

## DEPARTMENT OF BIOCHEMISTRY

### BCHM 100 Syllabus Fall 2021

**INSTRUCTOR:**

office: Dr. Clint Chapple  
BCHM 211  
TEL: 494-0494  
e-mail: [chapple@purdue.edu](mailto:chapple@purdue.edu)  
pronouns: he/him/his  
Office hours: By appointment online or in my office

**LECTURE TA:**

Office: Clayton Hicks  
Opperman Commons, BCHM  
TEL: 574-678-0115  
e-mail: [cthicks@purdue.edu](mailto:cthicks@purdue.edu)  
Office hours: Monday 2:30-3:30 and Wednesday 10:30-11:30,  
or by appointment via Zoom

**LECTURES:**

Tuesday and Thursday, 9:30-10:20, WALC B074. All lectures will be recorded, and will be available for students who miss a class or who would like to review a lecture. They can be viewed via the Kaltura Media Gallery in the course Brightspace site.

**COURSE OBJECTIVES**

Students in BCHM 100 aren't necessarily biochemists. Some have future career interests in human or veterinary medicine, plant sciences, and pharmacy, but many just want to understand how living things "work". In this course, we will explore what happens when things "stop working" as a way to understand topics as varied as human disease, nerve gases, herbicides, and Siamese cat pigmentation. In doing so, we will explore the scale, structure, and function of small molecules and proteins and learn to visualize biochemical molecules and processes. In parallel, we will discuss these topics in the context of technologies and issues relevant to society such as the development and deployment of transgenic plants and the consequences of genetic conditions such as PKU and sickle cell anemia.

**LEARNING OUTCOMES**

- BCHM 100 students will understand the molecular principles of life based on the core disciplines of biology, chemistry and physics.
- BCHM 100 students will understand the scientific method.
- BCHM students will appreciate the ethical issues facing professionals in the life sciences.
- BCHM 100 students will understand the contributions of our discipline to society, including improvements to medicine, agriculture, the economy and the environment.

Additional, module-specific learning outcomes are listed in Brightspace at the beginning of each module.

## TEXTBOOK

There is no recommended textbook for this course. Links to appropriate web resources for additional reading will be provided in your lectures notes and online.

## COMPUTERS

Many lecture activities will require the use of a laptop or tablet computer. Necessary software (Pymol) can be downloaded via the links provided on Brightspace.

## BRIGHTSPACE

The syllabus for the course and lecture notes will be available via the Purdue University Brightspace site at: <https://purdue.brightspace.com/d2l/login>

## ASSESSMENT

The grading for this course will be as follows:

Midterm Exam	100 points
Final Exam	100 points
Quizzes (5 @ 20 points each)	100 points
Assignments (5 @ 20 points)	100 points

There are six quizzes and six homework assignments throughout the course. If you choose to do all of these, only the top five scores for each will count toward your final grade. Alternatively, you can choose to simply skip a quiz or homework, in which case a grade of zero will be recorded and that quiz or homework assignment grade will be dropped as your lowest grade.

The final exam will be not be cumulative but the second half course material depends heavily on the material covered in the first half of the course. I strongly advise that you review the major concepts covered in the first half of the course as part of your studying for the final exam.

The cutoff values for letter grades are as follows:

360 points	A
320 points	B
280 points	C
240 points	D
239 points and below	F

Failing to submit a quiz or exam during the designated time period will result in a grade of 0 being recorded unless documented justification is presented. Any request to be excused from a quiz or exam must include official documentation (doctor's note, request from academic advisor, etc.) explaining why the exam was or will be missed. If a quiz or exam is excused, a makeup evaluation may be scheduled by the instructor.

If you have any disagreements with the way any of your quizzes or exams have been graded, please discuss them with the TA who graded the exam. In the event this does not resolve your concerns, please take them up with the instructor.

Requests for re-grades must be submitted no later than the end of the second class period after the graded test or assignment has been returned.

## **EXTRA CREDIT**

There will be no opportunity for extra credit.

