OUTREACH NOTICE
USDA Forest Service
Pacific Northwest
Data Resources Management
Geospatial Systems Specialist, GS-0301-9

POSITION: The Pacific Northwest Region, Region-wide, information management organization known as Data Resource Management (DRM) is advertising three Geospatial Systems Specialist positions (GS-301-09). The incumbent will provide support, expertise and recommendations for the development and application of geospatial information that is required to support the mission and programs of the Forests and Region.

DUTIES:

- Works with managers and resource specialists to determine type, amount and level of information required to develop and analyze ecosystem management alternatives.

- Empower public and decision makers with information by using ArcGIS Platform (ArcGIS Desktop, ArcGIS Server, ArcGIS Mobile, ArcGIS SDE, ArcGIS online) in a timely manner.

- Uses GIS technology and established GIS procedures to produce maps and graphics for various Forest resource programs, planning documents, and a variety of other requirements.

- Assists with the organization and maintenance of resource information and data to facilitate analysis across multiple disciplines including but not limited to recreation, silviculture, planning, engineering and fire.

- Manipulates and analyzes geospatial data to support resource management decisions for multiple resource, jurisdictional, and ownership units or a large geographical region. Performs multi-scale and/or multi-resource analysis in support of planning, analysis, and monitoring activities.

- Assists the organization with the building of web, mobile, and desktop apps that incorporate mapping, visualization, analysis.

REGION 6 OVERVIEW: The Pacific Northwest Region (Region 6) of the US Forest Service contains 17 National Forests, two National Scenic Areas, a National Grassland, and two National Volcanic Monuments, within the States of Oregon and Washington. The Forests provide forest products for people, forage for cattle and wildlife, habitat for fish, plants, and animals, and some of the finest recreation lands in the country.

DRM OVERVIEW: DRM provides information management solutions for decision making to
support natural resource professionals within Region 6. Divided into three program areas, DRM provides Regional services for: cartography products, remote sensing (LiDar, photogrammetry, aerial photography); data standardization and data administration activities; Records Management; Web intranet management; and wireless administration, and other services.

The DRM organization plays a key role providing Regional support to address challenging learning curves as more tools become available, and existing tools become more diverse and complicated. DRM is responsible for the management, inventory, and development of the Region’s applications, tools, and procedures to help customers achieve business-driven objectives by eliminating unnecessary duplication and helping develop common solutions.

**DUTY STATION:** USDA FS Pacific Northwest Region, virtually within Customer Service Area CSA 2 (Willamette, Rogue River-Siskiyou, Siuslaw, and Umpqua NF) or CSA5 (Colville, Okanogan or Wenatchee NF).

For more information about the various communities within each CSA, please visit the following websites:

**CONTACT:** If you are interested in one of these positions, please contact or return the attached outreach reply form to Rick Cvarak, CSA 2 Area Manager, email: rcvarak@fs.fed.us, phone 503-730-8545; or Kevin Wolfe, CSA 5 Area Manager, email kewolfe@fs.fed.us, phone 509-738-7717.
If you are interested in the above opportunity, please complete and return this form to Rick Cvarak (rcvarak@fs.fed.us) or Kevin Wolfe (kewolfe@fs.fed.us) by COB 2, May 2016.
