduction, and genetics with new and established aquaculture species. The facility is a 7,400 square foot building and consists of a 4,700 square foot tank room, a 480 square foot laboratory, as well as an office, a conference room and a storeroom. Specific objectives of the research conducted at the Aquaculture Unit include: 1) establishing nutritional requirements and management procedures for rearing aquatic species in Indiana; 2) examining alternative aquatic species for potential as new sources of revenue to the State of Indiana; 3) eliminating seasonal spawning in commercial aquaculture species; 4) finding genetic methods of reducing or eliminating cannibalism in aquatic species; and 5) determining genetic and environmental regulators of egg and milt production.

## **Beef Unit**

*Brian DeFreese, Mgr.; Phone 583-2622*

The purpose of the beef unit is to provide cattle and facilities for intensive and extensive research in nutrition, physiology, genetics, growth and development, and meats, as well as undergraduate teaching. Facilities at the Calvert Farm were completed in 1986 and include 640 acres at this site. The cow-calf unit (Scholer farm) is located 16 miles southwest of campus and includes 860 acres of pasture, cropland and woods. The breeding herd consists of 270 Angus/Simmental crossbred females. Typically, 120 head of heifers and first calf cows are maintained at the Calvert facility, while the remaining 150 head of brood cows are maintained at the Scholer farm.

## **Dairy Unit**

*Mike Grott, Mgr.; Phone 583-2526*

The dairy unit provides facilities needed to meet the research, teaching and extension demands of the Indiana dairy industry. Currently, 200 Holstein dairy cows and 200 dairy herd replacements are housed. Brown Swiss embryos have been donated to develop a herd of 20 cows for teaching and extension. Future plans are to develop about the same number of Jerseys for the same purpose. All cows over 6 months of age are fed using complete mixed rations.

The milking parlor has a double six-herringbone milking system, computerized automatic cow ID, milk meter system, automatic removal devices, back flush, stainless steel raceways, CIP equipment, fresh water flush and 3,000 gallon bulk milk cooler. The cow holding and work area includes electronic scales for weighing animals, an area to catch and hold animals, additional space for demonstrations and classes and a central area for working and sorting of animals.

## **Poultry Unit**

*Jason Fields, Mgr.; Phone 583-2950*

The poultry unit and facilities provide for intensive and extensive research in nutrition, physiology, environmental influences and genetics as well as for teaching and extension. It provides fertile eggs to various departments as well as to other universities and schools for teaching and research. The hatchery includes the office, computer, conference room, and seven Jamesway Incubators (cap. of 17,640 eggs) used for hatching eggs for teaching and research. This building has an egg cooler room (cap. of 200 cases) used for storing hatching eggs prior to being set for incubation and for storage of table eggs prior to sale.

## **Sheep Unit**

*Gerald R. Kelly, Mgr.; Phone 583-2822*

The sheep unit provides facilities for intensive efforts in nutrition, reproduction, physiology, neuroendocrinology, and biomedical research, as well as providing animals for undergraduate teaching. The objectives are to improve the quality of animal protein and increase efficiencies of production. The breeding flock has 150 ewes lambing annually with the goal of 50 percent of the ewes in fall lambing as opposed to traditional spring lambing of all ewes.

## **Swine Unit**

*Brian Ford, Mgr.; Phone 583-4897*

The mission of this unit is to provide swine for research in the areas of genetics, nutrition, physiology, and management and also to provide animals for the undergraduate teaching and extension programs. The breeding herd is made up of 240 sows and 12 to 16 boars. Thirty-six litters are farrowed per month. The breeding program includes saving gilts from the herd while boars are purchased. Replacement gilts are from a rotational breeding program using Yorkshire and Landrace boars. Eighty percent of these white females are bred to terminal sires using either H X D or PIC line 405 boars.

## **USDA Livestock Behavior Lab**

*Donald Lay, Jr., Coordinator; Phone 583-2691*

Goals of this facility are to identify how animals perceive and respond to their environment and to find ways to minimize stress. The building has non-slip flooring with post holes every 8 feet so that many different mazes and pen arrangements can be arranged. This versatile facility is available for cognitive research by both USDA scientists and Purdue faculty.

## **Feed Mill**

*Mike Zeltwanger, Mgr.; Phone 583-4785*

The feed mill provides feedstuffs and ingredients, and mixes diets for all animal and poultry units of the Department of Animal Sciences, plus other departments in the Colleges of Agriculture and Veterinary Medicine. The feed mill does not sell feed outside the University. Typically, all diets are custom-mixed to the formulas provided by our various researchers and managers. Approximately 210 tons of feed are manufactured monthly.

## **Outlying Animal Research Farms**

### **Feldun-Purdue Agricultural Center (Feldun)**

*Jerry Fankhauser, Director; Phone 494-8368*

The 1,400 acre Feldun property is located in Lawrence County near Bedford on the limestone derived soils of this part of southern Indiana. Feldun was the first Indiana "experiment station" established outside of Tippecanoe County. This center has only 275 acres of tillable land. The remaining acreage is used as pasture for the 235 herd cattle, which is in research studies by scientists of the Departments of Animal Sciences and Agronomy, and forested land. Feldun is also the site for the Indiana Beef Evaluation Program (IBEP) bull test station.

### **Southern Indiana-Purdue Agricultural Center (SIPAC)**

*Jerry Fankhauser, Director; Phone 494-8368*

SIPAC is located in Dubois County near the Potoka Reservoir. This 1,300 acre center is situated on the difficult to manage sandstone and shale soils of southern Indiana which pose a continuing challenge for agricultural researchers. Since its establishment, SIPAC has been the scene of extensive experimental work on adapted grasses and legumes, livestock grazing trials, forage management, beef cattle winter feeding trials, aquaculture and forest management.

## Registration

Each student is admitted to a school or division of the University and is registered for each session in a selected curriculum. This curriculum is a program of study covering the entire undergraduate or graduate career and is designed to satisfy the requirements for a baccalaureate or advanced degree. The student's schedule for each semester consists of registration of required and elective courses.

The semester-hour is the unit of University academic credit and represents approximately one hour of class attendance each week throughout a normal semester or its equivalent in total work for summer sessions. Any reference to credit hours, course credits, etc., shall be understood as referring to semester-hours.

Instruction is organized and administered as particular subject courses. The level of instruction is indicated by the catalog number. A course numbering system, which reflects the level of instruction, indicates the following:

**00100-09900** -- Precollege, deficiency, or noncredit courses.

**10000-29900** -- Lower-division courses normally scheduled for freshmen and sophomores.

**30000-49900** -- Upper-division courses normally scheduled for juniors and seniors.

**50000-59900** -- Dual-level courses normally scheduled for juniors, seniors, and graduate students.

**60000-69900** --Graduate-level courses designed for graduate students.

## Registration Checklist

- Check “Registration Status & Time Ticket” in myPurdue for your exact time ticket.
- Ensure you don’t have any “HOLDS” that may prevent you from registering during your given time. You may check this in your myPurdue account, under Registration-Do I have any Holds.
- Make an appointment to see your academic advisor as soon as you are eligible to do so.
- Review your up-to-date degree progress via myPurduePlan. Verify accuracy of information. Discuss discrepancies with your advisor.
- Keeping your program requirements in mind, choose the classes you need or want to take. Will the times work together? Work out a tentative schedule and bring this with you to your registration appointment.
- Keep your appointment or cancel ahead of time.
- Check on myPurdue and make sure your addresses and phone numbers are correct to ensure that you will receive a bill and schedule in a timely manner.
- Pay your fees before the date printed on your invoice. Return your fee invoice even if the amount due is "0." If you do not, your registration will be cancelled and you probably will not get back in the same classes. Arrangements are possible through the Office of the Bursar to delay your fees if you cannot make the payment deadline.

## **Adding a Class**

There are times when adding a course to your schedule is desirable after classes have already started. Classes may be added after the second week only under certain circumstances. See your academic advisor to initiate this process.

### Add deadlines for 16 week courses:

Week 1 - Advisor approval needed.

Weeks 2-4 - Advisor and instructor approvals needed.

Weeks 5-9 - Advisor, instructor, and department head approvals needed. Extenuating circumstances only.

## **Dropping a Class**

Dropping a course is possible if you follow the deadlines listed below. Dropping a class may delay your graduation.

### Drop deadlines for 16 week courses:

Weeks 1-2 - Course is not recorded.

Weeks 3-4 - Course is recorded with a grade of W. Advisor approval needed.

Weeks 5-9 - Grade of W, WF or WN will be recorded. Advisor and instructor approvals are needed for students who are classified as a 3 or higher. Students who are classified as 0, 1, or 2 do not need instructor's approval; grade will automatically be a W. A W or WF does not enter into the student's grade index.

## **Checklist for Graduating Seniors**

Your efforts have paid off and you are almost done! Here are a few things that need your attention so that nothing comes between you and graduation.

- Apply to graduate in myPurdue (available up to three semesters ahead of time).
- If you have any concerns, check with your academic advisor early in the semester to verify that your degree requirements are being met. You may want to order a transcript so that you can clearly see your academic record by semester.
- Check degree progress in myPurduePlan. Email your advisor if you believe something is in error.
  
- Beware of senioritis. It's easy to be distracted. Check minimum grade point average and credit requirements for your plan of study.
- Make sure you have no holds (such as financial aid exit interview, or money owed for parking tickets, student health center services, library fines, lab breakage fees, etc.). You will not receive your degree until holds have cleared.
- Provide your current and future address to the Office of the Registrar via myPurdue or at Hovde Hall, Room 45.

- Midway through the semester, a graduation tab from the Office of the Registrar is available for you to order cap and gown and tickets needed for commencement activities.

## **Grades**

### **Incomplete Work (Credit or Non-Credit Courses)**

- I Incomplete; no grade; a record of work that was interrupted by unavoidable absence or other causes beyond a student's control, which work was passing at the time it was interrupted, and the completion of which does not require the student to repeat the course to obtain credit. The incomplete also may be used to delay the awarding of a grade in courses (e.g., self-paced courses, mastery courses, and special problems) the completion of which normally requires one semester, but the structure of which allows specified additional time. An instructor may require the student to secure the recommendation of the Dean of Students that the circumstances warrant a grade of incomplete. When an instructor reports a grade of I, he or she shall file in the departmental office a statement of the reason for the grade and what is required of the student to achieve a permanent grade (Form 60). He or she also shall indicate the grade the student has earned on the work completed and the weight to be given to the remainder of the work in computing a final, permanent grade. The student must achieve a permanent grade in the course no later than the end of the second subsequent semester of enrollment, or the I grade will revert to a failing grade (IF) and enter into the student's grade index.
- PI Incomplete; no grade; same as I except that the student was enrolled under the pass/not-pass option.
- SI Incomplete; no grade; same as I except that the student was enrolled in a zero credit course.

### **Pass/Not-Pass Option**

To provide students with the opportunity to broaden their educational foundations with minimal concern for grades earned, the pass/not-pass option is available. Students may register in the pass/not-pass option under certain conditions. A student classified as a sophomore or higher and who has a minimum of 2.0 graduation index may elect the pass/not-pass grading option. A maximum of 21 credits of elective courses under the pass/not-pass grading option can be used toward graduation requirements. Courses listed on a plan of study that are required by number (i.e., CHM 11100, AGRY 32000) cannot be taken as pass/not-pass. For ANSC majors, all ANSC courses must be taken for a grade except for ANSC 29300/49300. Any elective course is eligible for consideration for pass/not-pass option.

A student enrolled in this option has the same obligations as one enrolled for a letter grade. A student enrolled in this option must earn a grade of A, B, or C to pass the course.

### **Directed Grades**

The Registrar is directed to record the following grades and symbols under special circumstances:

- W      Withdrew: a record of the fact that a student was enrolled in a credit course and withdrew from the course after the second week.
  
- WF     Withdrew Failing: a record that a student, with a classification of 3 or higher, was enrolled in a credit course and withdrew from the course after the fourth week at which time, according to a statement from the instructor, the student was not passing in his or her work. A WF does not enter into the GPA index. A grade of WF may be directed by the Committee on Scholastic Delinquency and Readmissions.
  
- WN     Withdrew Not Passing: the same as WF for a credit course taken under the pass/not-pass except it does not affect index computations.
  
- WU     Withdrew Unsatisfactory: the same as WF for a zero credit course except that it does not affect index computations.
  
- IF      Unremoved Incomplete-Failing: for a credit course in which a student received an I grade, a directed record of the student's failure to achieve a permanent grade by the 12<sup>th</sup> week of the second subsequent semester of enrollment. This grade counts in all respects as a failing grade.
  
- IN      Unremoved Incomplete-Not Passing: for a credit course taken under the pass/not-pass option and in which the student received a PI grade. The same as an IF grade except that it does not affect index computations.
  
- IU      Unremoved Incomplete-Unsatisfactory: for a zero credit course in which a student received a SI grade. The same as an IF grade except that it does not affect index computations.

### **Good Standing**

For purposes of reports and communications to other institutions and agencies and in the absence of any further qualification of the term, a student shall be considered in good standing unless he or she has been dismissed, suspended, or dropped from the University and has not been readmitted.

## Scholastic Indexes

The scholastic standing of all students enrolled in programs leading to a degree is determined by three scholastic grade point averages (GPA): the semester GPA, the cumulative GPA and the program GPA.

1. The semester index is an average determined by weighting each grade received during a given semester by the number of semester hours of credit in the course.
2. The cumulative GPA for an undergraduate student is a weighted average of all grades received as an undergraduate student. With the consent of their academic advisor, a student may repeat a course not intended for repeated registrations. In the case of such a repeated course, only the most recent grade received shall be included in the cumulative GPA. Transfer credits from other colleges and universities may be used to fulfill degree requirements, but cannot be used to remove Purdue recorded grades from GPA calculations.
3. The program GPA is derived from a degree audit and will be used as a criterion to accept a student to a program during the process of Change of Degree Objective (CODO). The degree audit relative to the program to which a student transfers is used to determine the program grade point average. In a case where no courses of the initial program apply to the new program, the same criteria for acceptance may be used as for a student applying out of high school.

### Sample GPA Calculation

Course	Credit Hours	Grade	Credit Hours x Grade Weight =	Quality Points
AGR 10100	0.5	B	0.5 x 3.0	1.5
AGR 11400	0.5	A+	0.5 x 4.0	2.0
ANSC 24500	2	A-	2 x 3.7	7.4
ANSC 10200	3	C+	3 x 2.3	6.9
BIOL 11000	4	D	4 x 1.0	4.0
CHM 11500	4	B+	4 x 3.3	13.2
MA 16010	3	F	3 x 0.0	0.0
<i>ANSC 293 (P/NP) †</i>	2	<i>P</i>	<i>Not included</i>	<i>Not included</i>
<b>Total:</b>	<b>19 Credit Hours</b>			<b>35.0</b>
	<b>17 GPA Hours</b>			

***Semester GPA = Total Quality Points/ Total Semester Credit Hours***

Semester GPA = 35.0/17

Semester GPA = 2.0588124 = 2.06\*

***Cumulative GPA = Total Quality Points/ Total GPA Credit Hours***

For example, if a student had 166.1 total quality points and 70 total GPA hours, their cumulative GPA would be:

$$\text{Cumulative GPA} = 166.1/70 = 2.372857 = \mathbf{2.37}$$

\*GPA is rounded to the nearest hundredth.

