**FARMER-TO-FARMER
VOLUNTEER ASSIGNMENT FORM**

Summary Information	
Assignment Code	TT80
Country	Trinidad & Tobago
Assignment Title	Baking Flour Making from Cassava, Dasheen and Sweet Potato
Best dates for volunteer assignment	After January 2023
Host Organization(s)	The Tri Valley Cluster comprise of farmers, agro-processors, agricultural value-added agents, agro-tourism agents and rural community development activists from the North-Eastern regions of Trinidad- Lopinot, Brasso Seco and Aripo. The group empowers stakeholders by leading and facilitating the development of rural community agribusiness, agricultural raw material production, product and service development and innovation, joint event marketing, fund raising and awareness drives. Through various development initiatives, collaboration with industry stakeholders, and other support agencies, the Tri Valley Cluster's main goal is to create opportunities for growth, diversification and sustainability of its members whilst ensuring adherence to international standards of quality, leading to improved value and globally recognized brands.
Assignment Information	
Objectives and Anticipated Results	<p>Many of the cocoa farmers of the Tri-Valley Cluster are unprofitable during non-cocoa bearing seasons. Furthermore, on recently established estates, the long gestation of time of cocoa (3 years before bearing) creates a financial burden and cash-less period for farmers. As a result, the Tri-valley farmers would like to diversify their agri-business in terms of agro-processing, specifically making baking flour from root crops and tubers such as cassava, dasheen and sweet potato grown on their farms. The Tri-Valley farmers have no experience in this area however, and would like to learn more about making baking flour.</p> <p>A volunteer is requested to provide training to Tri-valley cocoa farmers in:</p> <ul style="list-style-type: none"> • Introduction to making baking flour from root crops • How to store and package baking flour <p>Through the volunteer technical assistance, the farmers of Tri-Valley will learn new techniques of making baking flour in order to diversify their cocoa farms and increase their productivity, marketability, profitability and sustainability in the global cocoa industry.</p>

<i>PERSUAP – Volunteer Assignment Type</i>	<input type="checkbox"/> Type 1 Volunteers provide direct assistance for the use or procurement of pesticides and are likely to recommend and/or provide advice on specific pesticide active ingredients or products. <input type="checkbox"/> Type 2 Volunteers provide indirect assistance for the use or procurement of pesticides; they are not expected to recommend or provide advice on specific pesticide active ingredients or products. <input checked="" type="checkbox"/> Type 3 Volunteers are not expected to be involved in pesticide issues. <input type="checkbox"/> Type 4 Volunteers work on a separately-funded USAID project/activity which may have a PERSUAP governing its operations related to the use and procurement of pesticides.
Volunteer Information	
Recommended Preparation	<ul style="list-style-type: none"> • Please thoroughly read and follow the instructions provided in the volunteer orientation packet. • Let field staff know if you need supplies for your assistance.

Project Overview
<p>Trinidad and Tobago is a two-island country of a diverse population with rich history and culture. As an island nation, it is under the constant mercy of changing climate that is affecting natural resources and agriculture. At present, it is a net food importing country forcing the government to refocus its attention on sustainable agriculture as a part of its 2030 country development strategy. The tropical climate and available natural resources, if used properly, can make the country self-sufficient in vegetables, root crops and some fruits with a provision to export value added products. It is an opportune time for F2F volunteers to engage with agriculture extension officers and farmers to impart knowledge and learn about the culture and endurance of Trinbagonians. The objective of the F2F Trinidad and Tobago Country Program is to improve food and nutrition security through productivity, safety, and profitability as well as strengthening the extension service through capacity building.</p>
