

Announcing an open position for a postdoctoral research associate with expertise in both quantitative and qualitative methods in the Natural Resources Social Science (NRSS) Lab at Purdue University. The NRSS Lab is a highly productive and vibrant group that primarily focuses on the social dimensions of agriculture in the Midwestern United States, with particular emphasis on diversification and conservation. PI Dr. Linda Prokopy has a number of grants to support this ongoing work and the successful applicant will have the opportunity to generate a number of publications, learn about project and data management, and have the opportunity to mentor undergraduate students. For more information about the lab and Dr. Prokopy, please visit: <https://www.purdue.edu/fnr/prokopy/>.

This position requires a background in social science research, excellent quantitative and qualitative data analysis skills, and strong written and verbal communication skills. Opportunities for professional development are encouraged and attendance at a minimum of one national conference per year will be fully funded.

This position is available immediately but will ideally be filled by May 15<sup>th</sup>, 2024. The position is located in West Lafayette, Indiana. The position pays \$55,000/year plus benefits with the possibility of a moving allowance. This position is initially for one year but is renewable for a second year based upon satisfactory performance and availability of funds.

To apply for this position, please email Dr. Prokopy at [lprokopy@purdue.edu](mailto:lprokopy@purdue.edu) and attach a letter of interest, a current CV or resume, and contact information for three professional references. Applications will be reviewed on a rolling basis starting March 15. All applicants must be eligible to drive for Purdue University business.