†Note: If a course is taken with the pass/no-pass option, a grade will not be assigned and neither Quality Points nor GPA Hours will be accumulated. If the course is completed with a ‘P,’ both Passed Hours and Earned Hours will be accumulated, but those hours will not be used to calculate your semester or cumulative GPA.

### **Transfer Credits**

If a student desires to transfer credits from another college or university, an official college transcript must be submitted to the Credit Evaluation Office in Hovde Hall. If coursework is accepted by Credit Evaluation, the credit is converted into terms of Purdue courses. The credit evaluation summary is then reviewed by Tim Kerr, Senior Assistant Dean of Academic Programs for Agriculture, and course(s) not applicable for credit in the College of Agriculture are indicated. Agricultural courses taken at non-land grant colleges are not evaluated by Credit Evaluation. Credit for agricultural courses may be established by obtaining the necessary signatures on Form 390 (see pages 63-68). Grades are not transferred; only credits in courses are recorded. Only courses with grades of C- or higher are transferable. Credits will transfer from Purdue regional campuses if a passable grade is obtained and the grade is calculated in the cumulative GPA. It is highly recommended that if a student is considering taking courses at another college or university, the course equivalency at Purdue should be verified on the Purdue Transfer Credit Course Equivalency Guide ([https://esa-oas-prod-wl.itap.purdue.edu/prod/bzwtxfcrd.p\\_select\\_info](https://esa-oas-prod-wl.itap.purdue.edu/prod/bzwtxfcrd.p_select_info)).

### **Academic Probation and Dismissal (Drop)**

#### **A. Academic Probation**

A student at Purdue University shall be placed on academic probation if their fall or spring semester or cumulative GPA at the end of any fall or spring semester is less than 2.0. A student on academic probation shall be removed from that standing at the end of the first subsequent fall or spring semester in which they achieve semester and cumulative GPAs equal to or greater than 2.0. Any grade change due to a reporting error will result in a recalculation of the GPA and determination of probation standing. Academic standing is assessed during Fall and Spring semesters only.

#### **B. Academic Dismissal**

A student on academic probation shall be dropped from the University at the close of any fall or spring semester in which their semester and cumulative GPA is less than a 2.0. Any grade change due to reporting error will result in recalculation of the index and determination of drop status.

## **C. Readmission**

A student who is academically dropped from the University for the first time is not eligible to enroll for at least one fall and spring semester. A student who is academically dropped for the second time is not eligible to enroll for at least one year. A student dropped by this rule must apply to the appropriate office or readmission committee for the Purdue campus of choice. For more detailed information about the readmission process visit the following website: <https://www.admissions.purdue.edu/readmission/>.

### **Withdrawal from the University**

If you need to leave the University for the semester, you should officially withdraw through the Office of the Dean of Students in Schleman Hall. This process can be initiated via your mypurdue account- go to the Registration page, select 'Withdraw from Purdue University,' then complete the form. Once the form is submitted, students are required to complete the process by calling 765-494-1747 and speaking with a Student Support Specialist from the Office of the Dean of Students. Failure to officially withdraw could result in failing grades leading to academic probation or drop status.

Registered students who find it necessary to cancel their registration prior to the beginning of classes, upon the recommendation of the Registrar, will receive a 100% refund of all fees and tuition.

### **Scholastic Recognition**

#### **Dean's List**

At the conclusion of each semester, the Registrar shall indicate which undergraduate students are scholastically eligible to be included on the Dean's List. To qualify, one must:

1. Have at least 12 credit hours included in the cumulative GPA.
2. Have at least 6 hours included in the cumulative GPA.
3. Attain at least a 3.5 cumulative GPA.
4. Have at least a 3.0 current semester GPA.

#### **Semester Honors**

At the conclusion of each semester, the Registrar shall indicate which undergraduate students are scholastically eligible for Semester Honors. To be cited, one must:

1. Have at least 6 credit hours included in the semester GPA.
2. Attain at least a 3.5 semester GPA.
3. Have at least a 2.0 cumulative GPA.

### Graduation with Distinction

1. A candidate for the professional and baccalaureate degree with distinction must have a minimum of 65 hours of credit earned at Purdue included in the computation of the cumulative GPA. A candidate for an associate degree with distinction must have a minimum of 35 hours of credit earned at Purdue included in the computation of the cumulative GPA.
2. The minimum graduation index for graduation with distinction in each school shall be no less than the 90<sup>th</sup> percentile of the cumulative GPAs of the graduates in each school, for the spring semester, provided that the index is at least 3.30. The minimum cumulative GPA so determined in the spring for each school shall be applied for graduation with distinction for the subsequent summer session and fall semester. In administering this rule, all baccalaureate engineering graduates will be considered as one school.
3. Of those graduates who qualify for distinction under these rules for the spring semester, the three-tenths of the baccalaureate graduates having the highest graduation indexes shall be designated as graduating with highest distinction, irrespective of the schools from which they graduate. The three-tenths of the spring associate degree graduates having the highest graduation indexes will be designated as graduating with highest distinction. The minimum cumulative GPAs so determined for graduation with highest distinction shall be applied for graduation with highest distinction for the subsequent summer session and fall semester.

### Classification of Undergraduates

A student's academic classification for an associate or bachelor's degree shall be classified by numerals 1-8 according to the total number of credit hours of college work earned.

<u>Total Credits Earned</u>	<u>Semester Classification</u>	<u>Status</u>
14 or less	1	First-Year
15 to 29	2	Student
30 to 44	3	Sophomore
45 to 59	4	
60 to 74	5	Junior
75 to 89	6	
90 to 104	7	Senior
105 or more	8	

During the final registration period, the student is placed in candidate status after completing the graduation application via myPurdue. If the student is not registered at Purdue during the session that the student meets graduation requirements, the student must register for degree only via CAND 99200 and pay a processing fee. If the appropriate credits are transferred to Purdue by the

third week after the end of the semester, the degree is granted and the diploma is mailed to the student's address on file.

### **Study Abroad**

Purdue University offers students within all fields of study the opportunity to participate in international study programs in more than 50 countries: Argentina, Australia, Austria, Belgium, Brazil, Canada, Chile, Columbia, Costa Rica, Cuba, the Czech Republic, Denmark, the Dominican Republic, England, France, Germany, Ghana, Greece, Haiti, Honduras, Hungary, Iceland, Ireland, Israel, Italy, Japan, Laos, Malaysia, Martinique, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, Romania, Russia, Scotland, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Tanzania, Turkey, Vietnam, Wales, West Indies, and Zambia. In most programs, students earn Purdue credit for courses completed. Although the academic experience is rigorous, programs allow extensive contact with the local culture. Depending on the country where coursework was completed, grades or pass/not-pass credit may be granted.

Every effort is made to keep program costs as close as possible to the cost of study on the West Lafayette campus. Students eligible for financial aid may use forms of aid on approved programs. Students are responsible for their own airfare, board, room, books, and other personal expenses. Students may spend a year, a semester, a summer abroad, or a spring or winter break. Foreign language requirements vary from none to the advanced level. The language of instruction is English in more than 50 programs. Some programs are designed for students in specific areas of study; others are open to all Purdue students regardless of major.

For further information and application forms, contact the Programs for Study Abroad Office, International Programs, Room 105, Young Hall. Additional information also is available in the current *General Information* bulletin. Some study abroad programs focus on agriculture, and most satisfy the overseas requirements of the College of Agriculture International Studies minor. Certain College of Agriculture study abroad programs offer special scholarships to cover some costs. For further information about College of Agriculture programs or to request application forms, contact Kara Hartman, International Programs in Agriculture, Room 104, Agricultural Administration Building.

### **Dean's Scholars Program**

The Dean's Scholars Program provides incoming undergraduate students or current undergraduate students who have achieved high academic status the honor of being designated a "Dean's Scholar". Dean's Scholars students are provided enriched, cross-disciplinary educational and extracurricular activities while studying and training in their respective disciplines. The program is designed to motivate students early in their academic programs to participate in rigorous and stimulating academic courses, research, and enrichment activities focusing on the breadth of agricultural, scientific, technological, environmental, and related disciplines housed in the College of Agriculture. The program will help build a sense of community among participants and engage them in the missions of the college and land-grant university (research, teaching, and extension)

by exposing them to and involving them in work and activities focused on broad global challenges. Students will engage with stakeholders and distinguished alumni to gain a better understanding of career paths, opportunities, and success skills.

**Students admitted after Fall 2015 semester:**

- Course Requirements: The Dean's Scholars curriculum is designed to complement and enhance a student's major degree while encouraging students to participate in rigorous and stimulating academic courses and interdisciplinary activities. As such, 12 credits of selective coursework is required for successful program completion. Information on these 12 credits can be found at <https://www.purdue.edu/learningcommunities/profiles/agriculture/aghonors.html>.

### **Undergraduate Thesis Program**

The Department of Animal Sciences provides students with the opportunity to pursue individually designed curricula and to work with a faculty mentor to conduct supervised research or other creative activities. Participants in the Undergraduate Thesis Program are expected to be stimulated, challenged, and rewarded for advanced academic experiences and intellectual activities. Following are the operating policies:

- Students must have completed a minimum of 32 semester credits and have attained a minimum graduation index of 3.25 at the time of admission. Transfer students must complete a minimum of 16 credits at Purdue University before applying for admission.
- Students can apply for admission to the Undergraduate Thesis Program through Dr. Elizabeth Karcher, Undergraduate Programs Coordinator, in CRTN 3022. Before applying for admission, the student is expected to identify a thesis advisor who has agreed to serve as a mentor and to determine a mutually acceptable thesis project. Admission is contingent upon the approval of the Undergraduate Programs Committee and the College of Agriculture Director of Academic Programs.
- Within the first semester after admission to the Undergraduate Thesis Program, the student is expected to develop a plan of study in cooperation with his or her mentor. Plans of study are to be submitted to the Undergraduate Programs Committee for approval. While in the Undergraduate Thesis Program, students must achieve minimum 3.0 semester grade indexes. Participants who fail to meet the semester index requirement may continue in the program upon recommendation of the Undergraduate Programs Committee and with the approval of the College of Agriculture Director of Academic Programs.
- Students in the Undergraduate Thesis Program must complete a minimum of 30 credits in residence at the Purdue University West Lafayette campus.
- Under the direction of their mentor, the student must complete a thesis project of scholarly activity associated with research, teaching, extension, or another area acceptable to the Committee. A written summary report of the thesis project must be submitted to the

Undergraduate Programs Committee for approval. At the discretion of the Committee, the student may also be required to conduct a seminar regarding their project.

- To achieve certification as an Undergraduate Thesis Program graduate, the student must successfully complete the approved plan of study and submit a written project report that is approved by the Undergraduate Programs Committee.
- Successful completion of the undergraduate thesis program will be designated on the student's academic record.

## Faculty/Professional Staff in Animal Sciences

**Undergraduate counselors are in bold print.**

<b>Name &amp; Position</b>	<b>Office</b>	<b>Telephone (765)</b>	<b>E-mail</b>	<b>Specialty</b>

## **Advising in Animal Sciences**

Quality, personable academic advising is a top priority in the Department of Animal Sciences and the College of Agriculture. The faculty-student relationship often extends beyond course selection and scheduling and is enhanced by faculty familiarity with career opportunities. Some advisors maintain an open door policy allowing you to drop in anytime. Most, however, would prefer that you call ahead or e-mail them to schedule an appointment. This allows your advisor to arrange a time that is convenient for both of you and in addition, helps to ensure that you will not miss or have to wait for them.

Your advisor is one of the most important people in your academic program. They can help you with your progress and future after graduation. Get to know your advisor as well as other Animal Sciences faculty members during your academic career. This is important because your advisor and other faculty members are often requested to make recommendations for awards, scholarships and future employment as well as veterinary and graduate school admissions. Also, your advisor can keep you informed of various educational and work opportunities.

Incoming freshmen or transfer students are assigned an advisor in the Department of Animal Sciences. If you are uncertain who your advisor is, contact Ashley York, Coordinator of Advising and Student Services, Creighton Hall, Room 1058A, or call 765-494-4843, or email [ashleyyork@purdue.edu](mailto:ashleyyork@purdue.edu). If you desire to change advisors within the Department, please contact Ashley York. If a student desires to change to another department in the College of Agriculture, complete the Changes of Primary Majors-Within Agriculture Form and have Ashley York or Elizabeth Karcher sign it as an exit signature. If a student desires to process a Change of Degree Objective (CODO) to transfer into or out of the College of Agriculture, the following procedures need to be followed:

### **CODO out of the Department of Animal Sciences**

1. Obtain a CODO Form from your advisor or the ANSC Student Services Suite.
2. To exit the College of Agriculture, acquire signature from the Senior Assistant Director of Academic Programs in the College of Agriculture, Tim Kerr, Agriculture Administration Building, Room 121. Schedule an appointment on BoilerConnect.
3. To enter your new school, obtain the signature of the Dean on your CODO papers. A new academic advisor will be assigned to you within your new major.

## Curricula in Animal Sciences

A student in Animal Sciences at Purdue University can earn a Bachelor of Science degree (B.S.) by completing a minimum of 120 credit hours. To earn a baccalaureate degree, a student shall enroll at Purdue for at least two semesters and complete at least 32 credit hours of upper level courses. In the College of Agriculture, upper level is defined as 30000 level or higher courses at Purdue or one of its regional campuses. Even though courses designated as 30000+ at other universities will satisfy curricula requirements, the course would not apply towards the minimum of 32 hours needed at Purdue. In addition, the graduation candidate must achieve a minimum average of 2.00 in graded ANSC courses and a cumulative GPA of  $\geq 2.00$  in all courses.

### College of Agriculture Core (51 hours) (As applicable to the Department of Animal Sciences)

	University Common Core	Credits
<b>Mathematics &amp; Science</b>		
Biological Sciences	Science	8
General Chemistry	Science	6
Calculus	Quantitative Reasoning	3
Statistics	Information Literacy	3
Additional Mathematics and/or Sciences		3-5*
		<b>23-25*</b>
<b>Science, Technology, &amp; Society</b>	Science, Technology, & Society	<b>1-3*</b>
<b>Written and Oral Communications</b>		
Written Communication	Written Communications	3-4
Oral Communications	Oral Communications	3
Additional Written/Oral Com.		3
		<b>9</b>
<b>Social Sciences &amp; Humanities</b>		
Economics	Behavioral/SS	3
University Core Humanities	Humanities	3
Other Hum/SS		6
Humanities or SS (30000+ Level)		3
		<b>15</b>
<b>AG Core Requirements</b>		<b>51</b>
<b>Departmental Requirements</b>		<b>69</b>
	Total	<b>120**</b>

\*Additional mathematics and/or science required credits will vary depending on the credits devoted to Science, Technology, and Society. Credits of Mathematics and Science and Science, Technology, and Society need to total 26 credits.

