

## Sustainability Project Manager

### Job Description

FMG is seeking a project manager to manage sustainability projects with the U.S. beef supply chain on behalf of the McDonald's System. The project manager will work closely with FMG, McDonald's sustainability and supply chain personnel, McDonald's grinders, and other industry stakeholders. This individual will play a critical role in measuring, monitoring, and reporting on project-level progress within the context of McDonald's driving to meet its overall 2030 sustainability commitments. This individual will spend a significant portion of their working hours physically present in global McDonald's Headquarters supporting the McDonald's sustainability team. Minimal travel may be required in support of projects and broader sustainability goals.

### Responsibilities

- Manage sustainability project evaluation process
- Work with project partners to collect project outcomes data
  - Climate impacts
  - Water benefits
  - Biodiversity benefits
- Set up Beef Climate Collaborative meetings
- Maintain Scope 3 Progress Tracker and update reports
- Develop and maintain project management systems to track projects progress
- Help develop supporting materials for initiatives and programs
- Facilitate climate initiative legal agreements (with partners, legal)
- Submit climate initiative COGS invoices (with partners, sourcing)

### Qualifications

- Excellent written and verbal communication skills
- Prior experience with beef industry or sustainability
- Ability to work independently
- Excellent attention to detail
- Ability to work and communicate with a diverse set of stakeholders across different organizational levels and different parts of the beef supply chain
- Willing to work offsite (whether at MHQ or remotely while traveling in support of initiatives)

### ABOUT FMG

With offices in Chicago and Oklahoma City, USA and Sydney, Australia, FMG is a consolidated procurement, logistics, finance, and technology company working exclusively on behalf of McDonald's.
