### Sale Summary for the 91<sup>st</sup> IBEP Performance Tested Bull

It was a beautiful day in southern Indiana for the 91<sup>st</sup> IBEP Performance Tested Bull Sale. For the offering of 94 bulls, 89 buyer numbers were on hand in preparation to give their nod for their next herd sire. New implementations were attempted with this Sale. The first being a reformatted Sale catalog that evolved over the duration of the test and provided a greater viewing time. The second implementation was broadcasting the respective bull's video on multiple monitors within the auction ring compared to the traditional format of bringing the bull into the ring to be auctioned off.

Currently, none of these implementations are permanent. Formats of future Sales will be based off of feedback from cooperators and buyers.

Congratulations to the following Cooperators for their bull's success in the 2022 Winter Test:
