

Paper Plate Bug Hats and Masks

Supplies:

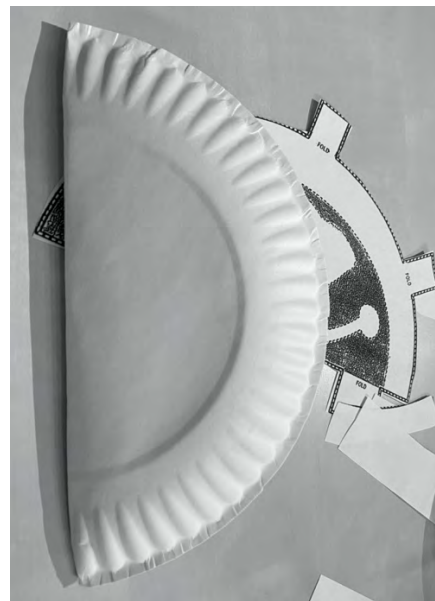

- Plain Paper Plates
- Scissors
- A printout of the hat pattern
- Crayons, markers, or whatever you prefer to draw with

1. Print out the pattern(s). They are sized to fit 9 inch paper plates.

2. Cut out the paper pattern along the dotted lines.

3. Fold your paper plate in half

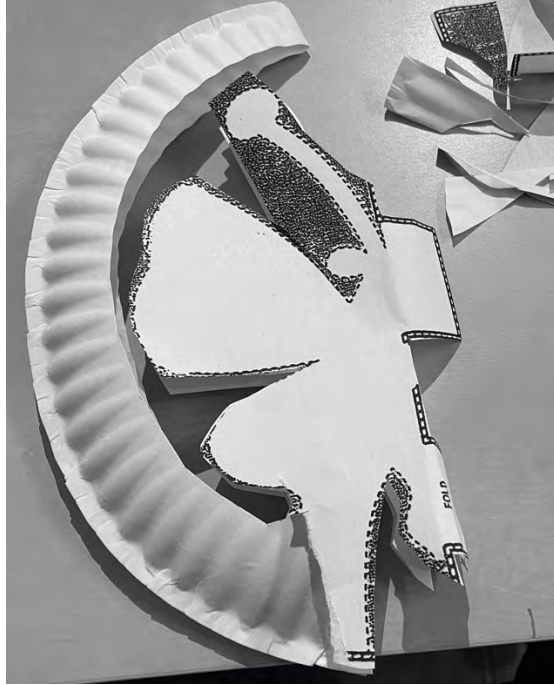

4. Put the pattern over the paper plate, using the little tabs to help hold it in place

5. Cut out the pattern! Cut out the areas colored in black to leave behind the insect shape. You might want to do the smaller, more fiddly cuts for antennae and eyes last.

Smaller children may need help from an adult or older child; it's hard for little hands to hold the plate steady while cutting.

6. Unfold your paper plate, and color.

7. ENJOY!
