FOREST TECHNICIAN/ FORESTER I

Outdoor Enthusiast Needed for Full-Time Forestry Position in Sparta, WI

Are you passionate about the outdoors, committed to stewardship, and eager to join a dynamic team of go-getters? Look no further!

What We Do:

- Provide forestry consulting services to private forest landowners in the Driftless region of Southwest Wisconsin. Our services include:
 - Designing and implementing forest management plans;
 - Establishing and coordinating timber sales;
 - Consulting on best practices for harvesting, timber stand improvement and wildlife habitat management.
- Our mission is to build long-lasting, generational relationships with our clients and their forests. Helping them to leave a lasting Legacy.

Who WE Are:

- A small team based in Sparta, WI.
- A family owned and operated small business. Family and fun are two of our Core Values.
- We are not Corporate, we're a highly motivated team of forestry professionals serving our ideal clients.
- Avid outdoorsman with a passion for hunting, fishing, hiking, camping and recreating.

Who YOU Are:

- Passionate about the outdoors.
- Looking for a rewarding career in forestry.
- Someone who is teachable, can learn quickly, take initiative and accept responsibility.
- Have an eye for detail.
- Be a lifelong learner.

Your Role:

As our newest team member, you'll begin by learning the ropes of timber sales, this will include marking timber and performing forest inventories. As you gain experience, you'll work directly with landowners, loggers, and timber buyers to discuss and implement logging operations and develop management plans from start to finish. Eventually, you'll perform landowner consultations, onboard new clients, and independently manage and oversee your own projects.

What We Offer:

- Full-time position
- Competitive compensation commensurate with experience (\$40-50K per year)
- Flexible work schedule, typically 40 hours per week, with flex options for a summer schedule to take advantage of longer daylight hours and have extended weekends.

What Skills and Trails We'll Need From You:

- Minimum of 1 summer forestry internship.
- Understanding or willingness to learn forest management systems and forest cover types of the Great Lakes region.
- 2 or 4-year degree in forest management or related field.
- Comfortable working outdoors in various weather conditions and on uneven, hilly terrain.
- Understanding of spreadsheets, GIS mapping, and be proficient in the use of a compass, increment borer, cruising prism and a biltmore stick.
- Valid driver's license and suitable vehicle for off-road work.
- Detail-oriented and able to follow systems and processes (include "LFM-Forester-1-2024" in your email subject line when applying to prove your attention to detail)

Apply Now:

Submit your resume to careers@legacyforestmanagement.com. Visit our website at www.legacyforestmanagement.com to learn more about us. We're looking to fill this position as soon as possible, but we'll take the time to find the right fit.
