

Articulation Agreement
Between
Purdue University, West Lafayette
And
Vincennes University

INTRODUCTION

The purpose of this Articulation Agreement is to provide a framework for the effective transfer of Vincennes University Chemical Science students to continue their education at Purdue University West Lafayette. To ensure the smooth transition to the program at PWL in Food Science, the faculty members of both institutions have developed this articulation pathway and course applications with an 8-semester plan of study, in the attached appendix, for students beginning Fall 2020.

This Articulation Agreement, including any modifications, should be reviewed by both institutions on a three-year review cycle. Further, it is expected that both institutions will keep the other party aware of any curriculum changes as they occur. While both parties to the agreement understand its purpose is to maximize the opportunities for students to transfer to Purdue West Lafayette, they also recognize that limits may be placed on courses accepted under the provisions of this agreement, should a student subsequently decide to change to another program not covered by the agreement. Students who transfer to Purdue on the basis of this Articulation Agreement may be monitored to observe their progress and performance for the purpose of modifying and improving the educational opportunities of future students. This Articulation Agreement is for Food Science programs only.

Transfer students to Purdue University from another institution of higher education through an approved articulation agreement with a signed memorandum of understanding may enter Purdue with the same catalog term that was in effect when the student first enrolled at the institution from which the student transferred. This applies if this expectation is included in the MOU, if the student completes all requirements to successfully transfer to Purdue within four years (eight semesters) of their initial enrollment at the home institution without a break in enrollment of more than two consecutive semesters between transferring from the home institution to Purdue and if the student maintains their enrollment in the program(s) outlined as part of the approved MOU.

AGREEMENT PROVISIONS

1. Admission to Purdue University

The following requirements apply:

- a. Complete an Associate's Degree at Vincennes University that meets the course requirements of this Articulation Agreement for the Chemical Sciences – A.S. Transfer Program.
- b. Fulfill the admissions requirements of Purdue University.
- c. Earn a cumulative grade point average of 2.50 or higher in the transfer coursework at Vincennes University. All Math and Science courses required for enrollment into Food Science courses (300+ level) must total a GPA of 2.5 or above. The following courses are all included in the 2.5 GPA: BIOL 11000, 11100, CHM 1XXXX, CHM 1XXXX, MA 16010, MA 16020, CHM 25500, CHM 25501, CHM 25600, CHM 25601, BIOL 22100, STAT 30100, and PHYS 22000, plus the additional BCHM 30700 & 30900 to be completed before Junior-level courses may start. CHM 25500, CHM 25600, and BIOL 22100 must all be C- or above.
- d. Once admitted to Purdue, students are subject to all Purdue academic policies.
- e. Only courses in which a student has earned a "C-" or higher will transfer to Purdue West Lafayette.
- f. Admission is not guaranteed.

2. Courses

- a. This document includes two methods for students to earn credits that will transfer to Purdue West Lafayette for application.
 - i. First, courses that are included in the Indiana Core Transfer Library will transfer as equivalent courses.
 - ii. Second, the attached 8-semester plan of study lists courses that should be completed in the first two years of study and reflects their application at Purdue West Lafayette.
- b. When courses are completed at an institution other than the partnership institution the original institution's equivalencies with PWL are used.
- c. Transfer courses do not count in a student's Purdue grade point average.

3. Partner Obligations

- a. Include the Articulation Agreement information in the catalog.

- b. Provide a counselor/advisor for students in the program.
- c. Maintain a liaison with the designated Purdue University West Lafayette representative.

4. Purdue University West Lafayette Obligations

- a. Make reference to the availability of an Articulation Agreement with Vincennes University in the Purdue University West Lafayette electronic catalog.
- b. Provide counselors/advisors for the program.
- c. Maintain a liaison.

5. Modification

- a. Modifications to this agreement may be made under consultation with representatives from both partners.
- b. Purdue University West Lafayette degree requirements are subject to change. Students and their respective advisor should consult directly with designated Purdue University West Lafayette representatives, from the program to which they will apply, for current curricular requirements.
- c. Any changes will be communicated to the partner institution regularly and require a new signature page submitted to the Office of the Provost and the Transfer Admissions Office.

Chemical Sciences - Pre-Pharmacy and Clinical Sciences Concentration 4079, A.S. Transfer

(Pre-Pharmacy, Pre-Clinical Laboratory, and Food Science)

A Two-Year Program Leading to the A.S. Degree

A degree in chemical sciences is an excellent preparation for a career in chemistry, biochemistry, clinical laboratory, dentistry, food science, veterinary science, optometry, and pharmacy. Pharmacists, Clinical Laboratory Technologists and Food Scientists are much in demand in the job-market for research and development in chemical and pharmaceutical industries, medical laboratories, and state and federal governments because the graduates acquire an outstanding range of skills in mathematical competence, problem-solving, data handling, analysis, observation, team work, communication, and report writing that employers value greatly.

Students will work with their advisors in developing their schedule according to their career goals. VU Chemical Sciences students are given excellent leadership and volunteer opportunities related to their concentrations throughout their two years at VU.
