

TWO PAID OPPORTUNITIES FOR AQUACULTURE TRAINING AT UWSP NADF

The facility is offering two paid opportunities: a 3-month summer internship to either a high school student or undergraduate student as well as a six-month apprenticeship for an individual not currently enrolled in school. Both opportunities would be stationed at UWSP NADF (University of Wisconsin Stevens Point, Northern Aquaculture Demonstration Facility) in Bayfield, Wisconsin.

AQUACULTURE APPRENTICESHIP - 6 MONTH FULL TIME

- Eligibility: High school diploma and not currently enrolled at a college or university. Interest in aquaculture, fisheries, natural resources or related fields.
- Pay: ~\$20/hr, 40hrs/wk (full time) for 6 months. Approximate start date of June 1, 2025.
- Gain expertise with all aquaculture systems and species at the facility including Atlantic salmon, walleye and lake trout, recirculating systems, ponds, flow-through systems.
- Lead various research projects at the facility which will include data collection, analysis, and publication.
- Assist in public outreach at the facility including tours and public events.

TO APPLY TO EITHER INTERNSHIP OR APPRENTICESHIP OPPORTUNITY, PLEASE EMAIL UWSP NADF ASSISTANT DIRECTOR, TYLER FIRKUS (TYFIRKUS@UWSP.EDU) THE FOLLOWING:
