

Using the tabs, the view can be changed from displaying only **Absences** or only **Holidays**.

The **Filter** can be used to filter by **Future Events** or **Past Events**.

The screenshot shows a web interface titled "Absences and Holidays". At the top, there are three tabs: "All" (which is selected and highlighted in blue), "Absences", and "Holidays". To the right of these tabs is a filter icon (a funnel) and a dropdown menu. The dropdown menu is open, showing two options: "Future Events" (which is highlighted with a dashed border) and "Past Events". Below the tabs, the interface displays the year "2019" and a list of events, including "Memorial Day" with the date "Mon, May 27, 2019".