\*\*As part of the 120 minimum hours required for graduation, the student must complete a minimum of 9 hours of international understanding credits, a minimum of 3 hours of a multicultural awareness experience and a capstone experience (ANSC 48100) plus one production/management course (ANSC 44000-44600).

### **International Understanding Requirement – 9 credits**

All undergraduate plans of study leading to the degree of Bachelor of Science in Animal Sciences must include a minimum of nine credits from the international understanding selectives list found on the College of Agriculture website (link below), or equivalent study abroad programs, international travel courses, or international work experiences.

[https://ag.purdue.edu/oap/\\_layouts/download.aspx?SourceUrl=/oap/documents/COA\\_CHSS\\_Courses\\_protected.xlsx](https://ag.purdue.edu/oap/_layouts/download.aspx?SourceUrl=/oap/documents/COA_CHSS_Courses_protected.xlsx)

International understanding selective credits may be used to fulfill written and oral communication, social sciences and humanities, or departmental requirements. In today's rapidly changing international environment, students must broaden their understanding and appreciation of the historic, cultural, linguistic, and geographic diversity of the world's peoples, while enhancing their ability to interact effectively with people from other cultures. The objective of the international understanding component of the core curriculum is to stimulate students to explore the world and responsibly apply their learning and knowledge to global challenges.

### **Multicultural Awareness Requirement – 3 credits**

All undergraduate plans of study leading to the degree of Bachelor of Science in Animal Sciences must include a minimum of three credits of multicultural awareness electives. Students must broaden their awareness of the United States' domestic, multicultural environment. The objective of the multicultural awareness component of the core curriculum is to stimulate students to become aware of self as well as others to be better prepared for the workplace and participatory citizenship. Information on courses that will meet this requirement can be found at

[https://ag.purdue.edu/oap/\\_layouts/download.aspx?SourceUrl=/oap/documents/COA\\_CHSS\\_Courses\\_protected.xlsx](https://ag.purdue.edu/oap/_layouts/download.aspx?SourceUrl=/oap/documents/COA_CHSS_Courses_protected.xlsx)

## **Animal Sciences Capstone Experience**

ANSC 48100 and one of the species management classes (ANSC 44000-44600) are required for the Animal Sciences capstone experience.

**A) ANSC 48100 Contemporary Issues in Animal Sciences.** Sem. 1. Lec. 1, Cr. 1.

Restrictions: Junior or senior classification.

Industry-led and student discussion and debate of current issues facing animal industries. Topics include environmental impact, animal care and well-being, ethics, use of biotechnology, world food supply, and international agricultural trade. Industry representatives will share their experiences of the importance of good communication skills as well as technical knowledge of issues that are of concern to animal industries. Professor Mathew and Mr. Delks.

**B) Species Management (ANSC 44000-44600)** Sem. 1 or 2. Lec. 3, Cr. 3.

Restrictions: Junior or senior classification.

A species management course (horse, beef, sheep, swine, dairy, poultry, or companion animal) is required for an Animal Sciences major to graduate, regardless of their concentration. A major component of each of these courses (approximately 20-25% of grade) is to give the student practical experience in aspects of planning and operating an animal enterprise as a member of a team or consultant group. Economic evaluation of the enterprise is an integral part of the project. Written reports and/or verbal presentations of the enterprise will be evaluated.

**MAJOR: ANIMAL SCIENCES (ASCI)

<sup>1</sup>Thirty-two credits must be 30000+ level at Purdue or regional campuses. See reverse for additional details.

**Opportunities: Sales and service of animal health products, feed, production and equipment firms, livestock representatives for banks and other lending organizations, insurance companies and public relations.**

1. Minimum number of credits required for graduation is 120. For ANSC majors, all ANSC courses must be taken for a grade except for ANSC 29300/49300. Cumulative GPA for ANSC courses must be  $\geq 2.00$  to graduate. All ANSC courses taken for a grade will be part of the ANSC index regardless of whether it can be used in the plan of study. A minimum of 32 credits must be 30000+ level taken at Purdue University or its regional campuses. If credit from another university is transferred to Purdue and posted as 30000+, it does not count toward the 30000 level requirement. The following are not applicable as credit towards graduation: CHM 10000; ENGL 10000, 10900; ENGR 19100, 19200, 19300; MA 11100, 12300, 13300, 13400, 15100; PHYS 14900; STAT 11300, 11400; and all General Studies courses except GS 10000 or 49000 (Discovery Park Undergraduate Research). Of MA 15200, 15300, 15400, and 15800, only one course can be used as an elective.
2. All ANSC students classified as 1 are required to take AGR 10100 and AGR 11400. ANSC majors classified as 1 or 2 are required to take ANSC 18100. Transfer students are not required to take AGR 10100 or ANSC 18100. ANSC majors classified as 1-4 are required to establish credit in ANSC 10200.
3. A minimum of 15 credit hours are needed to satisfy the Social Sciences and Humanities requirement. A minimum of 3 credits must be 30000+ level and a minimum of 9 credits must be outside College of Ag.

Economics - 3 Credits\*

- (3) AGECE 20300 (Introductory Microeconomics for Food and Agribusiness)  
 (3) AGECE 20400 (Introduction to Resource Economics and Environmental Policy)  
 (3) AGECE 21700 (Economics) (3) ECON 25100 (Microeconomics)  
 (3) ECON 21000 (Principles of Economics) (3) ECON 25200 (Macroeconomics)

\*AGECE 21700 is preferred; plan of study may include either AGECE 21700 or ECON 21000, but not both.

| Agriculture (Limited to AGR 20100, AGRY 12300, and YDAE 33100) | Political Science  |
| Agronomy (Limited to AGRY 39900 – Afghanistan)                 | Psychological Sciences                                       |
| Anthropology   | Psycho-educational Studies (Limited to EDPS 23500 and 26500) |
|  | Sociology  |

\*\*\*\*Limited to six credits of AGECE 25000, 30500, 33300, 34000, 40600, 41000, 41500, 45000 or 49800.

4. Both CHM 11200 and 11600 cannot be used for credit. When CHM 11100, 11200 and 11600 are taken, only seven credits count towards graduation. If CHM 11100, 11500 and 11600 are taken, CHM 11100 cannot be used for credit.
5. Maximum of 1 class in STAT 30100, 35000, 50100 and a maximum of 1 class in 50300 and 51100.
6. ECON/MGMT Requirements: AGECE 20200, 20300 and 33000 and MGMT 20000 or 20010. Twelve (12) additional credits must be completed from the following courses:  $\geq$  MGMT 20100;  $\geq$  ECON 21900; AGECE 22000 or AGECE  $\geq$  30500. Highly Recommended: AGECE 33100.
7. Animal Science Restricted Selectives. At least 1 course in each of the 5 disciplinary areas must be completed. Eighteen of the ANSC credits in ANSC restricted selectives plus ANSC selectives must be  $\geq$  30100. F = fall semester; S = spring semester.

Genetics	Nutrition	Physiology	Production/Mgmt	Products
ANSC 31100 (F,S)	ANSC 32400 (F,S)	ANSC 33200 (S)	ANSC 44000 (F)	ANSC 30100 (F)
ANSC 51400 (F)	ANSC 52200 (F)	ANSC 33300 (F,S)	ANSC 44100 (F)	ANSC 35100 (S)
BIOL 41500 (F)	ANSC 52400 (S)	ANSC 53500 (S)	ANSC 44200 (S)	
		ANSC 55100 (S)	ANSC 44300 (S)	
		ANSC 55500 (S)	ANSC 44400 (F)	
			ANSC 44500 (S)	
			ANSC 44600 (F)	

8. Recommended: ANSC 49100/ANSC 49300. Both ANSC 10200 and 10600 can be used as an ANSC selective. Combination of ANSC 37000, 37100, 37200, 47000, 47100 and 47200 cannot exceed 3 credits towards ANSC selectives.
9. Multicultural Awareness Requirement: This 3 credit requirement may be met by taking an appropriate course from the multicultural awareness selective list.
10. International Understanding: A minimum of 9 credits may be taken from the International Understanding list, equivalent study abroad programs, international work experiences or international travel course. Courses that satisfy international understanding criteria can be used at appropriate places for credit in the plan of study.
11. Capstone experience: ANSC 48100 plus one course from production/management block (ANSC 44000-44600).

<sup>†</sup>Thirty-two credits must be 30000+ level at Purdue or regional campuses. See reverse for additional details.

**Opportunities: Students desiring a balance of animal production, behavioral sciences, and well-being are best served by this option. Careers are available as managers of animal production units (e.g., beef cow-calf or feed lot manager, flock supervisor, swine manager, or horse trainer and breeder). Limited career opportunities may be available as an animal trainer, zoo environment enhancement specialist, companion animal consultants, breed association animal well-being specialist, and pet safety education specialist for a humane society. Those students interested in advanced studies could become animal behavior consultants or scientists at universities.**

1. Minimum number of credits required for graduation is 120. For all ANSC majors, all ANSC courses must be taken for a grade except for ANSC 29300/49300. Cumulative GPA for ANSC courses must be  $\geq 2.00$  to graduate. All ANSC courses taken for a grade will be part of the ANSC index regardless of whether it can be used in the plan of study. A minimum of 32 credits must be 30000+ level taken at Purdue University or its regional campuses. If credit from another university is transferred to Purdue and posted as 30000+, it does not count toward the 30000 level requirement. The following are not applicable as credit toward graduation: CHM 10000; ENGL 10000, 10900; ENGR 19100, 19200, 19300; MA 11100, 12300, 13300, 13400, 15100; PHYS 14900; STAT 11300, 11400; and all General Studies courses except GS 10000 or 49000 (Discovery Park Undergraduate Research). Of MA 15200, 15300, 15400, and 15800, only one course can be used as an elective.
2. All ANSC students classified as 1 are required to take AGR 101 and AGR 11400. ANSC students classified as 1 or 2 are required to take ANSC 18100. Transfer students are not required to take AGR 10100/AGR 11400 or ANSC 18100. ANSC majors classified as 1-4 are required to establish credit in ANSC 10200.
3. At least 15 credit hours are needed to satisfy the Social Sciences and Humanities requirement. A minimum of 3 credits must be 30000+ level and a minimum of 9 credits must be outside the College of Ag.

Economics - 3 Credits\*

- |  |  |
|--|--|
| (3) AGECE 20300 (Intro Microeconomics for Food and Agribusiness)       | (3) ECON 21000 (Principles of Economics) |
| (3) AGECE 20400 (Intro to Resource Economics and Environmental Policy) | (3) ECON 25100 (Microeconomics)          |
| (3) AGECE 21700 (Economics)  | (3) ECON 25200 (Macroeconomics)          |

\*Plan of study may include either AGECE 21700 or ECON 21000, but not both.

Humanities

- |   |  |
|---|--|

**Opportunities: Careers in research in nutrition, growth and development, animal genetics, reproduction, and management. Students who aspire to careers in research and teaching in colleges and universities should enroll in this option. It can also be used in preparation for professional careers such as medical doctors, dentists, and employment with pharmaceutical industries.**

1. Minimum number of credits required for graduation is 120. For ANSC majors, all ANSC courses must be taken for a grade except for ANSC 29300/49300. Cumulative GPA for ANSC courses must be  $\geq 2.00$  to graduate. All ANSC courses taken for a grade will be part of the ANSC index regardless of whether it can be used in the plan of study. A minimum of 32 credits must be 30000+ level taken at Purdue University or its regional campuses. If credit from another university is transferred to Purdue and posted as 30000+, it does not count toward the 30000 level requirement. The following are not applicable as credit toward graduation: CHM 10000; ENGL 10000, 10900; ENGR 19100, 19200, 19300; MA 11100, 12300, 13300, 13400, 15100; PHYS 14900; STAT 11300, 11400; and all General Studies courses except GS 10000 or 49000 (Discovery Park Undergraduate Research). Of MA 15200, 15300, 15400, and 15800, only one course can be used as an elective.
2. All ANSC students classified as 1 are required to take AGR 10100 and AGR 11400. ANSC students classified as 1 or 2 are required to take ANSC 18100. Transfer students are not required to take AGR 10100/AGR 11400 or ANSC 18100. ANSC majors classified as 1-4 are required to establish credit in ANSC 10200.
3. At least 15 credit hours are needed to satisfy the Social Sciences and Humanities requirement. A minimum of 3 credits must be 30000+ level and a minimum of 9 credits must be outside College of Ag.

Economics - 3 Credits\*

- |  |  |
|--|--|
| (3) AGECE 20300 (Intro Microeconomics for Food and Agribusiness) | (3) ECON 21000 (Principles of Economics) |
| (3) AGECE 20400 (Intro to Resource Economics and Environ Policy) | (3) ECON 25100 (Microeconomics)          |
| (3) AGECE 21700 (Economics)                                      | (3) ECON 25200 (Macroeconomics)          |
- \*Plan of study may include either AGECE 21700 or ECON 21000, but not both.

Humanities

- |   |  |
|---|--|
| Agriculture (Limited to AGR 20100, AGRY 12300, and YDAE 33100)          | History                                      |
| Band (Limited to 3 credits)   | Honors 19900(Science and Pseudoscience)      |
| Classics  | Honors 29900 (Insects in Literature and Art) |
| Educational Leadership and Cultural Foundations (Limited to EDST 20000) | Interdisciplinary Studies                    |
| English Literature**  | Philosophy                                   |
| Foreign Languages and Literature***                                     | Visual and Performing Arts                   |

\*\*See approved list of literature courses.

\*\*\*Foreign language (language or culture and literature) may be a humanities selective. Any foreign language course may be an international understanding selective. A minimum of three credits of a foreign language must be earned to be included in a plan of study. (Arabic, Chinese, Classics, French, German, Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish)

Social Sciences

- |  |   |
|--|---|
| Agricultural Economics****                                     | Economics   |
| Agriculture (Limited to AGR 20100, AGRY 12300, and YDAE 33100) | Forestry & Natural Resources (Limited to FNR 37500)         |
| Anthropology   | Political Science   |
| Agronomy   | Psychological Sciences                                      |
| Anthropology   | Psyco-educational Studies (Limited to EDPS 23500 and 26500) |
|  | Sociology   |

\*\*\*\*Limited to six credits of AGECE 25000, 30500, 33300, 34000, 40600, 41000, 41500, 45000 or 49800.

4. Both CHM 11200 and 11600 cannot be used for credit. When CHM 11100, 11200 and 11600 are taken, only seven credits count towards graduation. If CHM 11100, 11500 and 11600 are taken, CHM 11100 cannot be used for credit.
5. Maximum of 1 class in STAT 30100, 35000, 50100 and a maximum of 1 class in 50300 and 51100.
6. Science Selectives. Twelve (12) credits are required. Maximum of six credits of ANSC 49100 and ANSC 50000+.

