Associate Lecturer of Fish Ecology

The Department of Biology at UW-La Crosse invites applications for an academic year, non-tenure-track position at the level of associate lecturer. This position is potentially renewable for one additional year. Our new colleague will teach lectures and/or laboratories in Introductory Biology, Organismal Biology, Ecology, and Ichthyology.

**Duties/Qualifications**
Dependent on qualifications and experience, the individual may be asked to teach additional classes. Expertise in the area of fish ecology is required. Candidates must possess a M.S. or Ph.D. by the start date (ABD are encouraged to apply, Ph.D. is preferred). Teaching experience in the life sciences is required; at least one semester of experience as the primary instructor of a college level biology course is preferred.

Our dynamic and collegial department supports and values diversity in its faculty, staff, and students. We seek colleagues who will be dedicated teachers and effective mentors for students with diverse backgrounds, preparation, and career goals. Demonstrated commitment to creating inclusive learning environments and to working with students and colleagues from diverse backgrounds is desirable.

Contract begins August 29, 2016. Applicants are required to submit a letter of application, curriculum vitae, statement of teaching philosophy, and contact information for three references. Questions may be directed to the Search Committee Chair, Dr. Meredith Thomsen. **Review of applications will begin May 2, 2016, and continue until the position is filled.**

Note: Electronic submission of application materials is required. For additional information about this position and to apply, please visit [https://employment.uwlax.edu/](https://employment.uwlax.edu/).
