- Research or scholarly project
- 3.25 GPA at graduation

Honors College vs. Dean's Scholars

A student can be in both the Dean's Scholars and Honors College!

Dean's Scholars	Honors College
12 credits*	24 credits*
Scholarly Project*	Scholarly Project*
Attend 8 events & write reflections	No event requirements
First-year learning community, no living component	Honors College Residence Hall
3.3 GPA	3.3 GPA
Program Coordinator (me)	Honors College advisor – meet 1/semester
Applies after acceptance to Purdue, finds out late spring	Applies during fall admission process, finds out early spring

*Designates a requirement that can double count for both Honors College and Dean's Scholars

"I am so thankful to have had the opportunity to get involved with the College of Agriculture Dean's Scholars program. It gave me a chance to be surrounded by a diverse group of students who share my same passion for agriculture and excelling both in and outside of the classroom. I made some of my best friends in the College of Ag Dean's Scholars class the first week of college and I will be forever grateful for the relationships that I have developed through this program. The Dean's Scholars program opened doors of opportunity for me, and I would encourage any incoming student to take advantage by getting involved in various activities on campus early on in their college career." – Olivia R., AGEC

Fall 2021 Industry Tour

The best thing a freshman can do is join the Dean's scholars Learning Community. From day one of classes, you have a whole new group of likeminded friends and mentors supporting you. I've been grateful for the personal and professional development opportunities afforded to me through the program." – Emma Z., ANSC