ANSC 49100	CS $\geq 14500$	IT 22600, 22700	STAT > 50000 (*STAT 50100 can't be used if STAT 30100 has been taken)
ANSC 50000+	ENTM 52500	IT 34200	CHM 22400 or CHM 29000, CHM $\geq 32100$ , but not CHM 50000, 50200 or 51300. Credit for both CHM 33300 and BCHM 30700 cannot be granted.
BCHM 22100	FS 34100	MA $\geq 26100$	
BCHM $\geq 32200$	FS 36200	PHIL 42100	Physics other than PHYS 14900, 16000, 21400, 21800 or 27000
BIOL $\geq 21200$	FS 44200		Maximum of 6 credits among ANSC 49100 and 50000+.
CNIT 22700	HSCI 56000		(Exception: STAT 50300 is a duplicate of STAT 30100.)
7. Animal Science Restricted Electives. At least 1 course in each of the 5 disciplinary areas must be completed. Eighteen of the ANSC credits in ANSC restricted selectives plus ANSC selectives must be  $\geq 30100$ . F = fall semester; S = spring semester

<b>Genetics</b>	<b>Nutrition</b>	<b>Physiology</b>	<b>Production/Mgmt</b>	<b>Products</b>
ANSC 31100 (F,S)	ANSC 32400 (F,S)	ANSC 33200 (S)	ANSC 44000 (F)	ANSC 30100 (F)
ANSC 51400 (F)	ANSC 52200 (F)	ANSC 33300 (F,S)	ANSC 44100 (F)	ANSC 35100 (S)
BIOL 41500 (F)	ANSC 52400 (S)	ANSC 53500 (S)	ANSC 44200 (S)	
		ANSC 55100 (S)	ANSC 44300 (S)	
		ANSC 55500 (S)	ANSC 44400 (F)	
			ANSC 44500 (S)	
			ANSC 44600 (F)	

8. Highly recommended: ANSC 49100/ANSC 49300. Both ANSC 10200 and 10600 can be used as an ANSC selective. Combination of ANSC 37000, 37100, 37200, 47000, 47100, and 47200 cannot exceed 3 credits towards ANSC selectives.
9. Multicultural Awareness Requirement: This requirement may be met by taking an appropriate course from the multicultural awareness selective list.
10. International Understanding Requirement: A minimum of 9 credits may be taken from the International Understanding list, equivalent study abroad programs, international work experiences or international travel course. Courses that satisfy international understanding criteria can be used anywhere in the plan of study.
11. Capstone experience: ANSC 48100 plus one course from production/management block (ANSC 44000-44600).

**MAJOR: ANIMAL SCIENCES (ASCI)**  
**CONCENTRATION: PRE-VETERINARY MEDICINE (PRMD)**  
**Credits required for graduation: 120**

**Freshman Year**

**Note: Courses in bold are required to apply to veterinary school.**

<sup>1</sup>Thirty-two credits must be 30000+ level at Purdue campuses.

\*Course requirements for 3+1 Program, in addition to **veterinary school prerequisites**. Minimum total of 100 credits.

See reverse for additional details.

**Opportunities: This option meets the requirements necessary for application to the College of Veterinary Medicine at Purdue University. Courses in bold are required to apply for veterinary school. Additional courses needed to satisfy requirements for the 3+1 Program in ANSC are indicated by the symbol \* with a minimum total of 100 credits.**

1. Minimum number of credits required for graduation is 120. For ANSC majors, all ANSC courses must be taken for a grade except for ANSC 29300/49300. Cumulative GPA for ANSC courses must be  $\geq 2.00$  to graduate. All ANSC courses taken for a grade will be part of the ANSC index regardless of whether it can be used in the plan of study. A minimum of 32 credits must be 30000+ level taken at Purdue University or its regional campuses. If credit from another university is transferred to Purdue and posted as 30000+, it does not count toward the 30000 level requirement. The following are not applicable as credit toward graduation: CHM 10000; ENGL 10000, 10900; ENGR 19100, 19200, 19300; MA 11100, 12300, 13300, 13400, 15100; PHYS 14900; STAT 11300, 11400; and all General Studies courses except GS 1000 or 49000 (Discovery Park Undergraduate Research). Of MA 15200, 15300, 15400, and 15800, only one course can be used as an elective.
2. All ANSC students classified as 1 are required to take AGR 10100 and AGR 11400. ANSC students classified as 1 or 2 are required to take ANSC 18100. Transfer students are not required to take AGR 10100 or ANSC 18100. ANSC majors classified as 1-4 are required to establish credit in ANSC 10200.
3. A minimum of 15 credit hours are needed to satisfy the Social Sciences and Humanities requirement. A minimum of 3 credits must be 30000+ level and a minimum of 9 credits must be outside College of Ag.

Economics - 3 Credits\*

- |  |  |
|--|--|
| (3) AGECE 20300 (Intro Microeconomics for Food and Agribusiness) | (3) ECON 21000 (Principles of Economics) |
| (3) AGECE 20400 (Intro to Resource Economics/Environ Policy)     | (3) ECON 25100 (Microeconomics)          |
| (3) AGECE 21700 (Economics)                                      | (3) ECON 25200 (Macroeconomics)          |

\*Plan of study may include either AGECE 21700 or ECON 21000, but not both.

Humanities

- |   |  |

(3) \_\_\_\_\_ Production/Management (ANSC 44000-44600) or BIOL 41500)

(2-3) \_\_\_\_\_ Physiology (ANSC 33200, 33300, 53500, 55100 or 55500) (3-4) \_\_\_\_\_ Products (ANSC 30100 or 35100)

\*Of the 100 total credits required, a minimum of 32 credits must be at the 30000+ level. If the student attends Veterinary School at Purdue, courses taken at the Vet School count toward the 30000+ rule. If a student attends a professional school other than at Purdue, a minimum of 32 credits at the 30000+ level must be earned at Purdue.

University Core Curriculum (UCC) Foundational Learning Outcomes include, but are not limited to:

STS=Science, Technology and Society | HUM=Human Cultures: Humanities | BSS=Human Cultures: Behavioral/Social Sciences

**MAJOR: ANIMAL SCIENCES (ASCI)  
CONCENTRATION: PRODUCTION (PROD)**

**Credits required for graduation: 120**

**Freshman Year**

***First Semester***

- (0.5) **AGR 10100** (Introduction to the College of Agriculture and Purdue University)
- (0.5) **AGR 11400** (Introduction to Animal Sciences Academic Programs)
- (4) **BIOL 11000** (Fundamentals of Biology I)
- (3) **CHM 11100** (General Chemistry I)
- (3-4) **ENGL 10800** or **10600** (First-Year Composition selective)
- (3) **ANSC 10200** (Sci., Tech. & Society selective) (14-15)

***Second Semester***

- (1) **ANSC 18100** (Orientation to Animal Sciences)
- (4) **BIOL 11100** (Fundamentals of Biology II)
- (3) **CHM 11200** (General Chemistry II)
- (3) **COM 11400** (Speech) or **COM 21700** (Science Writing) or **EDPS 31500** (Leadership)
- (3) **MA 16010** (Applied Calculus I)
- (2) Elective (16)

**Sophomore Year**

***Third Semester***

- (3) **ANSC 22100** (Principles of Animal Nutrition)
- (4) **CHM 25700** (Organic Chemistry)
- (3) Economics selective
- (3) Humanities selective
- (3) Written or oral communication selective (16)

***Fourth Semester***

- (3) **AGRY 32000** (Genetics)
- (4) **ANSC 23000** (Physiology of Domestic Animals)
- (3) **BCHM 30700** (Biochemistry)
- (3) Animal sciences selective
- (3) Financial management selective (16)

**Junior Year**

***Fifth Semester***

- (4) **BIOL 22100** (Introduction to Microbiology)
- (3) **STAT 30100** (Elementary Statistical Methods)
- (3) Animal nutrition selective
- (3) Animal physiology selective
- (3) Humanities or social sciences selective (16)

***Sixth Semester***

- (4) Animal genetics selective
- (3) Animal products selective
- (3) Enterprise management selective
- (3) Production/Management selective (Non-ANSC) (13)

**Senior Year**

***Seventh Semester***

- (1) **ANSC 48100** (Contemporary Issues in Animal Sciences)
- (3) Animal production/management selective
- (2) Animal sciences selective
- (3) Enterprise management selective
- (3) Humanities or social sciences selective
- (3) Electives (15)

***Eighth Semester***

- (3) Humanities or social sciences selective (30000+)
- (3) Production/Management selective (Non-ANSC)
- (7-8) Electives (13-14)

<sup>1</sup>Thirty-two credits must be 30000+ level at Purdue or regional campuses. See reverse for additional details.

**Opportunities: Production and management of beef, dairy, fish, horse, poultry, sheep and swine enterprises. Also includes employment as field or service representatives in various commodity organizations, livestock salesmen or buyers for meat processor or commission companies involved with marketing. A limited number of public relations jobs with various breed organizations also are available. Careers as extension agents are possible.**

1. Minimum number of credits required for graduation is 120. For ANSC majors, all ANSC courses must be taken for a grade except for ANSC 29300/49300. Cumulative GPA for ANSC courses must be  $\geq 2.00$  to graduate. All ANSC courses taken for a grade will be part of the ANSC index regardless of whether it can be used in the plan of study. A minimum of 32 credits must be 30000+ level taken at Purdue University or its regional campuses. If credit from another university is transferred to Purdue and posted as 30000+, it does not count toward the 30000 level requirement. The following are not applicable as credit toward graduation: CHM 10000; ENGL 10000, 10900; ENGR 19100, 19200, 19300; MA 11100, 12300, 13300, 13400, 15100; PHYS 14900; STAT 11300, 11400; and all General Studies courses except GS 10000 or 49000 (Discovery Park Undergraduate Research). Of MA 15200, 15300, 15400, and 15800, only one course can be used as an elective.
2. All ANSC students classified as 1 are required to take AGR 10100 and AGR 11400. ANSC students classified as 1 or 2 are required to take ANSC 18100. Transfer students are not required to take AGR 10100/AGR 11400 or ANSC 18100. ANSC majors classified as 1-4 are required to establish credit in ANSC 10200.
3. At least 15 credit hours are needed to satisfy the Social Sciences and Humanities requirement. A minimum of 3 credits must be 30000+ level and a minimum of 9 credits must be outside the College of Ag.

Economics - 3 Credits\*

- |   |  |
|---|--|
| (3) AGEC 20300 (Intro Microeconomics for Food and Agribusiness) | (3) ECON 21000 (Principles of Economics) |
| (3) AGEC 20400 (Intro to Resource Economics and Environ Policy) | (3) ECON 25100 (Microeconomics)          |
| (3) AGEC 21700 (Economics)                                      | (3) ECON 25200 (Macroeconomics)          |

\*Plan of study may include either AGEC 21700 or ECON 21000, but not both.

Humanities

- |   |  |
|---|--|
| Agriculture (Limited to AGR 20100, AGRY 12300, and YDAE 33100)          | History                                      |
| Band (Limited to 3 credits)   | Honors 19900 (Science and Pseudoscience)     |
| Classics  | Honors 29900 (Insects in Literature and Art) |
| Educational Leadership and Cultural Foundations (Limited to EDST 20000) | Interdisciplinary Studies                    |
| English Literature**  | Philosophy                                   |
| Foreign Languages and Literature***                                     | Visual and Performing Arts                   |

\*\*See approved list of literature courses.

\*\*\*Foreign language (language or culture and literature) may be a humanities selective. Any foreign language course may be an international understanding selective. A minimum of three credits of a foreign language must be earned to be included in a plan of study.

(Arabic, Chinese, Classics, French, German, Greek, Hebrew, Italian, Japanese, Latin, Portuguese, Russian, Spanish)

Social Sciences

- |  |   |
|--|---|
| Agricultural Economics****                                     | Forestry & Natural Resources (Limited to FNR 37500)         |
| Agriculture (Limited to AGR 20100, AGRY 12300, and YDAE 33100) | Political Science   |
| Agronomy (Limited to AGRY 39900 – Afghanistan)                 | Psychological Sciences                                      |
| Anthropology   | Psyco-educational Studies (Limited to EDPS 23500 and 26500) |
| Economics  | Sociology   |

\*\*\*\*Limited to six credits of AGEC 25000, 30500, 33300, 34000, 40600, 41000, 41500, 45000 or 49800.

4. Both CHM 11200 and 11600 cannot be used for credit. When CHM 11100, 11200 and 11600 are taken, only seven credits count towards graduation. If CHM 11100, 11500 and 11600 are taken, CHM 11100 cannot be used for credit.
5. Maximum of 1 class in STAT 30100, 35000, 50100 and a maximum of 1 class in 50300 and 51100.
6. Financial Management Selective. One of the following 3-credit courses must be completed: AGEC 33000, CSR 34200, MGMT 20000, MGMT 20010.
7. Enterprise Management Selectives. A minimum of 6 credits from the following courses must be completed:

- |                |                |                  |                |   |
|----------------|----------------|------------------|----------------|---|
| AGEC 20300 (3) | AGEC 32100 (3) | AGEC 33300 (3)   | AGEC 42100 (3) | AGEC 43000 (3)                                    |
| AGEC 22000 (3) | AGEC 32700 (3) | AGEC 41100 (4)   | AGEC 42400 (4) | AGEC/MGMT 45500 (3)                               |
| AGEC 30500 (3) | AGEC 33000 (3) | AGEC 41200 (1-3) | AGEC 42500 (2) | Highly Recommended: AGEC 22000, 32100, and 42100. |
| AGEC 31000 (3) | AGEC 33100 (3) | AGEC 41400 (2)   | AGEC 42700 (3) |   |

8. Production/Management Selectives (Non-ANSC). A minimum of 6 credits from the following courses must be completed:

<b>Agricultural Systems</b>	<b>Agronomy</b>	<b>Botany &amp; Plant Pathology</b>	<b>Entomology</b>	<b>Cross-Listed Courses</b>
ASM 20100 (3)	AGRY 25500 (3)	BTNY 30400 (3)	ENTM 20600 (2)	AGRY 25500/NRES 25000 (3)
ASM 22200 (3)	AGRY 36500 (3)		ENTM 20700 (1)	
ASM 24500 (3)	AGRY 37500 (3)		ENTM 52500 (3)	
ASM 33300 (3)	AGRY 50500 (3)			
ASM 33600 (3)				
ASM 42000 (3)				
ASM 57000 (3)				

9. Animal Science Restricted Selectives. At least 1 course in each of the 5 disciplinary areas must be completed. Eighteen of the ANSC credits in ANSC restricted selectives and ANSC selectives must be  $\geq 30100$ . F = fall semester; S = spring semester.

