* Bull sells in the 90th IBEP PT Bull Sale - Saturday October 15, 2022
+ Bull met requirements to sell but is returning home, contact owner for more information
^ This was not adjusted to 365 days of age, this is the actual data.
RE A/cwt is calculated using 365-day weight; if RE A is not adjusted to 365 days, scan weight is used.
% IM Fat = % Intramuscular fat
Carcass Merit = (% Retail Product Ratio + % IM Fat Ratio)/2
F S = Frame Score
Ratios for both % Retail Product and % IM Fat are computed within breed. When there are fewer than six bulls in a breed, their ratios are based upon all bulls in the test. 95.5 was the Performance Index threshold for this test.
