

SPRING 2025 SEMINAR SERIES

MONDAY FEBRUARY 17, 2025
WSLR 116 3:30 PM - 4:30 PM

JOIN US FOR A LECTURE AND CONVERSATION WITH

Gunnar Kramer is an Assistant Professor in the Department of Natural Resource Ecology and Management at Iowa State University. Prior to joining ISU, Dr. Kramer was a National Science Foundation Postdoctoral Research Fellow at Harvard University.

This series aims to stimulate discussion and create opportunities for collaborations. Everyone is welcome to attend.

DR. GUNNAR KRAMER

Tracking Migratory Songbirds to Inform Conservation

Persistent declines in the abundance of migratory birds have led to widespread concern, fueling conservation efforts to reverse declines. However, basic information about the migratory ecology of most songbirds is lacking, hindering effective conservation. Using geocator data from Nearctic-Neotropical migrants, including golden-winged and blue-winged warblers (*Vermivora* warblers) collected from across their breeding distributions, I will highlight various ways tracking data can be used to delineate space use across the annual cycle, better understand the movement ecology of migratory birds, and inform conservation strategies for migratory species.

LOCATED AT 170 S UNIVERSITY STREET, WEST LAFAYETTE, IN 47907

IF YOU ARE INTERESTED IN MEETING WITH GUNNAR PLEASE
CONTACT DR. PATRICK RUHL AT PRUHL@PURDUE.EDU
