Job ID: 602092

Apply Before: 04/25/2016

Location: Columbia City

Full/Part Time: Full-Time

Regular/Temporary: Intermittent

Salary: $14,378.00

City/County/St: Columbia City, Whitley County, IN

Hire Salary:

Intermittent Pay Rate = $10.54 per hour, subject to change.

Job Description:

This position serves as an intermittent employee for North Fisheries Research at Columbia City, IN. Work is performed according to rules, regulations and policies established by DNR and respective agency divisions. Responsibilities may include, but are not limited to assisting research personnel in conducting field and laboratory investigations. This includes lake and stream fish population surveys, angler surveys (requiring the ability to identify fish, take measurements of fish and legibly record collected information), fish population estimates, water quality analysis, vegetation management and fish culture activities.

Assist with biological research projects by gathering and processing data, and performing related duties such as operating, maintaining and constructing the equipment used to collect the data.

Work will be conducted in the office and outdoors in all types of weather conditions. Physical labor can include lifting up to 40 pounds, walking, and working in and around water and a variety of outside and indoor environments. Work assignments may include varied schedules and hours.

Preferred Experience:

It is preferred that the successful candidate be enrolled in or completed a minimum of 1 year from an accredited university or college. Applicant should have a basic knowledge of math and scientific methods, as well as the ability to communicate effectively with the public. Applicant must have a valid driver’s license with an acceptable driving record.
Equal Employment Opportunity:

The State of Indiana is an Equal Opportunity Employer.
