

Discovering Agriculture, Food, Culture of the Hawaiian Islands

ANSC 49500 – 2 credits

March 11-19, 2023

To expose students to the diversity of agricultural products and practices in the Hawaiian Islands. Students will experience rich American history.

- Describe similarities and differences between the Midwest and Hawaiian Agricultural production systems
- Identify common Hawaiian agriculture products
- Recognize new perspectives about your own cultural rules and biases
- Discuss Hawaii's culture and history (Indigenous Polynesian)
- Engagement between our students and the University of Hawaii (Manoa)

Estimated Cost: \$5500-\$6000

Callout on September 15 in CRTN 1042 at 6pm
