Purdue University
Extension Wildlife Specialist
Forestry and Natural Resources
Job Number: 1600542

Description

Fulfill a functional work allocation of 70% extension, 20% applied research and 10% teaching. Provide leadership in planning, implementing, and evaluating extension programming statewide related to wildlife management, with special emphasis on harvested wildlife. Extension activities may include offering of short courses, training workshops, and continuing education opportunities for natural resource professionals, and producing extension deliverables such as publications, videos, and presentations. Program evaluation and impact reporting is expected. Applied research should inform extension programming and focus on harvested wildlife. Research products will include peer-reviewed publications and presentations at state and regional/national meetings. Teaching activities will include a course on wildlife management as it relates to harvested wildlife

Qualifications

Required:
- Master's degree in Wildlife, Natural Resources or related field.
- Research or extension experience related to wildlife management, with an emphasis on harvested wildlife.
- Teaching experience.
- Familiarity with harvested wildlife in Central Hardwoods region, training in research design and statistical analysis.
- Valid Drivers License.

Additional Information:
- Purdue will not sponsor an employment related visa for this position.
- A background check will be required for employment.
- FLSA: Exempt (Not Eligible for Overtime)
- Retirement Eligibility: Defined Contribution Waiting Period.
- Purdue University is an EEO/AA employer. All individuals, including minorities, women, individuals with disabilities, and veterans are encouraged to apply.
