ASEC 590 Contract

This contract is designed for use between an advisor and a graduate student for individual study of a special problem in a selected area of ASEC.

Please follow the directions for completion of the contract and turn it in to the appropriate graduate advisor at the time of project proposal. A committee will review the proposal and make any necessary comments/suggestions. The graduate student will be notified concerning the status of the proposal by the advisor within two weeks of submission.

- 1. Fill out the proposal listed below.
- 2. Provide a brief description of the project not to exceed two, double-spaced, typewritten pages. Include the following information:
 - □ Objectives of the study
 - ☐ How the proposed project fits into the overall plans of the student; i.e. how will the student utilize the experience?
 - □ Brief description of the procedures to be used to conduct the proposed study
- □ Final evidence of successful completion of the proposed project; i.e. what artifacts will exist documenting the project?

A portfolio? A report? A video collection? Multi-media display? Electronic library?

3. Credit requested is to be based upon the understanding that 45 clock hours of work is equivalent to 1 semester credit hour, 90 clock hours=2 credit hours, 135 clock hours=3 credits