<b>Genetics</b>	<b>Nutrition</b>	<b>Physiology</b>	<b>Production/Mgmt</b>	<b>Products</b>
ANSC 31100 (F,S)	ANSC 32400 (F,S)	ANSC 33200 (S)	ANSC 44000 (F)	ANSC 30100 (F)
ANSC 51400 (F)	ANSC 52200 (F)	ANSC 33300 (F,S)	ANSC 44100 (F)	ANSC 35100 (S)
BIOL 41500 (F)	ANSC 52400 (S)	ANSC 53500 (S)	ANSC 44200 (S)	
		ANSC 55100 (S)	ANSC 44300 (S)	
		ANSC 55500 (S)	ANSC 44400 (F)	
			ANSC 44500 (S)	
			ANSC 44600 (F)	

10. Recommended: ANSC 49100/ANSC 49300. Both ANSC 10200 and 10600 can be used as an ANSC selective. Combination of ANSC 37000, 37100, 37200, 47000, 47100 and 47200 cannot exceed 3 credits towards ANSC selectives.
11. Multicultural Awareness Requirement: This requirement may be met by taking an appropriate course from the multicultural awareness selective list.
12. International Understanding Requirement: A minimum of 9 credits may be taken from the International Understanding list, equivalent study abroad programs, international work experiences or international travel course. Courses that satisfy international understanding criteria can be used anywhere in the plan of study.
13. Capstone experience: ANSC 48100 plus one course from production/management block (ANSC 44000-44600).

|--|---|
| Agricultural Economics****                                     | Forestry & Natural Resources (Limited to FNR 37500)         |
| Agriculture (Limited to AGR 20100, AGRY 12300, and YDAE 33100) | Political Science   |
| Agronomy (Limited to AGRY 39900 – Afghanistan)                 | Psychological Sciences                                      |
| Anthropology   | Psyco-educational Studies (Limited to EDPS 23500 and 26500) |
| Economics  | Sociology   |

\*\*\*\*Limited to six credits of AGEC 25000, 30500, 33300, 34000, 40600, 41000, 41500, 45000 or 49800.

4. Both CHM 11200 and 11600 cannot be used for credit. When CHM 11100, 11200 and 11600 are taken, only seven credits count towards graduation. If CHM 11100, 11500 and 11600 are taken, CHM 11100 cannot be used for credit.
5. Maximum of 1 class in STAT 30100, 35000, 50100 and a maximum of 1 class in 50300 and 51100.
6. Food Science Selective. One of the following courses must be completed: FS 34100 (2) and 34200 (1), FS 36200 (3), or FS 45300 (3) and 45400 (1).
7. Business Management Selective. One of the following 3-credit courses must be completed: AGEC 33000, CSR 34200, ECON 25100, MGMT 20000 or MGMT 21200.
8. Animal Science Restricted Selectives. At least 1 course in each of the 5 disciplinary areas must be completed. Eighteen of the ANSC credits in ANSC restricted selectives and ANSC selectives must be  $\geq 30100$ . F = fall semester; S = spring semester.

<b>Genetics</b>	<b>Nutrition</b>	<b>Physiology</b>	<b>Production/Mgmt</b>	<b>Products</b>
ANSC 31100 (F,S)	ANSC 32400 (F,S)	ANSC 33200 (S)	ANSC 44000 (F)	ANSC 30100 (F)
ANSC 51400 (F)	ANSC 52200 (F)	ANSC 33300 (F,S)	ANSC 44100 (F)	ANSC 35100 (S)
BIOL 41500 (F)	ANSC 52400 (S)	ANSC 53500 (S)	ANSC 44200 (S)	
		ANSC 55100 (S)	ANSC 44300 (S)	
		ANSC 55500 (S)	ANSC 44400 (F)	
			ANSC 44500 (S)	
			ANSC 44600 (F)	

9. Recommended: ANSC 49100/ANSC 49300. Both ANSC 10200 and 10600 can be used as an ANSC selective. Combination of 37000, 37100, 37200, 47000, 47100 and 47200 cannot exceed 3 credits towards ANSC selectives.
10. If a student has an interest in food product business, the following courses are highly recommended: AGEC 22000, AGEC 32100, AGEC 33100, AGEC 33300, AGEC 42100 and MGMT 20000.
11. Multicultural Awareness Requirement: This requirement may be met by taking an appropriate course from the multicultural awareness selective list.
12. International Understanding Requirement: A minimum of 9 credits may be taken from the International Understanding list, equivalent study abroad programs, international work experiences or international travel course. Courses that satisfy international understanding criteria can be used anywhere in the plan of study.
13. Capstone experience: ANSC 48100 plus one course from production/management block (ANSC 44000-44600).

## Core Requirements Checklist

<b>College of Agriculture Core Requirements</b>	<b>UCC Outcome</b>	<b>Course Acronym and Number or Selective</b>
Agricultural Orientation – (1) CR		AGR 10100 and AGR 11400
Biological Sciences – (8) CR	Science	BIOL 11000 and BIOL 11100
Calculus – (3)	Quantitative Reasoning	MATH 16010
General Chemistry – (6) CR	Science	CHM 11100 and CHM 11200
Statistics – (3)		STAT 30100
Science, Technology, and Society – (1-3) CR *	Science, Technology and Society	ANSC 10200 or UCC Selective
Mathematics and Sciences – (3-5) CR *		AGRY 32000
First- Year Composition – (3-4) CR	Written Communication	ENGL 10600 or 10800
Fundamentals of Speech Communication – (3) CR	Oral Communication	COM 11400 or 21700 or EDPS 31500
Additional Written or Oral Communication – (3) CR.		CoA Selective
Economics – (3) CR	Social Science	CoA Selective
Humanities – (3) CR	Humanities	UCC Selective
Social Sciences or Humanities – (9) CR		CoA Selective
Information Literacy	Information Literacy	ENGL 10600 or STAT 30100

\* These two categories must total (6) credits.

<b>Embedded Outcomes</b>	<b>Course(s) Acronym and Number or Selective</b>
Creative Thinking	<b>ANSC Nutrition Selective</b>
Critical Thinking	<b>ANSC Physiology Selective</b>
Ethical Reasoning	<b>ANSC Products Selective</b>
Global Citizenship and Awareness	CoA Multicultural Awareness and International Understanding
Intercultural Knowledge	CoA Multicultural Awareness and International Understanding
Leadership and Teamwork	<b>ANSC Production/Management Selective</b>
Quantitative Reasoning	<b>ANSC 22100 Principles of Animal Nutrition</b>
Integrative Knowledge	<b>ANSC Production/Management selective</b>
Written Communication (Levels 2)	<b>ANSC Genetics Selective</b>
Information Literacy (Levels 2)	<b>ANSC 23000</b> (Domestic Animal Physiology)
Oral Communication (Level 2)	<b>ANSC 48100</b> (Contemporary Issues in Animal Science)

<b>Total</b>		<b>32</b>

## Dual Major

A student may choose to complete the requirements for two bachelor degrees at Purdue. Several of our students have graduated or are currently pursuing a second major in disciplines such as Agricultural Communications, Agricultural Economics, Agricultural Education and Wildlife Sciences.

A second major broadens the graduate with increased technical knowledge in another field of study leading to additional career opportunities. Since the above departments are all within the College of Agriculture, courses within the Ag core can be applied to both majors. If the student declares a dual major early in the B.S. program, he/she may be able to complete both curricula in one or two additional semesters. Dual majors in disciplines that are outside the College of Agriculture are also possible, but the number of courses needed to satisfy requirements for both majors will take additional semesters. When a student is working towards two degrees, the student is counseled in their "home" department, but seeks advice from an advisor in the other department to make certain that the requirements needed for graduation are met.

## Minors at Purdue University

A major in Animal Sciences may also obtain a minor in several disciplines outside of the College of Agriculture as well as within the College of Agriculture. An Animal Sciences major cannot obtain a minor in animal science. As of August 4 2020, Purdue offers 132 different minors, and 32 of those are housed in the College of Agriculture. Students interested in additional information regarding a minor should contact their primary academic advisor or Ashley York (CRTN 1058A, 765-494-4843, [ashleyyork@purdue.edu](mailto:ashleyyork@purdue.edu)).

The Agricultural faculty has adopted the policy that a student must declare any minors prior to the conclusion of the ninth week of the student's final semester before degree certification for them to be certified and posted to the academic record.

## ANIMAL SCIENCES COURSES

### **Undergraduate Level/Lower-Division Courses**

---

**AGR 10100 Introduction to the College of Agriculture and Purdue University** Sem. 1. Class 1, Cr. 0.5. Course meets during weeks 1-8. Co-requisite: One course selected from AGR 11100 to AGR 12400.

Students are introduced to the College of Agriculture and Purdue University. Specific areas discussed include the diversity of career opportunities within agriculture, the relationships between different areas of agriculture, ethics, the impact of undergraduate coursework, including the core curriculum, on scholarship and career preparation, and the challenges facing the food, agricultural, and natural resource system. The use of guest lecturers provides a networking opportunity for students. Enrollment in this course is restricted to beginning freshmen students. Faculty/Staff from the Office of Academic Programs.

**AGR 11400 Introduction to Animal Sciences Academic Programs** Sem. 1. Class 1, Cr. 0.5. Course meets during weeks 1-8. Co-requisite: AGR 10100.

An introduction to academic programs offered in the Department of Animal Sciences. Topics include, but are not limited to, undergraduate plans of study, courses, experiential programs, internships, student organizations, career opportunities, academic policies, scholarships, and student services. Dr. Mathew and Ashley York.

**ANSC 10200 Introduction to Animal Agriculture** Sem. 1 and 2. Class 2, Lab. 2, Cr. 3. Available as Distance Learning course.

A study of animal agriculture emphasizing the efficient production of animal food products from poultry, dairy, and meat animals. Credit cannot be obtained for both ANSC 10100 and ANSC 10200. Required for ANSC majors classified as freshmen and sophomores. Drs. E. Karcher and Taylor.

**ANSC 10600 Biology of Companion Animals** Sem. 2. Class 3, Cr. 3.

Introduction to the various aspects of companion animal biology. Topics include anatomy, physiology, health, immunity, nutrition, growth, digestion, metabolism, behavior, genetics, reproduction, and lactation. Dr. Allrich.

**ANSC 18100 Orientation to Animal Sciences** Sem. 2. Class 2, Cr. 1.

Introduction to the faculty, programs, opportunities, career preparation, and personal development requirements needed to succeed in a career in the animal industries. Course meets during weeks 1-8. Class trip is optional. Students pay lodging or meal expenses when necessary. Elizabeth Byers-Doten.

**ANSC 22100 Principles of Animal Nutrition** Sem. 1 and 2. SS. Class 3, Cr. 3.

Prerequisites: CHM 11100 or CHM 11500 and sophomore, junior or senior classification. Available as Distance Learning course.

Classification and function of nutrients, deficiency symptoms, digestive processes, characterization of feedstuffs, and formulation of diets for domestic animals. Offered at Vincennes University and Purdue University's Fort Wayne regional campus. Distance learning course is available for non-ANSC students at Purdue and for non-Purdue students. Dr. Forsyth.

**ANSC 23000 Physiology of Domestic Animals** Sem. 1, 2 and SS. Class 4, Cr. 4.

Prerequisite: BIOL 11000, or BIOL 11100, or BIOL 12100 or BIOL 13100.

A lecture course designed to present physiology of domestic farm animals. Function of tissues and organs, maintenance of internal steady-state conditions, and body responses to external environmental conditions will be presented. Physiological mechanisms involved in lactation, growth, and reproduction will be included. Drs. Allrich and Cabot.

**ANSC 24500 Applied Animal Management** Sem. 1 and 2. Class 1, Lab. 3, Cr. 2.

Skills and practices related to handling and care of beef and dairy cattle, horses, poultry, sheep, and swine. Dr. Neary.

**ANSC 28100 Career Planning in Animal Sciences** Sem. 2. Class 1, Cr. 1.

A seminar course designed to inform students of the many career opportunities in the animal industry, develop their resume, networking, job seeking and interview skills. More than 20 Animal Sciences alumni connect with students and share about the diverse careers with a BS, MS, PhD or DVM. The class focuses on using ones strengths to find your career passion. Barry Delks.

**ANSC 29300 Special Assignments** Sem. 1 and 2. SS. Cr. 1-3.

Reading, discussions, written reports, seminar presentations, teaching, field or laboratory experiences provided for enrichment in special areas of animal science. To be arranged with individual staff members prior to registration. Approval of the department head required. Combination of ANSC 29300 and 49300 cannot exceed six credits. Pass/No Pass grading option only. Staff.

**ANSC 29500 Introduction to Animal Products** Sem. 1 and 2. Class 1, Lab 2. Cr. 2

The goal of this course is to increase the awareness to the Animal Products concentration for students. The objective of this course is to expose students to the science and application of the principles of animal products, focusing on meat, dairy, eggs, and wool. This course will provide lecture materials that coincides with hands-on, active learning through practical laboratory sessions. Furthermore, there will be assignments and speakers that will encourage students to explore the career opportunities that exist within the animal products industries. Dr. Zuelly.

**ANSC 29500 Special Topics in Animal Sciences** Sem. 1 and 2. SS. Cr. 0-3.

Lecture presentation of specialized material not available in formal courses of the department. The specific topic that is offered will be indicated on the student's record. May be repeated for credit with variable title. Permission of instructor required. Staff.

**ANSC 29500 Readings: Navigating First-Year Transitions** Sem. 1. Cr. 1.

This course focuses on directed reading and discussion of books and other documents of significant importance and current issues of interest to animal scientists, including science, agriculture, food systems, renewable natural resources, the environment, and society.

**Undergraduate Level/Upper-Division Courses**

---

**ANSC 30100 Animal Growth, Development and Evaluation** Sem. 1. Class 2, Lab. 4, Cr. 4. Junior or senior classification.

A study of meat animal growth and developmental processes, including micro and gross anatomy, and factors that affect body/carcass composition with application to animal and carcass evaluation. Dr. Zuelly.

**ANSC 30300 Animal Behavior** Sem. 2. Class 2, Lab. 2, Cr. 3. Junior or senior classification.

Discussion of animal behavior with emphasis on developing an understanding of the reasons domesticated animals react the way they do toward their kind and to humans. The laboratory will be used for observation of behavior patterns in animals. Solutions for unusual behavior include behavior modification techniques. Dr. Gaskill.

**ANSC 31100 Animal Breeding** Sem. 1 and 2. Class 3, Lab. 2, Cr. 4. Prerequisite: AGRY 32000 or BIOL 24100 and STAT 30100 or 50300.

Genetic principles and their applications in improvement of production efficiency in livestock. Drs. T. Stewart and Lofgren.

**ANSC 32400 Applied Animal Nutrition** Sem. 1 and 2. Class 2, Lab. 2, Cr. 3. Prerequisite: ANSC 22100.

Application of the principles of animal nutrition to the formulation and feeding of supplements and complete rations for animals; ration ingredients and substitution values; computer applications; legal aspects of feed formulation; and industry practices. Drs. Radcliffe and Taylor.

**ANSC 33100. Horses in Human History and Culture** Summer. Cr. 3.

A multi-disciplinary course that introduces students to the history of the human-horse relationship in a global context. Because the history of horse and human interaction is so broad and so important to the development of civilization, the course will include a broad view of horses in the context of agriculture, transportation, sport, culture and art. Dr. Brady.

**ANSC 33200 Environmental Physiology of Domestic Animals** Sem. 2. Class 2, Cr. 2. Prerequisite: ANSC 23000.

Interactions of environmental factors with physiological processes in domestic animals. Dr. Allrich.

