

Aquatic Ecology Laboratory Technician

Fish Ecology Laboratory

Purdue University, Department of Forestry and Natural Resources

West Lafayette, IN, USA

Description:

The Fish Ecology Laboratory at Purdue University is in search of a full-time (30-40 hrs/week) laboratory technician to process zooplankton and larval fish samples. The primary task would include the identification and enumeration of zooplankton collected from Lake Michigan but may also include the extraction of otoliths from larval fish, larval fish diet analysis, and larval fish species identification.

Employment will be for summer of 2023 (May 8th to August 18th) with opportunity to start part-time before the summer.

Salary:

\$14.00/hour

How to Apply:

The position will remain open until filled. For full consideration, please respond by March 10, 2023, and submit a CV and contact information to Les Warren (warre112@purdue.edu; 262-210-1653).