## **OBTAINING EXTRA HELP**

The lecture TA will hold office hours for at least 3 hours per week, and will be able to answer additional questions by appointment.

## **CLASS ATTENDANCE**

In accordance with University policy, you are expected to attend every scheduled class. If you have a valid reason for missing class such as a University-sponsored activity, religious observances, illness, or family emergency, the instructor or TA will assist you in obtaining information and materials you may have missed. Students who skip class without a valid excuse should not expect the instructor or TA to supply class notes or provide special help. For the official university policy, see:

[http://www.purdue.edu/studentregulations/regulations\\_procedures/classes.html](http://www.purdue.edu/studentregulations/regulations_procedures/classes.html)

When the student is unable to make direct contact with the instructor and is unable to leave word with the instructor's department because of circumstances beyond the student's control, and in cases of bereavement, quarantine, or isolation, the student or the student's representative should contact the Office of the Dean of Students via email or phone at 765-494-1747. Our course Brightspace site includes a link on Attendance and Grief Absence policies under the University Policies menu.

## **PROTECT PURDUE PLAN**

The Protect Purdue Plan, which includes the Protect Purdue Pledge, is campus policy and as such all members of the Purdue community must comply with the required health and safety guidelines. Required behaviors in this class include: staying home and contacting the Protect Purdue Health Center (496-INFO) if you feel ill or know you have been exposed to the virus, wearing a mask in classrooms and campus buildings, at all times (e.g., no eating/drinking in the classroom), disinfecting desk/workspace prior to and after use, maintaining proper social distancing with peers and instructors (including when entering/exiting classrooms), refraining from moving furniture, avoiding shared use of personal items, maintaining robust hygiene (e.g., handwashing, disposal of tissues) prior to, during and after class, and following all safety directions from the instructor.

Students who are not engaging in these behaviors (e.g., wearing a mask) will be offered the opportunity to comply. If non-compliance continues, possible results include instructors asking the student to leave class and instructors dismissing the whole class. Students who do not comply with the required health behaviors are violating the University Code of Conduct and will be reported to the Dean of Students Office with sanctions ranging from educational requirements to dismissal from the university.

Any student who has substantial reason to believe that another person in a campus room (e.g., classroom) is threatening the safety of others by not complying (e.g., not wearing a mask) may leave the room without consequence. The student is encouraged to report the behavior to and discuss next steps with their instructor. Students also have the option of reporting the behavior to the Office of the Student Rights and Responsibilities. See also Purdue University Bill of Student Rights.

## **ACADEMIC MISCONDUCT**

Academic misconduct of any kind will not be tolerated in any course offered by the Department of Biochemistry. Information on Purdue's policies with regard to academic misconduct can be found at  
<https://catalog.purdue.edu/content.php?catoid=14&navoid=16497>

Any incidence of academic misconduct will be reported to the Office of the Dean of Students. Academic misconduct may result in disciplinary sanctions including expulsion, suspension, probated suspension, disciplinary probation, and/or educational sanctions. In addition, such misconduct will result in punitive grading such as:

- receiving a lower or failing grade on the assignment, or
- assessing a lower or failing grade for the course

Punitive grading decisions will be made after consultation with the Office of the Dean of Students. Please note reported incidences of academic misconduct go on record for reference by other instructors. Further, a record of academic misconduct is likely to influence how current/future situations are handled.

To provide you with an unambiguous definition of academic misconduct, the following text has been excerpted from "Academic Integrity: A Guide for Students", written by Stephen Akers, Ph.D., Executive Associate Dean of Students (1995, Revised 1999, 2003), and published by the Office of the Dean of Students in cooperation with Purdue Student Government, Schleman Hall of Student Services, Room 207, 475 Stadium Mall Drive West Lafayette, IN 47907-2050.

"Purdue prohibits "dishonesty in connection with any University activity. Cheating, plagiarism, or knowingly furnishing false information to the University are examples of dishonesty." [Part 5, Section III-B-2-a, *Student Regulations*] Furthermore, the University Senate has stipulated that "the commitment of acts of cheating, lying, and deceit in any of their diverse forms (such as the use of substitutes for taking examinations, the use of illegal cribs, plagiarism, and copying during examinations) is dishonest and must not be tolerated. Moreover, knowingly to aid and abet, directly or indirectly, other parties in committing dishonest acts is in itself dishonest." [University Senate Document 72-18, December 15, 1972]

More specifically, the following are a few examples of academic dishonesty which have been discovered at Purdue University.

- substituting on an exam for another student
- substituting in a course for another student
- paying someone else to write a paper and submitting it as one's own work
- giving or receiving answers by use of signals during an exam
- copying with or without the other person's knowledge during an exam
- doing class assignments for someone else
- plagiarizing published material, class assignments, or lab reports
- turning in a paper that has been purchased from a commercial research firm or obtained from the internet
- padding items of a bibliography
- obtaining an unauthorized copy of a test in advance of its scheduled administration
- using unauthorized notes during an exam
- collaborating with other students on assignments when it is not allowed

- obtaining a test from the exam site, completing and submitting it later
- altering answers on a scored test and submitting it for a regrade
- accessing and altering grade records
- stealing class assignments from other students and submitting them as one's own
- fabricating data
- destroying or stealing the work of other students

Plagiarism is a special kind of academic dishonesty in which one person steals another person's ideas or words and falsely presents them as the plagiarist's own product. This is most likely to occur in the following ways:

- using the exact language of someone else without the use of quotation marks and without giving proper credit to the author
- presenting the sequence of ideas or arranging the material of someone else even though such is expressed in one's own words, without giving appropriate acknowledgment
- submitting a document written by someone else but representing it as one's own"

Academic integrity is one of the highest values that Purdue University holds. Individuals are encouraged to alert university officials to potential breaches of this value by either emailing [integrity@purdue.edu](mailto:integrity@purdue.edu) or by calling 765-494-8778. While information may be submitted anonymously, the more information that is submitted provides the greatest opportunity for the university to investigate the concern.

#### **NOTICE OF COPYRIGHT PROTECTION OF COURSE MATERIALS**

Among the materials that may be protected by copyright law are the lectures, notes, and other material presented in class or as part of the course. Always assume the materials presented by an instructor are protected by copyright unless the instructor has stated otherwise. Students enrolled in, and authorized visitors to, Purdue University courses are permitted to take notes, which they may use for individual/group study or for other non-commercial purposes reasonably arising from enrollment in the course or the University generally.

Notes taken in class are, however, generally considered to be "derivative works" of the instructor's presentations and materials, and they are thus subject to the instructor's copyright in such presentations and materials. No individual is permitted to sell or otherwise barter notes, either to other students or to any commercial concern, for a course without the express written permission of the course instructor. To obtain permission to sell or barter notes, the individual wishing to sell or barter the notes must be registered in the course or must be an approved visitor to the class. Course instructors may choose to grant or not grant such permission at their own discretion, and may require a review of the notes prior to their being sold or bartered. If they do grant such permission, they may revoke it at any time, if they so choose.

#### **EMERGENCY PREPAREDNESS**

In the event of a major campus emergency, course requirements, deadlines and grading percentages are subject to changes that may be necessitated by a revised semester calendar or other circumstances. To get information about changes in this course consult the class Brightspace site or e-mail or phone the instructor.

## **ON-LINE COURSE EVALUATIONS**

During the last two weeks of the semester, you will be provided an opportunity to evaluate this course and your instructor(s). During the last week of classes, you will receive an official email from evaluation administrators with a link to the online evaluation site. You will have two weeks to complete this evaluation. Your participation in this evaluation is an integral part of this course. Your feedback is vital to improving education at Purdue University.

## **NON-DISCRIMINATION POLICY**

Purdue University's non-discrimination policy will be upheld in this classroom. Purdue University is committed to maintaining a community which recognizes and values the inherent worth and dignity of every person; fosters tolerance, sensitivity, understanding, and mutual respect among its members; and encourages each individual to strive to reach his or her own potential. In pursuit of its goal of academic excellence, the University seeks to develop and nurture diversity. The University believes that diversity among its many members strengthens the institution, stimulates creativity, promotes the exchange of ideas, and enriches campus life.

