

Broad view of the area

Show patterns of damage

Focus on trouble spots

The pattern of symptom development is important for diagnosis of turf problems and photos help show those patterns. Email photos to ppdl-samples@purdue.edu or upload them at our website: <https://ag.purdue.edu/btny/ppdl/Pages/digitalimages.aspx>

Include objects
that show scale
and size of the
problem

Show weeds too

Information we need:

- Explain main concern
- Type of turf
- Irrigation practices
- Date problem appeared
- Fertilization practices
- Pesticides applied
- Soil test results if known
- Follow up with physical sample

Include Close-ups
