

# Global Challenges in Jamaica

Study Abroad– Summer 2023

Dr. Julia Bello-Bravo and Leslie Fairchild

ASEC 43110 (3cr International Understandings)

Department of Agricultural Sciences Education and Communication

# Global Challenges in Jamaica

While in Jamaica students will explore Portland Jamaica and help solve sustainable issues, experience multicultural education, and encounter international agriculture. Students will study at the College of Agriculture Science and Education (CASE) as well as problem solve with local organizations on sustainable development goals.

# The Journey

- Pre-requisite course  
Spring 2023 (ASEC 590)
- Study Abroad course  
Summer 2023 (5/16-6/1)
- Lifetime of growth 😊

# Let's Skip Ahead...

These are views you will see in Jamaica while you

- ❖ Learn about their agriculture
- ❖ Visit beautiful beaches
- ❖ Interact with local communities.

# Pre-Requisite

ASEC 59000

Global Engagement: Challenges With Culture and Communication

- Don't let the graduate number scare you!
- Can be approved for 3cr International Understanding.
- The course is not challenging (like statistics), but it will challenge your thinking and problem solving skills.
- Students will learn more about SDGs, different cultures, perceptions, and how best to communicate in other places.

# Pre-Requisite

(Continued)

- Why is this class a pre-req?
- It is laying the ground for our work in Jamaica.
- Course will teach the SDGs, different communication techniques, and you will research Jamaica and find a viable solution to a problem.
- If you choose not to do study abroad this course is a stand alone course as well.
