

Growing Rotational Internship at WaltersGardens

About

Walters Gardens is North America's leading wholesale grower of perennial plants. As an intern, you will gain valuable hands-on experience with propagating, trialing, and growing our extensive collection of top-tier perennials, as well as in depth training in plant health. Within the rotation track, you will work in various departments with some of the best and brightest in the industry. We are growing, and we want you to come grow with us!

Details

- 12-week summer internships with flexible start/end dates
- Full-time (40hrs/week) with half-day Fridays
- Competitive pay with monthly housing stipend
- Specialized project within area of interest

Areas of Focus

- Greenhouse
- Trials Department
- Field Plant Health
- Integrated Pest Management

Walters Gardens

Located in Zeeland, Michigan

25 miles southwest of Grand Rapids, 10 miles east of the Lake Michigan

Where to Apply

Online

Accessible through the QR code (right) or the www.WaltersGardens.com/Careers page

Submit a Cover Letter and Resume

Applicants must currently be enrolled in an accredited college and have completed their first year in a two year program or second year in a four year program. Degree in related field strongly preferred.

Application Deadline: January 9, 2026

To ensure your place in the program, we recommend applying as early as possible as spaces are limited and tend to fill up quick.