**ANSC 33300 Physiology of Reproduction** Sem. 1 and 2. Class 3, Cr. 3. Prerequisite: ANSC 23000 or BIOL 20300 and 20400.

Basic information on the physiological processes of reproduction. Drs. Pasternak and Taylor.

**ANSC 34500 Animal Health Management** Sem. 1. Class 3, Cr. 3. Prerequisite: ANSC 22100 and 23000.

The objectives of this course are to familiarize the student with disease processes, and mechanisms. Management techniques in food, companion and research species that minimize or prevent disease will be emphasized, as well as the consequences on animal production, reproduction, and human health. Dr. Allrich.

**ANSC 35100 Meat Science** Sem. 2. Class 3, Cr. 3. Junior or senior classification.

Study of muscle and meat, principles involved in the conversion of living animals to meat and by-products; efficient utilization of all types of meat as food. Dr. Zuelly.

**ANSC 35101 Meat Science Laboratory** Sem. 2. Lab. 2, Cr. 1. Prerequisite or corequisite: ANSC 35100.

Application of scientific principles to the meat industry, with emphasis on all aspects of processing including: harvest; carcass grading and evaluation; fabrication; cured, smoked, and comminuted meat products; quality control; product development; and retail and food service merchandising. Dr. Zuelly.

**ANSC 37000 Livestock Evaluation** Sem. 2. Lab 6, Cr. 2. Junior or senior classification.

This course is designed to develop logical thinking and speaking skills, while developing the ability to critically evaluate livestock in their production environments. Prior experience in public speaking or judging is not required. Combination of ANSC 37000, 37100, 37200, 47000, 47100 and 47200 cannot exceed 3 credits towards ANSC electives. Requires class trips. Students pay lodging or meal expenses when necessary. Matt Claeys.

**ANSC 37100 Dairy Evaluation\*** Sem. 2. Lab 6, Cr. 2. Sophomore, junior or senior classification.

This course will enable the student to become familiar with breeds of dairy, parts of dairy cattle and their relationship to function. Opportunities will exist to associate with people from various breed organizations within the dairy industry. Combination of ANSC 37000, 37100, 37200, 47000, 47100 and 47200 cannot exceed 3 credits towards ANSC electives. Requires class trips. Students pay lodging or meal expenses when necessary. Steve Hendress.

**ANSC 38100 Leadership for a Diverse Workplace** Sem. 2. Class 3, Cr. 3. Prerequisite: AGR 20100 or a course on the College of Agriculture Multicultural Awareness list. Junior or senior classification in animal agribusiness or animal production or animal products or animal sciences major.

An interactive small group discussion class covering effective interpersonal and group skills needed to enhance career satisfaction in a diverse workplace including building networks within industry, cross-cultural communication and gaining experiences in group problem-solving and decision making. Staff.

**ANSC 39000 Animal Sciences Internship** Sem. 1 and 2. SS. Cr. 0. Prerequisite: Animal Sciences major.

Internships with producers, businesses, or agencies arranged in cooperation with faculty coordinator. Permission of department required. Dr. E. Karcher.

**ANSC 39300 Animal Industry Travel Course** Sem. 2. SS. Class 0-1, Lab. 2, Cr. 1-2.

A classroom and travel course designed to expose students to animal production operations, agribusinesses, industry leaders, and their philosophies throughout various geographical areas of the United States. Travel is conducted during spring break and includes visits to animal production farms, universities, and agribusinesses. Consent of instructor required. May be repeated for a maximum of three credits; limited to two credits toward Animal Sciences electives; offered in odd numbered years. Additional fee required. Staff.

**ANSC 40000 Animal Sciences Study Abroad** Sem. 1 and 2. SS. Cr. 0-8.

Utilized to record credits earned through participation in Purdue study abroad programs with cooperating foreign universities. May be repeated for credit. Staff.

**ANSC 40400 Animal Welfare** Sem. 1. Class 2, Lab. 2, Cr. 3. Junior or senior classification.

A multi-disciplinary course that introduces students to the fields of animal welfare and the ethics of animal use. The course will emphasize farm animal welfare and production issues. Dr. Erasmus.

**ANSC 43500 Reproductive Management of Farm Animals** Sem. 1. Class 2, Lab. 3, Cr. 3. Prerequisite: ANSC 33300.

Management practices associated with improved reproductive efficiency. Procedures for diagnosis of reproductive failure and practical methods of controlling reproduction will be identified. Dr. K. Stewart.

**ANSC 44000 Horse Management** Sem. 1. Class 2, Lab. 2, Cr. 3. Prerequisite: ANSC 22100 and 23000 and junior or senior classification.

Current breeding, feeding, housing, selection, disease control, and other management practices essential for sound economic planning of horse operations in today's horse industry. Laboratory farm visits provide students with real application examples and industry contacts. Dr. Brady.

**ANSC 44100 Beef Management** Sem. 1. Class 2, Lab. 2, Cr. 3. Prerequisite: ANSC 22100 and 23000 and junior or senior classification.

Breeding, feeding, and management practices essential for economical beef production, including performance testing. Dr. Lemenager.

**ANSC 44200 Sheep Management** Sem. 2. Class 2, Lab. 2, Cr. 3. Prerequisite: ANSC 22100 and 23000 and junior or senior classification.

Breeding, feeding, and management practices essential for economical sheep production and commercial lamb feeding, including performance testing. Dr. Neary.

**ANSC 44300 Swine Management** Sem. 2. Class 2, Lab. 2, Cr. 3. Prerequisite: ANSC 22100 and 23000 and junior or senior classification.

Breeding, feeding, and management practices essential for commercial swine production, including performance testing. Dr. Schinckel.

**ANSC 44400 Dairy Management** Sem. 1. Class 2, Lab. 2, Cr. 3. Prerequisite: ANSC 22100 and 23000 and junior or senior classification.

Current breeding, feeding, physiology, disease prevention, and management practices essential for economical milk production. Requires class trips. Students will pay individual lodging or meal expenses when necessary. Dr. Boerman.

**ANSC 44500 Commercial Poultry Management** Sem. 2. Class 2, Lab. 2, Cr. 3.

Prerequisite: ANSC 22100 and 23000 and junior or senior classification.

Current developments and practices in the commercial production of eggs, broilers, and turkeys; principles of breeding, physiology, nutrition, management, and disease prevention. Requires class trips. Students will pay individual lodging or meal expenses when necessary. Staff.

**ANSC 44600 Companion Animal Management** Sem. 1. Class 2, Lab. 2, Cr. 3.

Prerequisite: ANSC 22100 and 23000 and junior or senior classification.

This course details understanding of the economic scope of the pet industry as well as the role of pets in American society. The students will acquire the information to be responsible pet owners by expanding their knowledge of housing practices, nutritional care, health care, behavior, and breeding of companion animals. Dr. Allrich.

**ANSC 47000 Livestock Judging** Sem. 1. Lab. 3, Cr. 1. Prerequisite: ANSC 37000.

This course is designed to teach livestock evaluation, relationship of production data to live animal evaluation characteristics, expand logical thinking and reasoning skills, and enhance oral communication skills. Requires class trips. Students will pay individual lodging or meal expenses when necessary. Matt Claeys.

**ANSC 47100 Dairy Judging** Sem. 1. Lab. 3, Cr. 1. Prerequisite: ANSC 37100.

Opportunities will exist to allow the student to practice analysis and enhance decision-making processes in placing animals in collegiate dairy contests. Communication skills will be developed to properly present and defend those decisions with confidence. Requires class trips. Students will pay individual lodging or meal expenses when necessary. Steve Hendress.

**ANSC 47200 Horse Judging** Sem. 1. Lab 3, Cr. 1. Prerequisite: ANSC 37200.

An intensive capstone experience for those students wishing to apply their knowledge of functional horse conformation, athletic ability, selection criteria established by national breed associations, and develop advanced decision making, communication, and experience working within a team environment by preparing and competing in national judging contests. Requires class trips. Students will pay individual lodging or meal expenses when necessary. Staff.

**ANSC 48100 Contemporary Issues in Animal Sciences** Sem. 1. Class 1, Cr. 1. Senior classification.

Industry leaders present case studies reflecting key contemporary issues in the animal industry with student team discussions. Topics include environmental impact, food safety, animal care and well-being, ethics, use of biotechnology, efficient and safe world food supply, current human resource issues and international agricultural trade. Industry representatives share their experiences of the importance of good communication skills as well as technical knowledge of issues that are of concern to animal industries. Students will enhance and develop their communication and team skills as well as prepare and develop their resume, cover letter, interview and networking skills. A key element of this class includes connecting with successful alumni and industry leaders in all areas of the animal industry. Dr. Mathew and Mr. Delks.

**ANSC 48500 Dairy Farm Evaluation** Sem. 2. Leb. 1, lab 2, Cr. 2. Prerequisite: ANSC 44400 and junior or senior classification.

This course will provide students with an opportunity to integrate and apply knowledge of dairy cattle management systems, nutrition, reproduction, genetics, milk quality, animal handling, physical farm facilities, manure handling and management, personnel and their financial implications. Students will develop critical analysis skills and apply troubleshooting principles in the identification and resolution of dairy farm management issues in a learning environment that is structured around farm evaluation field trips and case studies. Requires class trips. Students will pay individual lodging or meal expenses when necessary. Drs. E. Karcher and Boerman.

**ANSC 49100 Special Problems** Sem. 1 and 2. SS. Cr. 1-3.

Supervised individual laboratory or library assignments. Written reports required. To be arranged with individual staff members prior to registration. Requires approval of department head. May be repeated for a maximum of six credits with approval of department head. Staff.

**ANSC 49300 Special Assignments** Sem. 1 and 2. SS. Cr. 1-3.

Reading, discussions, written reports, seminar presentations, teaching, field or laboratory experiences provided for enrichment in special areas of animal science. To be arranged with individual staff members prior to registration. Approval of department head required. Combination of ANSC 29300 and 49300 can not exceed six credits. Pass/No Pass grading option only. Staff.

**ANSC 49500 Cracking the Poultry Industry.** Sem. 2. Cr. 2.

The objective of this course is to provide an overview of the U.S. and Indiana Poultry industries. Topics include industry statistics, services offered to the industry, as well as management topics including nutrition and welfare. Drs. E. Karcher, D. Karcher, Erasmus, and Mr. Paul Brennan.

**ANSC 49500 Food Security and Environmental Challenges in Vietnam.** Sem. 2. Cr. 3.

The objective of this course is to introduce students to global challenges related to food security and the environment and to develop intercultural learning competencies. Students will meet weekly on campus throughout the semester and travel to Vietnam during Spring Break. Dr. E. Karcher

**ANSC 49500 Produzioni Animali: Exploring Animal Production in Italy.** Sem. 1. Cr. 3.

The objective of this course is to introduce students to animal management practices and product development in Italy and the U.S. Students travel to Italy in July and meet weekly on campus during the Fall semester. This course is a Learning Community and includes off-campus field trips. Dr. E. Karcher and Ashley York.

**ANSC 49500 Meat Evaluation** Sem. 1. Cr. 2.

The objective of this course is to provide students the opportunity to participate in intercollegiate meat judging competitions. In training for these competitions, students gain valuable skills in areas such as critical thinking, animal and meat industry knowledge, problem solving, and written communication skills. Dr. Zuelly.

**ANSC 49500 Meat Evaluation** Sem. 2. Cr. 1.

The objective of this course is to provide students the opportunity to participate in intercollegiate meat judging competitions. In training for these competitions, students gain valuable skills in areas such as critical thinking, animal and meat industry knowledge, problem solving, and written communication skills. Dr. Zuelly.

**ANSC 49500 Special Topics in Animal Sciences** Sem. 1 and 2. SS. Cr. 0-3.

Lecture presentation of specialized material not available in the formal courses of the department. The specific topic that is offered will be indicated on the student's record. Approval of department head required. May be repeated for credit. Staff.

**ANSC 49900 Thesis Research** Sem. 1 and 2. SS. Cr. 1-6. Prerequisite: Enrolled in the honors program, animal sciences major.

For students doing specialized animal sciences research; report required. Arrange with academic adviser and honors research coordinator before registering. Permission of instructor required. May be repeated for credit with variable title. Staff.

**Dual Level/Undergraduate-Graduate**

---

**ANSC 51300 Design of Animal Breeding Programs** Sem. 2. Class 3, Cr. 3. Prerequisites: ANSC 31100 and STAT 50300. Junior or senior classification.

Integration of principles of animal breeding and genetics into animal improvement programs. Emphasis is placed on the interaction among genetics, nutrition, and physiology. One semester of applied genetics and population genetics is strongly recommended prior to taking this course as a graduate student. Dr. Schinckel.

**ANSC 52200 Monogastric Nutrition** Sem. 1. Class 3, Cr. 3. Prerequisites: ANSC 22100 and BCHM 30700 or CHM 33300. Junior or senior classification.

Digestion and absorption, nutrient utilization, and interrelationships in poultry, swine, and other monogastric animals. A semester of animal nutrition and general biochemistry is strongly recommended prior to taking this course as a graduate student. Dr. Adeola.

**ANSC 52400 Ruminant Nutrition and Physiology** Sem. 2. Class 3, Cr. 3. Prerequisites: ANSC 22100 and BCHM 30700 or CHM 33300. Junior or senior classification.

Physiological, microbiological, and biochemical aspects of digestion and metabolism in the ruminant animal. A semester of animal nutrition and general biochemistry is strongly recommended prior to taking this course as a graduate student. Dr. Schoonmaker.

**ANSC 53400 Advanced Reproductive Physiology** Sem. 2. Class 3, Cr. 3. Prerequisite: ANSC 33300. Junior or senior classification.

A study of mechanisms that interact to control reproduction in farm animals. Current scientific literature and hypotheses are presented, and potential methods to enhance reproductive efficiency are examined. A semester of reproductive physiology is strongly recommended prior to taking this course as a graduate student. Dr. Machaty.

**ANSC 53500 Avian Physiology (BMS 52800)** Sem. 2. Class 2, Cr. 2. Prerequisites: ANSC 23000 or BIOL 20300 and 20400. Junior or senior classification.

A study of the basic principles of physiology and functional anatomy of birds. Topics include the following systems: muscular, nervous, cardiovascular, respiratory, digestive, lymphoid, endocrine, and reproductive. A course or courses that cover all of the systems of the body should be completed prior to taking this course as a graduate student. Dr. Asem.

**ANSC 53600 The Digestive System in Health and Disease** Sem. 2. Class 2, Cr. 2.

Prerequisite: BCHM 56100. Junior or senior classification.

Comparative study of the physiology of the gastrointestinal tract focused on the importance of, and interactions between, gut physiology, gut associated immune system and intestinal microorganisms in relation to health and disease. Offered in even numbered years. Offered in odd numbered years. One semester of graduate level general biochemistry is strongly recommended prior to taking this course as a graduate student. Staff.

**ANSC 53700 Adipocyte Biology** Sem. 2. Class 2. Cr. 3. Prerequisites: ANSC 23000 and BCHM 30700. Junior or senior classification.

Provide the student with a conceptual background in the development of adipose tissue and its biological function; with emphasis on the endocrine and immunologic aspects of the adipocyte. Differences between species will be emphasized where possible. Dr. Ajuwon.

**ANSC 55200 Advanced Meat Science** Sem. 1. Class 3, Cr. 3. Prerequisites: ANSC 35100 and BCHM 30700.

Meat and meat products contribute essential nutrients, such as protein, vitamins and minerals to the diet that are crucial for human health. Muscle is the primary component of meat, and thus understanding muscle structure, muscle biology and muscle biochemistry is a fundamental step toward discussing advanced meat science and current technology adopted in the meat industry. In this course, comprehensive coverage in meat science and muscle biology/biochemistry, meat technology, and processing application will be examined through critical reading of literature, classroom lecture/discussion, written assignments, and/or student projects. Dr. Kim.

**ANSC 55500 Mechanisms of Animal Growth Development** Sem. 2. Class 3, Cr. 3.

Prerequisites: BCHM 30700 or CHM 33300 and ANSC 30100 or BIOL 23100. Junior or senior classification.

A study of the molecular and cellular processes controlling embryonic development and growth of domesticated animals. Includes discussions of current research concerning molecular mechanisms of fertilization, egg activation, and early development and endocrine factors controlling cell growth, differentiation and tissue formation, and turnover. Experimental approaches utilized for developmental and growth biology research are discussed. A semester of cell biology and biochemistry are strongly recommended prior to taking this course as a graduate student. Dr. Kuang.

**ANSC 59500 Advanced Animal Welfare Assessment** Sem. 1, Class 2, Lab. 2, Cr. 3.

This course will provide students with an advanced understanding of animal welfare science as it pertains to welfare assessment strategies by engaging them in discussion of core papers pertaining to the science of animal welfare. Drs. Erasmus and Gaskill.

**ANSC 59500 Special Topics in Animal Sciences** Sem. 1 and 2. SS. Cr. 0-3. Junior or senior classification.

Lecture presentation of specialized material not available in the formal courses of the department. The specific topic that is offered is indicated on the student's record. Permission of instructor required. May be repeated for credit. Staff.

## Specialized Courses in Animal Sciences

### ANSC 29300 and 49300

#### SPECIAL ASSIGNMENTS

**ANSC 29300** (el. 3 or 4) or **ANSC 49300** (el. 5 to 8) Sem. 1 and 2. SS. Cr. 0-3. To be arranged with individual staff members prior to registration. Approval of the department head required. Combination of ANSC 29300 and 49300 cannot exceed six credits.

Reading, discussions, written reports, seminar presentations, teaching, field or laboratory experiences provided for enrichment in special areas of animal science. Staff.

It is difficult to describe or put limits on ANSC 29300 and 49300 and it is not the objective of these guidelines to stifle the different approaches to Special Assignments. However, the intent of the course is to provide an opportunity for the undergraduate to gain knowledge of a specific topic, subject, or skill. ANSC 29300 or 49300 Special Assignments should be a learning experience or activity not available in a regular, formal course structure. Examples might include such things as individuals gaining laboratory skills, participation in extension activities, or peer teaching experiences.

#### GUIDELINES

1. Any member of the Animal Sciences faculty may assume responsibility for directing an ANSC 29300 or 49300 Special Assignment.
2. It is advisable that a student has a grade point average of  $\geq 3.00$  when requesting an ANSC 29300 or 49300 Special Assignment. Approval of ANSC 29300 or 49300 for students with a grade point average  $< 3.00$  may be granted under extenuating circumstances.
3. ANSC 29300 or 49300 should not be added after the second week of the semester except under extenuating circumstances.
4. A minimum of 32 hours of student time should be used to complete each credit of ANSC 29300 or 49300. An interested student involved with a challenging activity may spend much more time than the minimum hour requirements.

#### REQUIREMENTS AND RESTRICTIONS

1. Individual faculty member and student must agree on the topic, credits, and ground rules before registration for the course.
2. Prior to enrolling a student in ANSC 29300 or 49300, the supervisor and student must complete a form describing the nature of the experience to the Undergraduate Programs Committee. The Undergraduate Programs Committee will decide if the problem conforms to the guidelines established by the ANSC faculty and will have the authority to prohibit the offering of the problem if it does not meet the standards set by the ANSC faculty. Upon

approval, the Teaching Coordinator will send a letter to the supervisor, student counselor and student detailing the expectations for completion of the course.

3. A written report or portfolio/diary for the professor in charge is required. An additional copy of the report or portfolio/diary must be submitted to the Teaching Coordinator by the deadline established for delivery of all other departmental course grades. Failure to do so will result in a grade of I (incomplete) being forwarded to the Registrar. The report will be available for perusal by interested ANSC faculty.
4. An individual faculty member may supervise not more than two ANSC 29300 or 49300 Special Assignments in a semester without the approval of the Department Head.

**SPECIAL TOPICS IN ANIMAL SCIENCES**

**Special Topics in Animal Sciences** Sem. 1 and 2. SS. Cr. 0-3. Approval of department head required. May be repeated for credit.

Lecture presentation of specialized material not available in formal courses of the department. The specific topic that is offered will be indicated on the student's record. Staff.

It is difficult to describe or put limits on Special Topics classes and it is not the objective of these guidelines to stifle the different approaches to these courses. However, the intent of the course is to provide an opportunity for a student to gain knowledge of specialized material not available in formal courses in the department.

**GUIDELINES**

1. Any member of the Animal Sciences faculty may assume responsibility for directing a Special Topics course.
2. Special Topics should not be added after the second week of the semester except under extenuating circumstances.
3. A minimum of 32 hours of student time should be used to complete each credit of Special Topics. An interested student involved with a challenging activity may spend much more time than the minimum hour requirements.

**REQUIREMENTS AND RESTRICTIONS**

1. Individual faculty member and student must agree on the topic, credits, and ground rules before registration for the course.
2. Prior to enrolling a student in Special Topics, the faculty member and student must complete a form describing the nature of the experience to the Undergraduate Programs Committee. The Undergraduate Programs Committee will decide if the problem conforms to the guidelines established by the ANSC faculty and will have the authority to prohibit the offering of the problem if it does not meet the standards set by the ANSC faculty.
3. An individual faculty member may supervise not more than two Special Topics in any one semester without the approval of the Department Head.

## **ANSC 39000 - Animal Sciences Internship**

The Animal Sciences Internship is a cooperative educational program between the Department of Animal Sciences and employers who provides facilities and instruction to assist students in improving skill and knowledge needed for their chosen vocation. The internship program is an off-campus supervised field experience related to the student's professional interest. The internship is available for variable credit with the opportunity to earn up to three credits during the fall, spring, or summer semesters. A maximum of three hours of intern credit can be earned as free electives.

The internship is available each regular semester and during the ten-week summer session to students majoring in Animal Sciences. The course is limited to students who have sophomore, junior, or senior classification and approval of the Animal Sciences Undergraduate Programs Committee. Any student with good standing with Purdue University may enroll.

Students seeking internship experiences are to complete a course application form stating the kind of internship desired and their preference for geographic location. Prior to the beginning of the semester in which the internship is to be taken, the student must arrange a personal or telephone interview with a representative of the cooperating agency. The student's academic advisor and the agency representative must determine whether an available position will provide an experience that supports the student's academic and career objectives. Further, they should be assured that the student's interests and academic preparation would satisfy the demands of the cooperating agency. On approval of the agency representative, and the work description or schedule of anticipated activities, the student will submit the "Plan for Internship" to the Animal Sciences Undergraduate Programs Committee. At that time, the internship agreement will be completed. The completed and signed agreement must be submitted to the Animal Sciences Undergraduate Programs Committee before the student begins his/her internship program.

The student may schedule the course for variable credit (one to three hours) in a semester for a total of three hours for the entire undergraduate career. The credit will be based upon the evaluation of the position by the academic advisor and Animal Sciences Undergraduate Programs Committee using the following criteria: (1) number of skills to be learned, (2) nature of the skills and knowledge the student can acquire that cannot be obtained at the University, (3) the individual needs of the student, and (4) the amount of time committed to the internship.

The student will register for the course the first semester following his/her return to campus from the internship when the assignment of the written report and oral presentation is completed. See your academic advisor or Dr. Elizabeth Karcher, Undergraduate Programs Coordinator, in Creighton Hall, Room 3022, or Ashley York, Director of Academic Advising, Creighton Hall, Room 1058A, for more details concerning credit for internships.

<b>GUIDELINES FOR THE STUDENT'S FINAL REPORTS</b>
---

ANSC 39000  
ANIMAL SCIENCES INTERNSHIP  
DEPARTMENT OF ANIMAL SCIENCES  
Purdue University  
West Lafayette, IN 47907

**GUIDELINES FOR THE STUDENT'S FINAL REPORT**

An internship experience is much more than a job. It is a valuable portion of your educational program in preparation for a professional career. For us to evaluate your progress and the outcome of your internship program, a written report and an oral presentation is needed from you describing what you have achieved during the internship. The preparation of this report and presentation will also help you evaluate your professional development leading to your career goals. Your report and presentation should be completed prior to the last class day of the semester in which the student returns to campus.

Final Written Report and Oral Presentation must include:

1. A description of the organizational structure and function of the cooperating agency sponsoring your internship. Describe the responsibility of your colleagues and indicate your assignment within the organizational structure.
2. A discussion of how your pre-planned objectives were implemented and the outcome of each.
3. A detailed description of the activities associated with your area of responsibility evaluated in relation to your interests and educational background.
4. An appraisal of the internship program relative to your interests and career goals.
5. Your suggestions and recommendations to other students who might wish to pursue an internship with your cooperating agency.
6. A presentation to ANSC 18100, 28100 or a related course.

*Your supervisor must be given the opportunity to review your written and oral presentation before it is presented to the Department of Animal Sciences. This procedure will help to avoid release of any controversial or restricted information from your employer's point-of-view.*

**SUPERVISOR'S EVALUATION OF STUDENT  
PERFORMANCE DURING INTERNSHIP  
PROGRAM**

ANIMAL SCIENCES INTERNSHIP  
DEPARTMENT OF ANIMAL SCIENCES  
Purdue University  
West Lafayette, IN 47907-2041

Student's Name \_\_\_\_\_ Date \_\_\_\_\_  
 Job Title of Internship Position \_\_\_\_\_  
 Supervisor Making Rating \_\_\_\_\_  
 \_\_\_\_\_ Name \_\_\_\_\_  
 \_\_\_\_\_ ( ) \_\_\_\_\_  
 Title Telephone Number

We appreciate your cooperation in rating this student in terms of their performance on internship placement with your agency. Your response will help the academic advisor in assigning a Pass/No Pass grade and identifying areas requiring attention in the student's continuing professional development. Thank you for your cooperation.

Criteria:

Rating: (check one)

A.	Personal Characteristics:	Excellent	Good	Fair	Unacceptable
	Cooperates with management				
	Cooperates with other workers				
	Willingness to work				
	Dependable				
	Honest				
	Ethical behavior				
	Shows initiative				
	Appearance				
	Personality				
	Motivation				
	Accepts supervision				
	Accepts constructive evaluation				
	Punctuality and attendance				
	Professional attitude				
B.	Improvement in skills:				
	Leadership ability				
	Communication – speaking				
	Communication – writing				
	Mechanical ability				
	Learning new operations easily				
	Adapting to a variety of jobs				
	Overall skills for industry				
C.	Potential for career in this professional industry				

INITIAL vs. FINAL SKILLS

1. Was the student adequately prepared to work in your program?  
Yes \_\_\_\_\_ No \_\_\_\_\_ Somewhat \_\_\_\_\_

List the areas of adequate preparation and the areas where additional preparation would have improved the student's capability of work in your agency.

2. In your opinion, what are the student's areas of greatest strength and areas that need improvement?
3. Would you re-employ this student or employ another student with a similar background?  
Yes \_\_\_\_\_ No \_\_\_\_\_ Maybe \_\_\_\_\_
4. What recommendations do you have for us to include in this student's academic program to more adequately prepare the student for future professional roles.
5. Are you interested in having a similar person for another internship at your agency?  
Yes \_\_\_\_\_ No \_\_\_\_\_
6. Additional comments.

## ANSC 49100

### SPECIAL PROBLEMS

**Special Problems** Sem. 1 and 2. SS. Cr. 1-3. To be arranged with individual staff members prior to registration. (May be repeated for a maximum of six credits with approval of department head.)

Supervised individual research or library assignments. Written reports required.

It is difficult to describe or put limits on ANSC 49100 and it is not the objective of these guidelines to stifle the different approaches to this Special Problem course. However, it is proper to note the intent of the course, which is essentially to provide an opportunity for the undergraduate to do a research problem. To this end, the current College of Agriculture catalog describes the course as "supervised individual research or library assignments." In addition to the experience and information derived, an important benefit to the student may be the contact and experience in working with a member of the faculty. An ANSC 49100 Special Problem should be a learning experience for the student in subject matter not available in a formal course structure. The project should be imaginative, stimulating and challenging.

### GUIDELINES

1. Any member of the Animal Sciences faculty may assume responsibility for directing an ANSC 49100 Special Problem.
2. Any student in good standing (GPA  $\geq$  3.00) may request to do an ANSC 49100 Special Problem. However, 49100 is essentially an upper level course and is intended primarily for juniors and seniors.
3. ANSC 49100 Special Problems should not be added by the end of the second week of the semester except under extenuating circumstances.
4. A minimum of 32 hours of student time should be used to complete each credit of ANSC 49100. An interested student studying a challenging problem may spend much more time than the minimum hour requirements.
5. Most Special Problems should include a literature search and where appropriate, pertinent literature should be referred to in the report. Also, many Special Problems may lend themselves to a simple statistical analysis, which the student can use as a tool to help make interpretations of the data.

### REQUIREMENTS AND RESTRICTIONS

1. Individual faculty member and student must agree on the subject matter, scope of the problem, credits, and ground rules before registration for the course.

2. A written report for the professor in charge is required. Public presentation of results by either an oral or poster presentation is encouraged. An additional copy of the report will be submitted to the Teaching Coordinator and will be available for perusal by interested staff and students in the Department of Animal Sciences.
3. An individual instructor may supervise not more than two ANSC 49100 Special Problems in any one semester without the approval of the department head.
4. Prior to enrolling a student in ANSC 49100, an ANSC staff member must complete a form describing the nature of the problem to the Teaching Committee. The Teaching Committee will decide if the problem conforms to the guidelines established by the ANSC faculty and will have the authority to prohibit the offering of the problem if it does not meet the standards set by the ANSC faculty.

## **College of Agriculture Involvement**

### **Academic Quadrathlon Competition**

The academic quadrathlon provides a challenge for Animal Science students in the areas of Animal, Poultry and Food Sciences. Quadrathlon competition consists of four parts: laboratory practicum, written exam, oral presentation and quiz bowl. All aspects of the quadrathlon are team oriented, as one answer is given for each question in the lab practicum and written exam. In the oral presentation, team members must work together to present difficult and complex topics in a simple form. Although the quiz bowl provides an opportunity for individuals to respond, bonus questions are answered on a team basis. Local competition is generally held in February with the winning team traveling to the Midwestern Section of Animal Science competition in March. Competition is open to all NCSU students with an interest in Animal, Food, or Poultry Science. Contact Dr. J. Scott Radcliffe, CRTN 3054, 765-496-7718, for more information.

