**Credits:** 3 Credits in FNR 46000

**Locations:** Uppsala, Skinnskatteberg, Kalmar, Visby, Mariehamn, Helsinki

**Estimated Cost:** \$3800 includes housing, admission fees, and transportation in country. Airfare and meals are not included.

**Program Leaders:** Tomas Höök and Douglass Jacobs  
thook@purdue.edu | djacobs@purdue.edu

**Callout:** November TBD  
(email thook@purdue.edu to be added to info list)

In this course, we examine natural resources broadly defined, including fisheries, forestry, wildlife, agriculture, mining, outdoor recreation, and urban sustainability. During three weeks we discover and document examples where sustainability of resource use matters. The course explores the effect of terrain, marine dynamics, climate, vegetation, social structures and technologies on natural resource use. The course is a collaboration of Purdue University, North Carolina State University and SLU (Swedish University of Agricultural Sciences).
