

Miller Poultry Live Internship Program

About Us

Miller Poultry is a “People First” and fully integrated company that has been raising all natural, highest quality, and best tasting chicken for over 40 years. The Miller family carefully monitors every step – from breeding, hatching, grow-out, granary, feedmills, and processing. Our locally home-grown chickens are fed an all vegetable diet, with no antibiotics, no artificial ingredients, coloring, or hormones.

About our Internship Program

Miller Poultry’s Live Side Internship Program provides real life experience, an opportunity to gain knowledge about the company, exposure to projects and challenges within the work environment, and the ability to start a professional portfolio. All based on *your* interest.

We offer a ten or six week internship program located in Goshen, Indiana. It is typically a 40-hour week with weekends off. Our interns receive competitive compensation with housing options. We are looking for students that are currently enrolled in an undergraduate program preferably in animal sciences, agriculture, or science.

Please send resumes or questions to Kate Borders (kateb@millerpoultry.com)