### **Ag Council**

Membership is limited to 20 agriculture students who are majors in any program in the School of Agriculture. One-year memberships run from January to December. Prospective members must fill out applications during the fall semester and undergo a selection process conducted by current members. There are five officers elected each year from the 20 members. The goals of Ag Council are to foster interactions among students, staff, and members of the community. Examples of sponsored events include an ice cream social, large career fair, mock interviews, Ag Week displays and information booths, dances, and fund raising for charities.

### **Alpha Zeta**

Alpha Zeta is a national agriculture honorary professional fraternity. The goals of Alpha Zeta are to promote agriculture on campus and in the community from all the different perspectives and to provide a group for high scholastic students to come together and be involved in many different activities. Potential members must demonstrate or have the potential for the following characteristics: scholarship, leadership, fellowship and character.

Activities include: regional and national meetings, School of Agriculture Tailgate, leadership and scholarship awards.

### **Purdue University Poultry Club**

The purpose and mission of the Purdue Poultry Club is to promote and help further the interest of avian sciences through support of the poultry industry, fancier exhibitors and species preservation.. Students can interact with representatives from the industry and also with Purdue faculty completing poultry research. The club is involved with a variety of activities such as attending special events within the industry, touring facilities of various companies, doing volunteer work within the community, and participating in the annual Boiler Barnyard event at Purdue. The Purdue Poultry Club is supported by the Turkey Market Development Council and the Indiana State Poultry Association. Anyone with an interest in poultry can join! All students and faculty are welcome to participate in club activities and to attend club meetings.

### **Block and Bridle**

Purdue became a member of the National Block and Bridle Club in 1956. It had previously been known as the Hoof and Horn Club since 1917. Character, sincerity and a moral life are asked of members when they are initiated into the club and are depicted in the straight perpendicular of the "B." The distinct curves of the "B" are symbolic of social pleasure, mental energy, and the determination of members. The meat block represents the material aspects of their life and profession. The bridle stands for the behavior of the Block and Bridle members, the control over themselves that they try to maintain, the mannerisms and respect they show towards others, and the manner with which they treat animals.

Activities include: judging contest, Block and Bridle Royal, Tots Day, Black and Gold Classic Sheep Show, regional and national meetings, School of Agriculture Career Fair, School of Agriculture Tailgate, Swine Day, Boiler Barnyard, and softball teams.

### **Dairy Club**

The Purdue University Dairy Club is a 40+ member organization that is active in many activities throughout the year. The Dairy Club participates in Boiler Barnyard, the Purdue Royal, ADSA, and the Hoard's Dairyman Judging Contest. The club also puts on the State-Wide Dairy Judging Invitational, which is a lot of work for the small organization. Members of the club also help with the State 4-H and FFA Dairy Judging Contest. Because of the Dairy Club's hard work in their many activities, they were recognized as the Top Agricultural Option Club of 2000.

### **Purdue Equestrian Team**

The Purdue Equestrian team was founded in 1980 by Jerry Steinmetz to allow interested Purdue students of all experience levels to participate in the sport of riding. Jerry coached the team until 2017, when his daughter, Krista Steinmetz, took over. Students on the team take hunt seat lessons, take care of the horses, and compete in Intercollegiate Horse Show Association (IHSA) horse shows. At shows, the team is very competitive, attending IHSA Nationals 20 times, and ten of those times placing in the top 10.

### **Pre-Veterinary Club**

The Pre-Veterinary Club is an informational and social club whose objective is to bring together students that are interested in a career in veterinary medicine. Meetings are held one to two times per month and consist of club business and planning, a guest speaker from the veterinary profession, and a case presentation by a senior veterinary student using a case currently under treatment at the veterinary school. Activities include the Veterinary School Open House in April, finals baskets for fellow students, trips to Wolf Park and the Indianapolis Zoo, and more. The club is a source for opportunities to volunteer with the local zoo, wildlife rehabilitation organizations, jobs within the veterinary school, animal-related therapy organizations, and much more. The requirements to be an “active” member are as follows: Attend all meetings during a semester with a maximum of 2 excused absences, participate in one fundraising activity and one other activity sponsored by the club. A list of members in good standing is shared with the Dean’s office of the veterinary school in support of the veterinary application process.

### **Purdue Rodeo Association**

**Purdue Rodeo Association** The Purdue Rodeo Association is a great way for students interested in rodeo to get involved at school. Purdue is a member of the National Intercollegiate Rodeo Association and students that choose to compete at that level can. The Rodeo Club is an excellent opportunity for students with similar interest in the sport to meet each other and get involved in community service projects. This club is open to all majors.

### **Sigma Alpha**

The Sigma Alpha Beta Chapter is a professional and social agriculture based sorority that emphasizes scholarship, leadership and service. The sorority has an objective of maintaining a 2.25 grade point average. It is not required that you live in the house to be in the sorority, but they do own a house that several members reside in. In order to enhance leadership opportunities, it is required by the Beta Chapter for the members to be involved with at least one other campus organization. The Beta Chapter does service projects that influence the School of Agriculture and the community with projects like Rock A Thon, Coffee Hour and Adopt a Highway. They promote professionalism by conducting monthly meetings in professional dress and guest speakers share their professional experience with the chapter. They also strongly promote sisterhood bonds through sisterhood functions and retreats, study breaks, a fall barn dance and formal dances in the winter and spring.

## **Judging Opportunities in Animal Sciences**

### **Dairy Judging Team**

The Dairy Judging Team competes in the fall semester with three to four major contests including the national at the World Dairy Expo in Wisconsin. To be a part of the team, one must register for ANSC 47100. It meets two days a week and field trips are done every Saturday until the national contest. The judging team gives students an opportunity to evaluate dairy cattle in Indiana as well as the Midwest and eastern states. They develop decision skills and verbal communication. Traveling to the farms and contests allows students to contact people and companies of the dairy industry for future internships or employment opportunities. It also encourages a certain discipline to maintain class, field trip and contests needs. Evaluating dairy cattle on the judging team is important to students interested in the industry, but is secondary to the personal growth and work skills one can experience.

### **Livestock Judging Team**

Participation on the livestock judging team is an opportunity for students to enhance their decision making and communications skills, broaden their knowledge of animal production and performance records, learn from and meet the industry leaders, and compete with college students from across the country. Judging team members learn to apply scientific principles of animal growth and composition, evaluation, and selection of various species. Livestock judging team members learn to evaluate breeding and market classes of beef cattle, swine, and sheep. Production data and various environmental scenarios will accompany the livestock classes to further advance the working knowledge of the industry and production situations. Livestock judging competitions are held throughout the United States to challenge the students and determine what knowledge and communication skills have been obtained. These competitions consist of classes of animals that contest contestants and official committee members place. Students' placings are compared to the officials' placings and scored based on the cut system. Following the placing portion of the contest, each student presents their oral reasons on the classes to defend their decisions. Those students that are the most convincing and accurate receive the highest scores. Following the competition, an awards ceremony is held to recognize the teams and individuals that excelled in the event.

Some of the contests attended annually include the All-East Contest, the National Barrow Show in Austin, Minnesota, the American Royal in Kansas City, and the North American in Louisville, Kentucky. Contests consist of 12 classes of breeding and market animals and reasons designated classes. ANSC 30100 is a prerequisite for ANSC 37000 (Livestock Evaluation) and ANSC 47000 (Livestock Judging).

## **Animal Sciences Scholarships and Awards**

**Animal Sciences Scholarships and Awards for *current* ANSC majors (Fall 2020).**

**Current Freshmen and Sophomores:**

**SMITH-NEURGE SCHOLARSHIP** - \$1,000. Recipient must possess a GPA of  $\geq$  3.0. Sponsors: William and Teri Nuerge.

**Current Freshmen, Sophomores and Juniors:**

**ROBERT W. BALTZELL SCHOLARSHIP** - \$3,000 scholarships for students with a 3.50 GPA and enrolled in a minimum of 12 credit hours. Pre-vet students are not eligible. Sponsor: Robert Baltzell in honor of Drs. Millard Plumlee, Hobart Jones and Martin Stob.

**BAUMGARDT FAMILY SCHOLARSHIP** – \$2,500. Recipient must be an Indiana resident and involved in undergraduate research. Sponsors: Dr. Billy and Elaine Baumgardt.

**BOOK-HARMON LEADERSHIP SCHOLARSHIP** – \$1,000. Recipient must have a minimum GPA of 3.00, possess good communication and leadership skills, and be involved in extracurricular activities. Sponsors: Drs. Robert Book and Bud Harmon.

**BLAINE CROWL MEMORIAL SCHOLARSHIP** –\$2,000. Recipient must be Indiana resident. GPA  $>$  2.65. Sponsors: John and Judith Cleland.

**HOWARD L. DAUGHERTY MEMORIAL SCHOLARSHIP** – \$1,500. Preference will be given to student who is participating in Study Abroad within the College of Agriculture. The scholarship is renewable as long as the recipient is enrolled in the Department of Animal Sciences. Sponsors: Gary and Connie Standiford.

**JOHN HENRY HINKLE MEMORIAL SCHOLARSHIP** –\$2,500 scholarships for students with a GPA of  $\geq$  3.50 and enrolled in a minimum of 12 credit hours. Recipients must demonstrate academic proficiency in animal science. Preference given to Monroe county residents. Sponsor: Mrs. Joseph N. Garton in memory of her grandfather.

**R. L. HOGUE AWARD** – \$1,200. Recipient must demonstrate leadership interest in and potential for contributing to the poultry industry. Sponsors: Friends of R. L. Hogue.

**INDIANA STATE POULTRY ASSOCIATION SCHOLARSHIP** – \$2,500. Recipient must be in-state and enrolled as a full-time Animal Sciences student with a proven interest in the poultry industry. Sponsor: Indiana State Poultry Association.

**EMERSON J. KUHN SCHOLARSHIP** – \$1,500. Demonstrated commitment to active leadership in high school, local community or Purdue University. Recipient must file FAFSA for Fall 2019. GPA  $\geq$  2.65. Sponsors: Dr. William E. Kuhn and Joyce M. Kuhn.

**MADIA FAMILY SCHOLARSHIP** – \$1,000. Recipient must be Indiana resident. GPA  $>$  2.65. Sponsors: John and Jean Madia.

**TRUMAN AND MARJORIE MARTIN STUDY ABROAD SCHOLARSHIP** – \$1,500. \$1,500. Recipient must be participating in the Study Abroad Program for either a full semester or entire academic year. Written statement of travel and study plans and expected educational benefits is needed. Indicate involvement in extracurricular activities. GPA  $\geq$  3.00.

**CHARLES L. AND JEAN RUEFF AWARD** –\$1,000 award. Recipient must show an interest in the swine industry such as previous industry involvement or post-graduate plans for industry employment. Awardee must demonstrate progress in the development of academics, leadership and self-improvement. GPA  $>$  2.70. Sponsors: Dr. Larry and Gail Rueff.

**THRASHER FAMILY AWARD** – \$2,500. Recipient must demonstrate progress in the development of academic skills, leadership and self-improvement. GPA  $\geq$  2.70. Sponsors: The George Thrasher family.

**Current Sophomores Only:**

**THE ERIC and FRAN LUCKMAN MEMORIAL SCHOLARSHIP FUND** – \$1,500. \$1,500. Indicate potential for leadership in the animal agriculture industry. Articulate plans to work in the animal agriculture industry or for post-graduate education that will ultimately impact the industry. Demonstrate progress in the development of academic skills, leadership, and self-improvement. GPA  $>$  2.70.

**HENRY MAYO SCHOLARSHIP** - \$1,500. Recipient must indicate an interest in animal food products and animal agriculture. Must demonstrate extracurricular leadership and citizenship activities. GPA  $>$  2.70. Sponsors: Henry A. Mayo and friends.

**Current Sophomores and Juniors:**

**BRATTON-WEBSTER MEMORIAL SCHOLARSHIP** – \$1,000. Recipients must be involved in undergraduate research in biology/biotechnology of food-processing animals. GPA  $>$  2.70. Sponsor: In memory of Robert Logan Bratton and Sarah Hannah Davis Bratton.

**FRANK AND WINI CLARK BEEF INDUSTRY SCHOLARSHIP** – \$1,000. Recipient must demonstrate leadership and an interest in the beef industry. GPA  $\geq$  2.70. Sponsor: Wini Clark.

**OWEN AND FRAN CRISMAN FAMILY SCHOLARSHIP** – \$1,000. Recipient must have GPA  $\geq$  3.00. Sponsors: Crisman family in honor of Dr. Martin Stob.

**PAUL E. NEWMAN SCHOLAR AWARD** - \$1,500. Recipient must present evidence of leadership, extracurricular activities, character and potential future community leadership and service. Awardee must also illustrate an interest in topics outside their chosen field. Recipient must file FAFSA form for Fall 2019. GPA  $>$  2.70. Sponsor: Paul E. Newman.

**Current Juniors and Seniors graduating in Fall 2020:**

**RICHARD A. PICKETT MEMORIAL AWARD** - \$2,000. Recipient must demonstrate academic excellence, leadership, citizenship and extracurricular activities with an interest in animal agriculture. GPA > 2.70. Sponsors: Friends of Dr. Richard A. Pickett.

**ROTHENBERGER LEADERSHIP AWARD** – \$1,500. Recipient must demonstrate potential for outstanding leadership and citizenship in the swine industry. GPA > 2.70. Sponsor: Erland Rothenberger.

***All Current Students:***

**DEKRYGER FAMILY SCHOLARSHIP** - \$1,500. Recipient must be an Indiana resident. Sponsors: Malcom and Donna DeKryger.

**PAUL AND LINDA BRENNAN SCHOLARSHIP IN ANIMAL SCIENCES** - \$500. Recipient must be an Indiana resident and a full-time student in Animal Sciences. Sponsors: Paul and Linda Brennan.

**WILLIAM HAGEMEIERS FAMILY SCHOLARSHIP FOR ANIMAL SCIENCES** - \$2,000. Recipient must be a full-time Animal Sciences student. Sponsors: William R. and Pamala Hagemeir.

**OUTSTANDING FRESHMAN, SOPHOMORE, JUNIOR AND SENIOR AWARDS** - \$3,000 each. One student in each class is selected on academics (60%) and leadership (40%) and nominated for College of Agriculture awards. Students with GPA  $\geq$  3.25 will receive instructions in late January for application procedures.

To be eligible for any award or scholarship, a student must be enrolled for at least 12 credits as an undergraduate Animal Sciences major on the West Lafayette campus of Purdue University for the Fall 2020 semester. For other financial aid information, contact the Division of Financial Aid at 765-494-5050. For more information about Animal Sciences scholarships, contact Ashley York at 765-494-4843 or [ashlevyork@purdue.edu](mailto:ashlevyork@purdue.edu).
