Job Opening

Posted: December 14th, 2015

Title: Analyst

Timeframe: a six month position with the potential to lengthen or go full-time.

Skills: Handle and analyze large data sets
Statistical analysis: MS EXCEL is a must. Experience with building online surveys, plus experience with code-based tools (e.g., R, SPSS, SAS, STATA) is a definite plus. Data management skills (e.g., using MS ACCESS) are preferred.
Report production and technical writing experience is preferred.

Experience and qualifications needed:
Desired background:
• Experience in quantitative research, with references
• Top grades in quantitative, statistical classes.
• Fish and wildlife management education a positive, or economics training with a heavy mathematical & statistical background
• Personal fishing, hunting and outdoor experience preferred

Education: Minimum of a bachelors degree with a quantitative background. Experience is not necessary, but helps.

Location and terms: Work from Fernandina Beach, FL main office.

Compensation: Entry level: $36,000 plus annual profit sharing and 401K plan. Additional stipend provided for health care, if needed.

Contact: Donna Leonard, Vice President, Donna@southwickassociates.com. Please forward resume, experience, references, writing samples if available and college transcripts.

Closing: when filled.
