NOAA Coastal Management Fellowship
Ann Arbor, MI

Description

The NOAA Coastal Management Fellowship program matches highly qualified, recently graduated master’s, professional, and doctoral degree students with state coastal zone management programs. It is a two-year opportunity that offers a competitive salary, medical benefits, and relocation and travel expense reimbursement. The recipients work on coastal resource management issues such as climate change, coastal hazards or land use planning for two years. Fellowship projects and host offices change each year. Fellow placements are to be announced.

The fellowship will run from August 1, 2018 through July 31, 2020.
