

The Harpur lab is seeking a full-time undergraduate research assistant to work with our team over the summer.

The research assistant will have the opportunity to work on a variety of tasks related to honey bee research. The primary focus of the position will be assisting with the daily care and maintenance of our honey bee colonies, including hive inspections, record-keeping, and sample collection. In addition, the research assistant will assist with laboratory tasks such as preparing samples for analysis, conducting experiments, and data entry.

This is a full-time, paid position and will run from May through August. The successful candidate will work 40 hours per week and will receive a competitive hourly wage. Applicants should be comfortable working with honey bees. Experience not needed but preferred.

If you are interested in applying for this position, **please email honeybee@purdue.edu and submit your resume/cv and a brief statement of interest.** Please feel free to share this email with any students who may be interested in this opportunity.
