Dairy Farm Intern (Equipment & Cropping)

Description: Poland Farms is a 2nd generation family-run Dairy Farm located in Boswell, IN (approximately 25 miles West of Purdue University campus). We milk approximately 325 cows using six (6) Lely A-4 Astronaut robotic milkers, as well as growing all of our forage inputs. We are a family farm operation that intends to treat and respect our employees like they are family, in a positive and friendly environment. Honesty and respect are the base of our values. We take great pride in our team and the work that we complete together.

Job Duties: We are seeking an individual to assist with daily operations, as well as, equipment maintenance on a line of general agricultural equipment and Dairy Farm specific systems at our modern Dairy Facility. This will include maintenance tasks, and field work. Types of equipment will include harvesting machinery (including self-propelled forage harvester, mower conditioner, merger, and on / off-road trucks) as well as Dairy Facility specific equipment (including robotic milking equipment), ventilation systems, and manure transfer pumps).

This can be a part-time position (10-20 hours / week) during the school year

Or

This can be a full-time / seasonal position (40-50 hours / week) during the Summer

Responsibilities:

Equipment Management

- Demonstrate an ability to operate all types of Agricultural Equipment including tractors, loaders, and trucks
- Demonstrate Basic Maintenance skills including ability to perform oil changes and grease all machines

Facility Management

- Demonstrate ability to grease pumps
- Demonstrate ability to perform basic maintenance on Milking System including scheduled maintenance

What We Offer:

- Competitive hourly pay (\$16.50 / hour) dependent upon qualifications and experience
- This position is a great opportunity to gain a background & skills in the management of the varied systems included in the daily operation of a modern Dairy Facility