Benton County Wind Farm

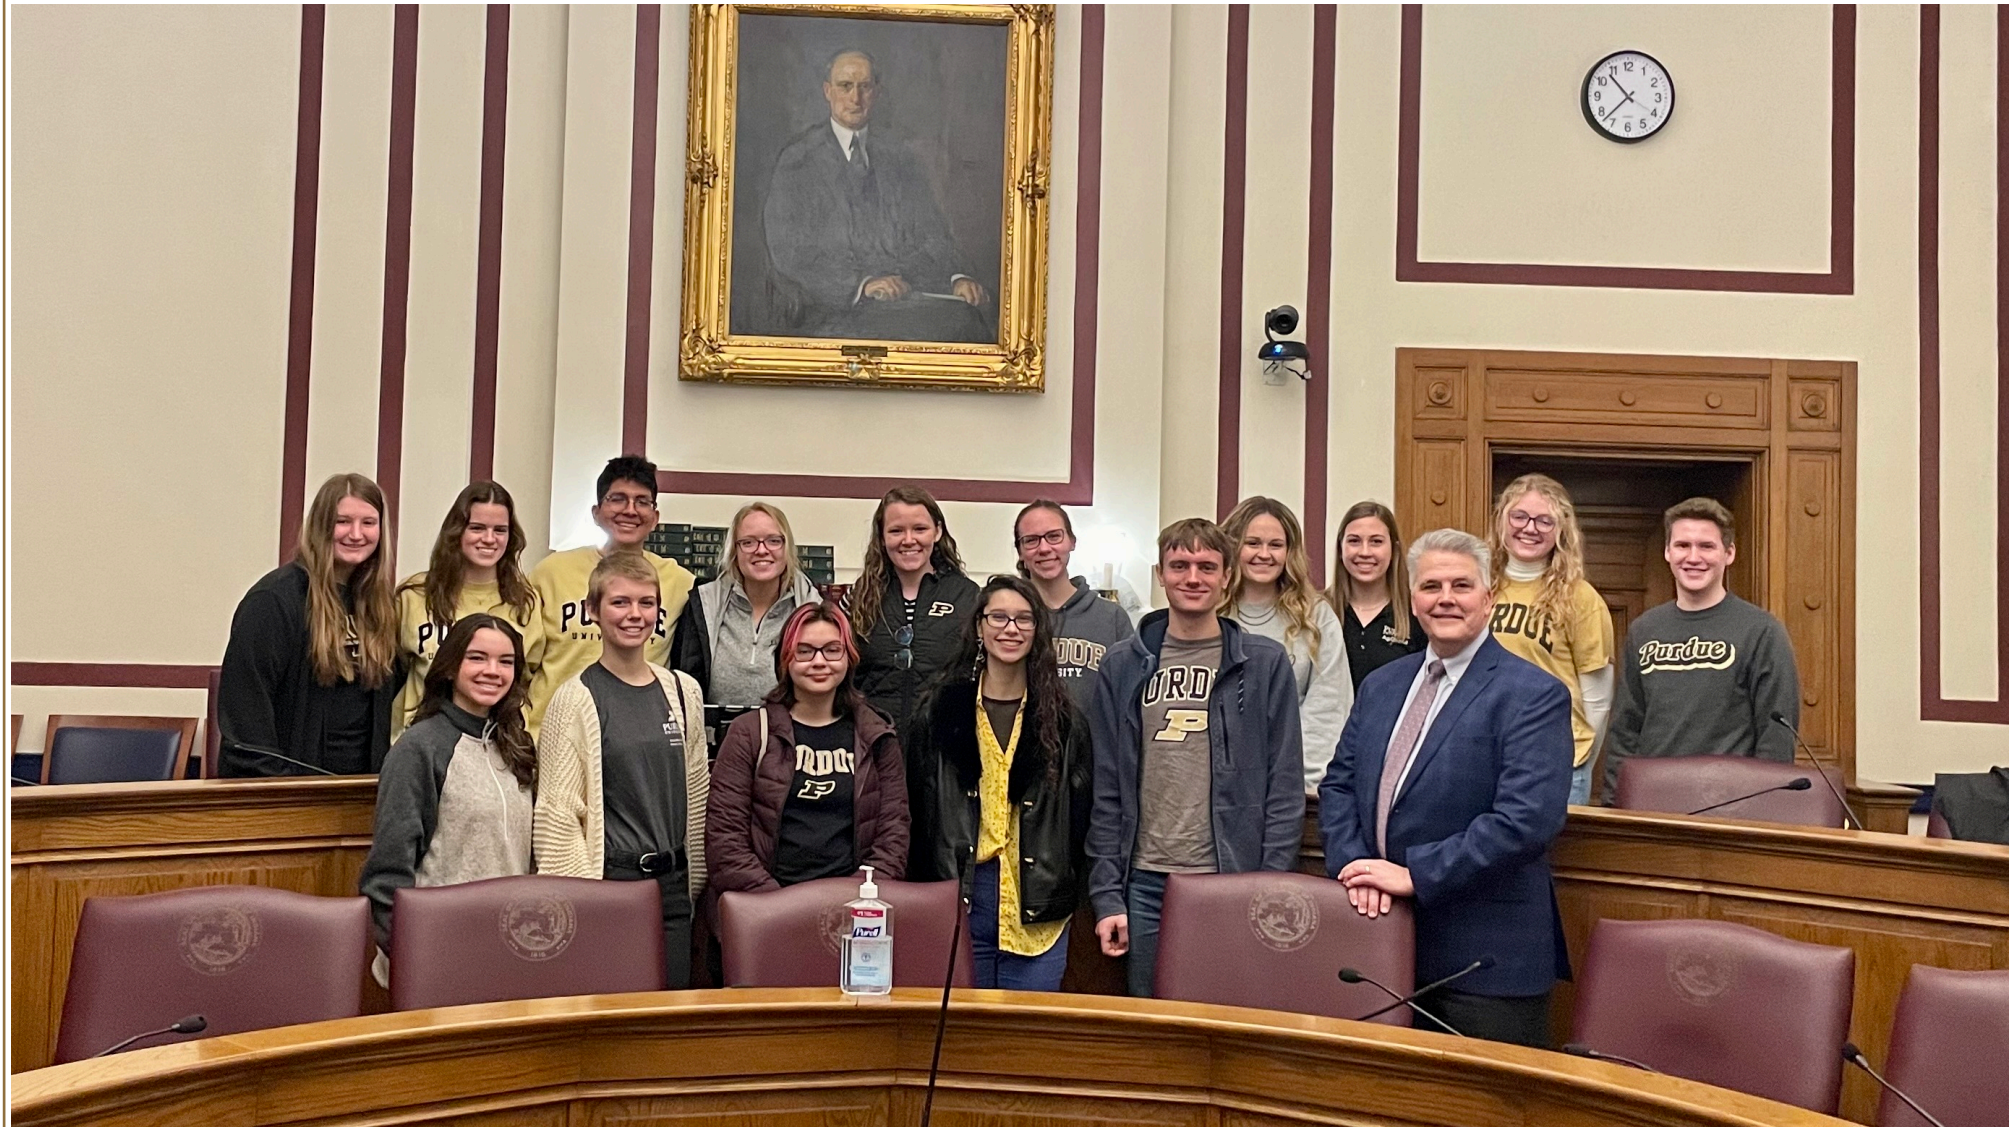

Fall 2021 Industry Tour

*"The Dean's Scholars Program in the College of Agriculture has been nothing shy of a great experience. I have been able to learn from members of the agriculture industry, and some of the leading professors in the college of agriculture. This fall, we were able to take a trip out to Benton County to learn about windmills and go to Fair Oaks Farms for an agriculture industry tour. The Dean's Scholar program has caused me to flourish and grow in College, which has caused doors to open for internships and undergraduate research."
– Amanda P., AGRY*

Fair Oaks Farms

Spring 2022 Industry Tour

Benefits

- Priority to attend and participate in College events
- Industry tours
- Special classes
- Scholarly project opportunities
- Mentorship
- Networking with industry and college professionals
