

Discovering the Watershed  
Pre/Post Survey  
Answer Key

1. \_\_\_\_\_ is an area of land where water drains off.  
Runoff                      **Watershed**                      Water quality
2. \_\_\_\_\_ tell us how healthy an ecosystem is.  
Deer                      **Indicator species**                      Environments
3. \_\_\_\_\_ filter water.  
**Wetlands**                      Erosion                      Desserts
4. \_\_\_\_\_ helps with erosion.  
Draining wetlands                      **Planting trees**                      Cutting down trees
5. What are two things you can do to help river habitats?  
**Pick up litter**                      Put trash down storm drains                      **Never dump fish bait**
6. I feel \_\_\_\_\_ ready to learn.  
**Not**                      **Sort of**                      **Very – no right answer**

## Discovering the Watershed Pre/Post Survey

**Number:** \_\_\_\_\_ **Pre or Post** \_\_\_\_\_

---

1. \_\_\_\_\_ is an area of land where water drains off.

Runoff                      Watershed                      Water quality

2. \_\_\_\_\_ tell us how healthy an ecosystem is.

Deer                      Indicator species                      Environments

3. \_\_\_\_\_ filter water.

Wetlands                      Erosion                      Desserts

4. \_\_\_\_\_ helps with erosion.

Draining wetlands                      Planting trees                      Cutting down trees

5. What are two things you can do to help river habitats?

Pick up litter    Put trash down storm drains                      Never dump fish bait

6. I feel \_\_\_\_\_ ready to learn.

Not                      Sort of                      Very – no right answer
