

CEA STUDY + INTERNSHIP SEVILLE, SPAIN

CEA Callout:
September 20 at 10:30 AM
AGAD 121D

DATES

Summer 2020 June/ July 8-Week

ABOUT THE PROGRAM

Build marketable skills while gaining résumé-boosting experience in a city that offers a down-to-earth lifestyle, as well as a multitude of internship opportunities in small- to medium-size organizations. Internships in Seville encourage you to immerse into local culture while developing practical skills in fields such as business, psychology, journalism, communication, arts, and more. Build your professional network as you gain the hands-on international experience that employers value.

PROGRAM STRUCTURE

The placement process involves three video interviews: a screening interview with your Internship Specialist, a job placement interview with your study center placement coordinator, and a final interview with your host site supervisor. The host site retains the final decision regarding placements, so it's important that your interviews reflect your maturity, adaptability, curiosity, and commitment to both your career interests and the host organization. Upon successfully completing your study center placement coordinator interview, CEA guarantees you a placement based on the personal, professional, and cross-cultural goals reflected in your interview. All placements will be secured two weeks prior to arrival. Upon placement, you'll automatically be enrolled in your internship course. Prior to departure, you will be asked to also select your preferred courses and take a language placement exam.

WHERE YOU'LL STUDY

Enjoy interactive courses that incorporate a global perspective at the CEA Seville Center. Your learning comes to life through hands-on experiences that turn Seville into a living classroom. The Center is conveniently located in the center of the city, near Seville's stunning la Giralda cathedral. Set on a pleasant campus just outside of the city center, Pablo de Olavide University offers modern amenities not often found in an urban setting, including athletic, laboratory, and technical facilities. Enjoy an immersive experience at this exclusive university. A private university located in the heart of Seville, EUSA University Center boasts one of Europe's most modern educational settings. Take courses side-by-side with Spanish and other international students for a truly integrated experience.

WHERE YOU'LL STAY

When in Seville, live as the locals do! Choose CEA housing or arrange your own independent housing. CEA housing assignments are based on availability and confirmation date; we make every effort to match your housing requests, but we can't guarantee housing preferences.
