Wetland Scientist/Ecologist
Earth Source, Inc. is currently accepting applications for a wetland scientist/ecologist. Responsibilities include wetland delineation, functional stream and wetland assessment, wetland mitigation design development and wetland mitigation monitoring. Position requires a Masters or Bachelors Degree in environmental sciences with 2 to 4 years experience in wetland delineation, wetland mitigation monitoring or related biological fields. Preferred applicants will have additional specialization in botany/plant taxonomy, terrestrial ecology, aquatic ecology and/or GPS/AutoCAD. Communication, technical writing and project management skills are essential.

Interested candidates should forward cover letter and resume to:
