In partnership with Farm Credit Mid-America, the Support for Success Program enhances students' professional development and sense of community. Each semester, we host two workshops, a leadership retreat, and a major community experience, along with additional activities through collaborations across the College of Agriculture and the university.

Since fall 2021, over 1,200 people have participated in our events! Each semester, we strive to offer new, engaging events based on feedback from past attendees.
