

Students in agriculture, food, nutritional science, or related disciplines are encouraged to apply for the George Washington Carver Research Internship Program, hosted by The College of Agriculture and Life Sciences at Iowa State University.

Dates: The internship program runs from **January 19 – May 15, 2026.**

During their semester at Iowa State, participants will engage in cutting-edge research and enjoy the unique experience of campus life at a Big 12 university. Here's what to expect:

- **Conduct impactful research** alongside experienced faculty mentors across a wide range of disciplines
- **Explore food systems and building capacity across Iowa** to meet the human needs from things that grow through hands-on experiences
- **Receive personalized guidance** to navigate challenges and enhance your skills
- **Participate in professional development workshops** designed to boost your career prospects

We provide our scholars with a \$8,000 stipend and a minimal travel allowance. Detailed information will be provided upon acceptance into the program.

This opportunity combines valuable research experience with real-world exposure to the agriculture and food sectors, all while helping students build a professional network.

To participate, students must be enrolled in the Iowa State National Student Exchange program. For more information, visit the [Iowa State University NSE website](#) and explore the list of participating schools [here](#).

Application Deadline: Sunday, November 2nd, at 11:59 pm
