

Lawn Squad of Central Indiana is gearing up for next season and we are looking for dedicated **Lawn Care Technicians** to join our team for the **March through October 2027 season**, with training to begin this fall. Training will start this September or October and run through November.

Description

Apply lawn care treatments in a 20 mile radius around West Lafayette, serving homeowners, local businesses, and communities right here in our backyard.

Requirements

- Current student or recent graduate in Purdue University's College of Agriculture, Turf Management, or a related field
- Ability to obtain an Indiana pesticide applicator technician license (study materials and paid training provided)
- Clean background check and a solid, insurable driving record, willing to drive up to 20 miles
- Physical capability to lift up to 50 pounds repeatedly throughout the workday
- A strong work ethic, professional demeanor, and pride in delivering top-tier property results for our local clients

Benefits

- \$15 / hour for training, with a \$5 increase (\$20 / hour) once commercial pesticide applicator technician license is obtained and working during regular March - October season.
- Work with local management (Purdue 1994) to gain real-world experience with the application side of the lawn care sector

If you're ready to take your turf knowledge out of the textbook and onto the lawn, send your resume and a brief note about your background to us at

phill.zimmerman@lawnsquad.com or reach out directly, 765-744-1392 to connect.