Purdue University views, evaluates, and treats all persons in any University related activity or circumstance in which they may be involved, solely as individuals on the basis of their own personal abilities, qualifications, and other relevant characteristics.

In this course, each voice in the classroom has something of value to contribute. Please take care to respect the different experiences, beliefs and values expressed by students and staff involved in this course. We support Purdue's commitment to diversity, and welcome individuals of all ages, backgrounds, citizenships, disability, sex, education, ethnicities, family statuses, genders, gender identities, geographical locations, languages, military experience, political views, races, religions, sexual orientations, socioeconomic statuses, and work experiences

For more information, see [http://www.purdue.edu/purdue/ea\\_eou\\_statement.html](http://www.purdue.edu/purdue/ea_eou_statement.html).

## **MENTAL HEALTH**

Purdue University is committed to advancing the mental health and well-being of its students. If you or someone you know is feeling overwhelmed, depressed, and/or in need of support, services are available. For help, such individuals should contact Counseling and Psychological Services (CAPS) at (765)494-6995 or <http://www.purdue.edu/caps/> after hours, on weekends and holidays, or by going to the CAPS office of the second floor of the Purdue University Student Health Center (PUSH) during business hours.

## **ACCESSIBILITY AND ACCOMODATIONS**

Purdue University strives to make learning experiences as accessible as possible. If you anticipate or experience physical or academic barriers based on disability, you are welcome to let me know so that we can discuss options. You are also encouraged to contact the Disability Resource Center at: [drc@purdue.edu](mailto:drc@purdue.edu) or by phone: 765-494-1247.

## **DISCLAIMER**

This syllabus is subject to change.

## LECTURE SCHEDULE (subject to change)

Module	Topic	Lecture Dates
1	Introduction	August 24
2	Scale and organization <i>Back of the envelope calculations</i>	August 26, 31 September 2
3	Case study 1: PKU part 1	September 7, 9
4	Central Dogma	September 14, 16
5	Case study 1: PKU part 2 <i>Diagramming PKU</i>	September 21, 23 September 28
6	Amino acids	September 30, October 5
7	Case study 2: alcaptonuria October Break	October 7 October 12
8	Protein structure and function <i>Two letter genetic code</i>	October 14, 19, 21 October 26
9	Case study 3: insecticides and nerve gases	October 28, November 2
10	Enzymes <i>Translation and mutation</i>	November 4, 9 November 11
11	Case study 4: Roundup and enzyme inhibition	November 16, 18
12	Case study 5: antibiotics Thanksgiving Break	November 23 November 25
13	Case study 6: sickle cell anemia <i>Enzyme kinetics</i> Class canceled for midterm	November 30, December 2 December 7 December 9

Classes shown in italics will include time in class devoted to homework assignments but may also be used to catch up on lecture material if we are behind in lecture material.

## QUIZ AND EXAM SCHEDULE

Evaluation	Coverage	Date
Quiz 1	Modules 2-3	September 17
Quiz 2	Modules 4-5	October 1
Quiz 3	Modules 6-7	October 15
Exam 1*	Modules 2-7	October 20 6:30-7:30 p.m. LILY G126
Quiz 4	Modules 8-9	November 5
Quiz 5	Modules 10-11	November 19
Quiz 6	Modules 12-13	December 3
Exam 2	Modules 8-13	Week of December 13-18 Time and location TBA

\*Last day to drop the course is October 26

## HOMEWORK SCHEDULE

Evaluation	Topic	Due date
1	The Madness of King George	September 3
2	Back of the envelope calculations	September 10
3	Diagramming PKU	October 8
4	Two letter genetic code	November 5
5	Translation and mutations	November 19
6	Enzyme kinetics	December 3*

\*Homework 6 will not be graded as late unless it is submitted after December 10.
